## Little By Little Kremlin Shutting Off Middle Europe Nations From U.S.

By SIGRID ARNE (AP Foreign Affairs Analyst For DeWitt MacKenzie) For Dewitt Machenie,
Little by little the Kremlin appears to be shutting its captive
states in the middl. Europe away
from whatever influence the west from whtatever innuence could spread in the area

The final result could be that Poland, Czechoslovakia, Hungary, Romania and Bulgaria will talk to the outside world only through spokesmen at Moscow.

No one in Washington, and in par-No one in Washington, and in par-ticular at the State department will stand for such a gloomy pre-diction. But State department people will acknowledge that over the past two years the Commu-nist governments of middle Europe have made it increasingly difficult for American diplomats to carry on their business. The Lineur:

on their business.

The Lineup:

This is the way the score now left Building

U. S. diplomats have left Bul-garia, and the Bulgarians have left the U. S.

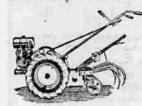

garia, and the Bulgarians have left the U. S.
Poland has demanded that the U. S. cut its Warsaw embassy staff of military attaches by 40 percent. Czechoslovakia has demanded that we get two-thirds of our em-bassy staff out of there.

Romania wants us to cut our Hungary makes the same de-

mands.

When a country makes demands like this, diplomatic procedure requires that they be met. But .—
cause of restrictions the Soviet cials on what they think of urging the country is part to the country of the cou satellite governments have thrown around the staffs we have had there, these cuts won't rally amount

if he wished. Whether anyone vould be the wiser, no agency in Washington vill say.

Bulgaria is the single nation under the Kremlin thumb from which we have pulled out completely. That happened on Feb. 24, after a great deal of provocation.

The American staff there had found it more and more difficult to work. Then the American minister, Donald Heath, was accused of being "spy" and Washington broke relations. Bulgarians here were assed to get out. They did.

The cut that Poland has asked will reduce military personnel from 10 to four officers. Our representatives in Poland will be cut from 61 in all to 55. Poland has 71 diplomatic representatives bere.

mait to 35. Poland has it diplomatic representatives here.

Romania has asked that we cut our staff of about 15 people to 10, llungary has asked a "drastic cut" of our staff of about 35 Americans and something under 100 Hungarian employees. garian employes

oth Hungarians and Romanians have only skeleton staffs in Wash and no one hears much

## **Business, Professions** Tax Planned At Portland

PORTLAND, May 26. — (Ph. — The city council has laid plans to increase taxes on business and professions, to make up for the income and property taxes vould down in Friday's election.

down in Friday's election.

The increase would be made by taxing all sales, regardless of whether the merchandise goes outside the city. At present, only sales within the city are taxed. The base tax rate, too, would be upped. The council estimated the taxes could bring in \$2,325,000, the same amount that either the income or property tax would have yielded.

ahead.

The billion-dollar cost doubtless will make only a small nick in GM's earnings, as long as the present auto-buying spree continues—and GM officials are loud in their optimistic estimates of the boom running along for many months to come.

no absolute guarantee of five years

that the dangers of a sharp defia-tion within the next five years are slim. It counts on there being a lot of money around, a lot of employment, and more and more people wanting, and affording, new cars.

cars.

On that premise, GM may be-lieve that \$1 billion is a reason-able price to pay for labor peace in a highly competitive market. Ob-servers note that Walter Reuther, the auto union chief, took occasion on announcing the GM settlement to blast again at Chrysler as still being under the "delusion that by some miracle it can get rid of

With the union playing footie-footie with GM and apparently still resentful of Chrysler, the GM posi-tion of being relatively strike-free

The powers of the control of the contro under the conditions of the con-tract. But there are certain "ifs"

Most of the billion will be paid out by you, the customer. That is, it will be included in the cost of the cars you buy—whether that means a hike in car prices, or just a cancellation of price cuts that otherwise might have come along. But, if the next five years don't turn out to be as prosperous for auto producers as GM is betting. GM likely will cuttail production, and its five-year wage bill won't be boosted by all of that \$1 billion by any means.

Might Be Strikes

And, if the wage-pension pattern GM is setting proves hard for some of the little fellows who supply it with parts, there might be strikes there, and these could tie up production at the assembly line. So that the five-year contract is no absolute guaranice of five years of labor-management neace in Most of the billion will be paid

no absolute guaranics of five years of labor-management peace in GM's overall operations, as some quarters are prone to hail it. However, it is probably a well-calculated bet on GM's part. The auto giant apparently is counting on national income staying high. It appears to believe that the free-spending era that has followed the car will continue for some time, that the dangers of a sharp deflation within the next five years

## Why the lowest-built car is best for you

Through the development of the RECESSED FLOOR, Hudson engineers have brought to you the priceless advantages of lowness which the industry has been striving for since the beginning of the automobile!

space between frame members, which is wasted in other cars, into the passenger compartment. This results in Americ LOWEST center of gravity (and full road clearance), while pr nent. This results in Americo's

IN OTHER CARS, the floor is on top of the frame, so the vitol space between frame members is not available for passenger use. The result is a NIGHER center of gravity and either a high roaf line or insufficient head room, Seats are rrower, pussenger space is reduced.

Most Room! Best Ride! Safest!

with recessed floors, their great array of high-quality, features, and advanced design, are leaders in resale alue, as shown by Official Used Car Guide Books!

full road clearance and more room than in any other car at any price. It creates the lowest center of gravity in any American automobile and, therefore, the only real hug-the-road ride—safer, smoother than ever before! Before choosing your next automobile, we cordially invite you to take "The New Step-Down Ride," and see for yourself how much you gain from Hudson's exclusive "step-down" design with its recessed floor.

Hudson's new way to build automobiles results in America's lowest-built car.

It means new beauty and true streamlining. It provides
