U. S. Action Anent Korea Stirs Red Cry of Wall Street

NEW YORK, June 30 —(AP)—The Daily Worker, official organ of the Communist party in the United States, carried this page one headline Wednesday: "Prevent World War III! Communists urge people halt Wall St. intervention in Asia."

In its lead story on the Korean situation the publication quoted a statement by Communist party national secretary Gus Hall, Henry Winston, organizational secretary, and John Williamson, labor secretary, which said in part:

"Atomic war threatens the people of the world. President Truman anticipated the danger of that catastrophe Tuesday when he ordered hostilities against the peoples of Asia without an official declaration of war."

"His orders speeding our bombers and warships to intervene against the Korean people are the adventurist, aggressive imperialist operations of Wall street for domination of all Asia and the Pacific."

"The military provocation in Korea is planned as a smoke-screen behind which to intervene against the struggle for independence of the peoples of Korea, China, Formosa, the Philippines, Viet Nam, Indonesia and Malaya."

Sen. Taft Thinks Mistakes Call For Acheson To Resign

WASHINGTON, June 30 —(AP)—Senator Taft (R-Ohio) told the senate Wednesday he supports the use of American armed forces in Korea but believes Secretary of State Acheson should resign.

Taft said that any secretary of state who has been "so reversed by his superiors and whose policies have precipitated the danger of war had better resign and let someone else administer the program to which he was, and perhaps still is, so violently opposed."

Taft told the Senate he believed President Truman was right "and the policy laid down Tuesday by President Truman was right," and "I see no choice except to back up wholeheartedly and with every available resource the American men in our armed forces who have been moved into Korea."

"We are actually engaged in a de facto war with the Northern Korea Communists," Taft said.

"That in itself is serious, but nothing compared to the possibility that it might lead to war with Soviet Russia."

He said there could only be the hope that Soviet leaders "have sufficient judgment to know that a world war will result in their own destruction, and will therefore refrain from such acts as might bring about such a tragic conflict."

Senate Democratic leader Lucas, in an expression of confidence that the U. S. and Russia are not going to war, said the goal of a July 31 adjournment of Congress still stands.

The United States uses about 14 pounds of manganese for every ton of steel produced.

Donald B. Lee Upped To Air Force Corporal

Cpl. Donald B. Lee, son of Mr. and Mrs. Menzie Lee of Roseburg, was recently promoted to his present grade, according to an announcement by headquarters, 20th weather squadron, Nagoya, Japan.

Prior to enlisting in the air force, Lee attended Roseburg high school. He was formerly employed at the Wilbur Lumber company. Primary function of Cpl. Lee's organization in the occupation is to provide complete weather coverage for both air and ground operations. This, according to headquarters, is accomplished through utilization of weather detachments situated at each of the major air bases throughout the Japanese islands.

Josephine Court Faces Charge In Forest Policies

GRANTS PASS, June 30 —(AP)—Charging Josephine county-owned forests are being wasted and squandered and taxpayers defrauded, a temporary injunction against the county court was obtained in circuit court here by three taxpayers.

Although suing as individuals, the trio are connected with three major local lumber companies, they are Harry Terrell of Terrell Lumber Co. and subsidiary concerns; R. T. Moore Jr. of Moore Timber Products, and Willard O. Spies of Cabax mills.

Circuit Judge O. J. Millard ordered a hearing for July 8.

The complaint charges the county court has been disposing of some 50,000 acres of county timber without competitive bids, at prices arbitrarily set by resolution Nov. 26, 1948, which are far below current market prices. It further charges that favored buyers have been permitted to reserve for future purchase large tracts by the payment of small sums termed "cruise deposits."

Lutheran Service Time Changed, Camp Planned

Rev. Richard Graef, pastor of St. John's Lutheran church in Sutherlin and the Lutheran church in Myrtle Creek, announced today that hereafter the Myrtle Creek services will begin at 4 p.m. instead of 7:30 p.m. every Sunday.

