Covered Payrolls

In Oregon Upped

Covered payrolls in nearly half of Oregon's counties were higher in 1949 than in the previous year despite a general decline of \$30 millions for the 1948 record of \$973 millions the State Unemploy-ment Compensation commission reports.

Of the 15 counties in which in-creases took place, only four—

ment Compensation commission reports.

Of the 15 counties in which increases took place, only four Marion, Douglas, Umatilia and Deschutes—were among the upper half. Sherman, smallest of all 36 counties, had the biggest gain from 1948 with 80.5 per centfrom \$224.519 to \$405.258. Morrow, Crook, Gilliam and Malheur each went up at least 10 percent.

Coos county regained fifth place by decreasing only 1 percent to \$31.758.05.80. Other leaders remained the same in position, but Multinomah county, despite a decline of more than \$10 millions from 1948, slightly increased its proportion of the state's covered pay rolls from 45.7 to 46 percent.

Changes in rank since 1940 have been numerous. Klamath, second at the start of the decade, has acryped to eighth, while Lane has nearly doubled the pay rolls of its nearest rival— Mariom— to hold the runer-up position.

Most spectacular gain, however, has been made by Douglas, which has gone from 17th in 1940 to fourth in 1949 with a payroll 13 times as large.

Douglas county payrolls for 1949 increased \$76.621 over 1948 payrolls for covered industries.

The 1949 figure was \$36.457.505 compared to \$36.380,884 in 1948.

Umatilla went from 16th to 18th.
