

**NOW HE KNOWS IT HURTS**  
**SAN FRANCISCO.**—(AP)—When a man got a bullet in his head it hurts.  
 That's what taxicab driver Nicholas Rasberry, 44, confided as he sipped his beer.  
 At the hospital Rasberry told police he had shot himself in a fit of despondency over a love affair. The bullet entered his neck, ranged upward, broke his jaw and emerged near his ear.  
 Portugal led the world spice trade until the 17th Century.

**Commons Plays Into Soviet Hands, Warning Of Eden**  
**LONDON, June 27.**—(AP)—Anthony Eden told the House of Commons Monday the labor government is playing straight into the hands of the Soviet union by holding aloof from the Paris talks on the Schuman plan.  
 The outbreak of war in Korea, the deputy conservative leader declared, makes urgent some sort of teamwork between France and Germany as envisioned by the Schuman plan for pooling European steel and coal production.  
 Eden spoke in behalf of a liberal conservative motion demanding that Britain take part in the current Paris talks on the Schuman plan. The labor government has proposed a motion of its own approving Prime Minister Attlee's stand that Britain must not com-

**Congress Needs Reason For Approving More Dams**  
**OAKRIDGE.**—(AP)—Willamette valley residents must convince Congress of the need to continue building dams in the Willamette valley project. Ronald Jones, Brooks, said here.  
 The president of the Willamette Basin commission told the third annual caravan to tour valley projects that Congress would not appropriate money unless assured the flood control power and irrigation developments are needed.  
 He spoke at the site of the proposed Hills creek dam, which congress has authorized, but without appropriating money for construction.  
 Jones said \$23,000,000 was appropriated for the 19 projects in the current fiscal year, that another \$30,000,000 was hoped for in the next fiscal year, but that it will take even more if the dams are to be completed on schedule.

**PROGRESSIVE ANGLING**  
**SAVANNAH, Ga.**—(AP)—Want to know how to turn an insignificant shrimp into two snappy sharks?  
 This formula isn't guaranteed to work every time, but here's how Comer Train of Macon, Ga., did it. He started out on the Vernon

river, about seven miles from the open sea, with a little shrimp for bait. The shrimp caught a yellow tail. The yellow tail caught a catfish. The catfish caught a large sting-ray. The sting-ray caught a 6-foot, 8-inch shark. He went back Sunday morning and, using the same sting-ray again, pulled in a 7-foot, 10-inch shark weighing 190 pounds.  
 Brush patches, hiding sizeable groups of cattle, are hindering the battle against foot and mouth disease in the southwest.

mit herself to decisions which might adversely affect her own and the commonwealth's economy. Attlee has accepted the issue as one of confidence. If he should lose in the vote tonight, his government would have to resign. He is expected to win, however.  
 Eden told the house:  
 "The news from Korea urges the need for all free countries, east and west, to align themselves and their policies and to agree their plans without delay."  
 "Certainly no event could give more confidence for the president or more hope for the future than to find a practical means to reduce and finally to eliminate the possibility of a future war between France and Germany."  
 "In all its dreams Russia could hope for nothing better than the reduction of Britain to the status of observer in Franco-German relations," Eden continued.