The services will continue to be held in the Myrtle Creek grange hall. He also announced that during his absence July 2 and July 9, Rev. W. Sylvester, pastor of St. Paul's Lutheran church in Roseburg, will conduct the Myrtle Creek services on those two Sundays. Together with several other southern Oregon Lutheran pastors and church leaders, Rev. and Mrs. Graef will serve on the staff of the Lutheran young people's camp to be held at Camp Grayback, near the Oregon Caves, from July 2 to July 9 inclusive. The camp is being sponsored by the Walther league, the youth organization of the Lutheran church — Missouri synod, with Rev. Carl Eggers, pastor at Grants Pass and former Lutheran army chaplain, serving as the general manager of the camp.

Cement was used in building the pyramids of Egypt.

Doctor in Cancer Case Gets Nod To Resume Practice

CONCORD, N. H., June 30 —(AP)—Dr. Herman N. Sander, county physician, Wednesday won a back from the state board of registration in medicine his right to practice.

The board restored his license to practice, which it had suspended after he was acquitted March 9 of a murder charge in the death of a dying cancer patient, Mrs. Abbie Borroto, 59.

At his trial which failed to become a test case for euthanasia (mercy death) as expected, the prosecution contended Dr. Sander administered a deadly quantity of air into Mrs. Borroto's veins. The defense satisfied a jury the woman already was dead before the injection.

A long file of defense witnesses also testified the physician never failed to respond to a call, regardless of the hour; that payment for his services never was a consideration; that even a broken leg failed to interrupt his rounds.

Dr. Sander's right to resume practice is effective immediately.

FOUR MORE QUIT REDS

BERLIN, June 30 —(AP)—Four people's policemen deserted from the Soviet zone in the past 24 hours and asked for asylum in West Berlin, Western police announced today. More than 50 desertions from the East German "police army" have occurred since mid-May.

Shorter Week Plan For Barbers Stirs Revolt

PORTLAND, June 30 —(AP)—Barbers who object to a five-day week as too short began a revolt here Tuesday night.

A number said they would continue to work six days. Many said they would leave the AFL union, and join the CIO.

The AFL barbers voted recently to go on the five-day week the rest of the summer, keeping shops closed Sunday and Monday.

Seventy shop owners Tuesday said they would stick to the six-day schedule.

Russian Youths Given Democracy Course Bid

SPRINGFIELD, Ill., June 30 —(AP)—Five Russian youths have been invited to Illinois next year "to learn how democracy really works."

The invitation was cabled by the Illinois Boys' State Wednesday to Premier Josef Stalin. The invitation said:

"Boys' state is anxious to have Russian youth gain first-hand knowledge of our two-party democratic system of government. We invite them to weigh the value of our system to the Russian one-party system. We are not fearful of the outcome of such a test. All expenses paid during the eight-day tour."

HOMEMAKER'S GRACE NOTES

Whether your home is small or spacious, elaborate or casual, the one quality it must have is livability. And this is easier to achieve than you think. All you need is a determination to combine comfort and convenience effectively, and the time and patience for some intelligent planning.

Small secrets are the homemaker's grace notes... like a nest of tables tucked in an unsuspected corner, waiting to be pulled to hand's reach for a tea cup, snack plate or beverage glass. The footstool adroitly placed within reach of the chair that's an inch too high. Comfortable furniture arranged around a focal point in your room for easy conversation. Pictures hung at eye level; the coffee table, like in the room sketched above... big enough for a "picnic in the parlor" when the game on the radio is too good to leave, or the family's favorite television show is on.

Never underestimate the importance of TABLES. End tables, console tables, game tables. For small dining areas there's nothing quite like a drop leaf or gate leg for space saving.

These are the touches that make a house a home... the hours spent there long remembered.

Is your home in step with the times? Why don't you come in and talk to us about it? We're looking forward to seeing you.
