

**Murder Charge Confronts Youth Crime Club Member**  
 LOS ANGELES, June 30 (AP)—A cocky 17-year-old member of a teenage crime club is under indictment by the county grand jury today for murder, robbery and attempted robbery.  
 He is Tommy Cook, accused of fatally shooting Dominic Calarco, 26, during the May 12 holdup of a Long Beach liquor store.  
 One of the several teen-age witnesses was Tommy's girl friend, Peggy Byrns, 15, accused of driving the getaway car used in the holdup. "I'll wait for Tommy. I still want to marry him," she sobbed to newsmen.  
 Authorities say the high school students studied radio crime programs, read crime comic books and laid elaborate plans for robberies.  
 Cook faces superior court trial. The others face juvenile court robbery charges.

**American Business May Be Affected By War In Korea; Cost Of Living Up Sharply**

By SAM DAWSON  
 NEW YORK—(AP)—The Korean war scare casts a shadow of uncertainty on the business scene. The curtain is falling on a lively first half, an even better one that many observers had predicted. The new uncertainty comes when observers were sharply divided as to what role would be played by the second half, waiting in the wings.  
 Some think the second half will be as cheerful as the first. Others think the peak is about reached. Almost all of the business indicators are rising or still high. But a few signs of a slowdown are now reported. A washing machine factory lays off its second shift as sales drop. Television set sales go into the expected summer slump. Farm income is running behind last year, although prices have been rising in recent weeks.  
 But most of today's news points the other way. Employment is up, and basic industries are booming. Soft good industries are stirring. The war scare will have to get more tangible to affect most of these right away. A warming up of the cold war usually stimulates some part of industry. Congress loosens up the purse strings for defense or foreign aid. Consumers buy goods they fear may go out of production.  
**Developments Listed**  
 Here are some of the things just reported on the general state of business, and some on specific industries:  
 Mills, factories and mines employed 11.8 million persons in May, a gain of 320,000 in a month, and nearly a half million above the year before. It brought total non-farming employment to 43 million, a gain of 1/2 million since February.  
 Weekly earnings in manufacturing plants rose for the sixth straight month to another all-time high of \$57.50, making consumer purchasing power higher than ever. Steel production continues at record levels. Car and truck production set a new high last week for the third week in a row.  
 Rubber consumption hit a new high in May, 109,237 long tons, a gain of 15 percent in a month.  
 Paper productions — as useful indicator because it rises and falls

**Icebox Trap Kills Tots In 2nd Family Tragedy**  
 TOLEDO, O., June 29 (AP)—Just two years ago this month, four-year-old Eugene Hackney was killed by a truck.  
 Husey Hackney, mourned the deaths of their other two children, Howard, 8 and his sister, Shirley, 4. They suffocated in an abandoned icebox in a shed at the rear of their home yesterday.  
 The bureau of labor statistics reports its index up 8-10th of a percent in May. Food prices were up 1.9 percent, with meat the main culprit, up seven percent.

**CITY BUDGET TRIMMED**  
 CENTRAL POINT—(AP)—The city council has trimmed its budget, which is what the voters wanted all along.  
 The total proposed expense outlay came to \$4,500 more than allowed under the legal 8 percent limitation. The council called for a vote, and the voters said "No." The council called another election. Again the voters balked. The biggest cuts will be made in the city park and emergency funds.

**Announcement . . .**  
 Dr. E. W. Carter  
 Chiropractor—Foot Specialist  
 Announces the removal of his offices to 217 N. Main St. Ground Floor—Next to The News-Review

with the amount of goods being packaged and shipped — rose to 103.7 percent of rated capacity from 102 percent the week before, and compared with 78.1 percent a year ago.  
 Lumbermen report shipments were 6.9 percent above production and their backlog of orders amounting to 58 percent of mill stocks.  
 Furniture makers booked 24 percent more orders in May than in April, and 34 percent more than a year ago — although May is usually a slow month.  
 Clothing makers are feeling better, too.  
 Shoemakers say production so far this year is topping 1949 by 2.3 percent.  
 Against all this good news it's sad to have to add:  
 The cost of living has taken its sharpest spurt in nearly two years.

**WELL DRILLING**  
 6" and 8" holes. All Work Guaranteed  
 Earl Prescher, Melrose Cleveland Hill Rd. Rt. 3, Box 810

**Cherry Sundae by SNACK SHACK**  
 YOU CAN'T HIDE FROM OLE JARRET, CHERRY, M'DEAR!  
 HOW ON EARTH DID YOU FIND ME? HOW DID YOU KNOW MY NAME?
