**Bean Sausages Are Novel Treat**

By GAYNOR MADDOX  
NEA Staff Writer

Dried beans are abundant and economical and can be cooked deliciously. To prove it, try this different recipe:

**Bean Sausages**  
(Serves 4)  
Two cups cooked dry beans, 2-3 cup bread cubes, 1 egg, beaten, 1/2 teaspoon sage or savory seasoning, salt and pepper to taste, milk fine dry crumbs.

Mash beans. Mix well with bread cubes and egg. Add the seasonings and moisten with milk. Shape the mixture in the form of sausage and roll in crumbs. Brown in a little hot fat, turning to form a good crust all over. Cook slowly about 20 minutes. Note: Bean sausages are good with tomato sauce, catsup, chili sauce, or a crisp green salad alongside.

**Glazed Ham and Bean Rolls**  
(Makes 4-6 servings)  
Eight slices boiled ham, cut thin, 1/2 teaspoon prepared mustard, 1 pound can pork and beans, 3 tablespoons dark brown sugar, 3 tablespoons water.  
Heat oven to 375 degrees (moderate). Spread ham slices with mustard. Empty pork and beans into a bowl; mash beans slightly. Place 3 tablespoons on each slice of ham; roll up. Put in a baking dish. Combine brown sugar and water to make syrup; baste ham with this syrup before placing in oven and once while baking. Bake at 375 degrees F. for 25 to 30 minutes.

The National Safety Council says there are more accidental deaths on U. S. farms than in any other major industry.

**Treasury Head Lowers Federal Deficit Guess**

WASHINGTON, June 27.—AP—Chairman Doughton (D-NC) of the House ways and means committee quoted Secretary of the Treasury Snyder Monday as saying the federal deficit for the fiscal year ending June 30 will not exceed \$3,500,000,000.

**Accidents Caused By Carelessness**

Accidents don't just happen—they are caused. This was the conclusion reached by the Secretary of State's Traffic Safety division after a survey of Oregon records for the past year.

Last year's statistics again prove the fact that most accidents could have been avoided, according to the division. Sixty-four percent of all fatal and 75 percent of the non fatal accidents occurred when the weather was clear, road surface dry. Over 79 percent involved passenger cars.

Eighty three percent of the cars involved in fatal accidents were traveling in a straight ahead direction. Of all the cars involved in fatal accidents, less than five percent had any mechanical defect.

**Dead Fish Rout Families, Hit Tourist Business**

ORLANDO, Fla., June 27.—AP—A mass burial of 2,000,000 fish is scheduled at Lake Apopka today. They died when weekend storms churned up mud in the lake and it filled their gills.

The odor caused many families on the south-southwest side of the picturesque lake to move out yesterday. The dead fish floated in masses on the surface or were

County Commissioner A. D. Mims outlined the plan for today's burial. A bulldozer was to dig a trench along the shore and the dead fish netted and dumped in it. That will cost up to \$5,000, Mims figures. But he placed the long-range cost to the area at \$1,000,000 in loss of tourist trade, restocking the lake and effects on commercial fishing.
