All persons having claims against the STATE OF FRED WHEELER now pending in the County Core in 100 of 100 of

OREGON:

NOTICE IS HEREBY GIVEN that at a meeting of the Common Council of the City of Roseburg, Oregon, held on June 3. 1800, the following resolution RESOLVED, that the Common Council of the City of Roseburg, Oregon deems it expedient and necessary to improve all that portion of South Kane Street in said City lying within Hawthorn Terrace and to construct a sewer line thereon in the following manner:

a sewer line thereon in the following manner:

First: By grading said street to street level, making all necessary cuts and fills.

Second: By paving the same to a with of 36 feet with asphaltic concrete pavenent and by construction of necessary cutsuing the same to a with of 36 feet with asphaltic concrete sidewalk.

Feurth: By excavating trenches to proper subgrades in which to install sewer pipe; laying and installing approximately 250 lineal feet of six inch sewer pipe; and 1050 lineal feet of eight inch sewer pipe; intalling inconsurer manholes; and making necessar manholes; and making necessar

are approved and adopted.
The entire cost of said improvemints including engineering, interest,
the entire cost of said improvemints including engineering, interest,
of Roseburg would not have incurred
except for he making of said improvements shall be levied upon the
property especially benefited thereby,
as provided by the Charter of said
city and no part thereof shall be
paid by said city.
The estimate of the City Engineer
of the probable detail cost of said improvements is the sum of \$18,205.00.
BE IT FURTHER RESOLVED that
the City Recorder be, and he nereny
is directed to give notice of the intension to make said improvements
as provided by the Charter of said
City.

Firefly Light Being Studied

OAK RIDGE, Tenn.—AP)—Fireflies have gone high-brow in this super-duper scientific city of the atom bomb.

They've taken up science. Or rather science has taken them up.

Dr. Hernard Strehler wants to know how a glow worm makes itself glow. Not for just idle curiosity. The former Johns Hopkins university scientist thinks that a by-product of luciferin—the substance that produces the glow—stance that produces the glow stance that produces the glow-might bring about a better electric

light buib.

The trick is to find out how the lightning bugs make the stuff. So he called on the kids around here to bring him all the lightning bugs they could find; he'd pay 25 cents a hundred.

In one day the youngsters turned up with more than \$15 worth at current prices on the Oak Ridge market. About 5,100 fireflies, by Dr. Strehler's count.

"If I can break down the light-

Assn. Of Oregon Elks

CORVALLIS, June 12 — (A) — Austin Dunn, Baker, will head the Oregon State Elks association for

Oregon State Elks association for the coming year.

He was elected president at concluding sessions of the state convention here Saturday and Astoria was chosen as the site for the 1951 convention.

Other state association officers elected were Dr. Kirby S. Fortune, Coos Bay, first vice president: Lewis Cline, McMinnville, second vice president; William Stollmack, Bend, third vice president; Ernie Scott, Medford, secretary; D. V. Bulger, Portland, treasurer; Merrill Stoddard, Baker, sergeant-atarms; Hans Soll, The Dalles, chaplain; Russell Dunmire, Oregon City, tiler; Frank Hise, Corvallis, George Fields, Portland, J. F. Fliegel, Medford, Herbert Hacker, Astoria, and Dewey Powell, Klamath Falls, trustees. In addition, two shipments of carrier type fighter and bomber planes have been ferried to France aboard the French aircraft car-rier Dixmude.

Jack Curtice Named **Utah Athletic Head**

SALT LAKE CITY, June 12—(A)

—Jack C. Curtice, 43-year-old exponent of the T-formation, has been named as the new head coach and athletic director at the University

of Utah Appointment of the Texas West-ern college, El Paso, coach was approved Saturday by the univer-sity board of regents. He succeeds were moved from the navy's Col-iumbia river reserve group at Port-land to the Bremerion yard. Their overhaul will require about eight weeks, Formerly des-ignated as LCI's (landing eraft-infantry) the ships originally were designed to carry 200 more in-fantrymen from transports well offshore or from advance bases. They are equipped with ramps sity board of regents. He successful to like Armstrong who resigned to accept the athletic directorship at Minnesota. the University of Minnesota.

GOLF RULING MADE

EUGENE, June 12 — (4P) — Public links golfers with handicaps of 5 or better may enter the 1950 Oregon Golf association tournament without invitation.

Sid Milligan, OGA president, said directors had okayed the rule, in past years a limited number

Hungary Taking Steps To Further **Isolate Country**

VIENNA—(P)—Diplomatic sources here said Communist Hungary has taken new steps to isolate that country from the West.

They said these steps are accompanied by mounting hysteria over espionage which is sweeping hundreds of Hungarians from all walks of life into jails each week as spy suspects.

suspects.
The informants gave this pic-

The informants gave this picture:

Two electric firms were ordered to mass produce a "people's radio" capable of picking up only Budapest and Moscow stations. This is aimed at slashing the effectiveness of Voice of America and BBC Hungarian language broadcasts.

One of the firm is Standard Electric, former subsidiary of the American-owned International Telephone and Telegraph company. Standard was seized by the Communist regime last December as an alleged center of espionage and sabotage. Robert Vogeler, American general manager of Standard Electric, is serving a 15-year prison sentence as a spy and saboteur imposed by a Communist People's court.

court.

fine lumber and plywood mills

ASSOCIATED PLYWOOD MILLS, INC. GENERAL OFFICES

Plywood mills at Eugene and Willamina; lumber mill at Roseburg; logging camp on Little River.

BUGENE, OREGON

It's pretty easy to take things for granted. We say to you, "Plywood is the miracle wood of 1000 uses." And you come back with, "Yes, I guess that's right." So then you buy, or don't buy, and go on your way.

But when you move on, we hope these thoughts go with you:

The Douglas fir that grows in Oregon's rain belt is the finest on the face of the earth. That's why we use it.

The mills in which we make our plywood and lumber are models of efficiency in the industry.

The folks who work with us (nearly a thousand employees) are topsskilled, interested, productivepeople with pride in their jobs, their homes, their community. So long as these elements are kept

in balance, Associated Plywood Mills will merit the respect and confidence of the buying public, of employees, of the cities in which we work and live. It has been that way during the 29 years of our existence. We aim to keep it that way in the future.
