

**RICHIES' DRIVE-IN**, located on Highway 99 N. across from Roseland Auto courts, will officially open for business Thursday, bringing to four the number of drive-in restaurants serving the Roseburg area. The new structure, valued at about \$12,000 including equipment, was built by the Halford and Goodenough Construction company. The drive-in is one of several nationally organized and locally owned, according to owner-operators Don Hurley and Lester Nelson. In addition to car service, the drive-in is equipped with a ten-stool counter to serve the specialties — broiled sandwiches and frosted root beers. (Staff photo.)

When Connolly discovered the new-born kittens July 4, they were "all joined together" at the stomach. Taken to veterinarian George L. Nicholas, the kittens were joined together, but not by birth. Dr. Nicholas discovered the kittens were wrapped in a small bundle by the mother cat, who had so entangled them in ordinary string that they had to be cut apart. One of her four kittens was deformed, probably due to Fluffy's packaging efforts, and was disposed of. The three remaining kittens seem to be no worse for wear. Dr. Nicholas said he had not had a similar experience since he began practicing in 1902. (Staff photo.)

#### THE SERVICE THAT NEVER SLEEPS

Round the clock, your telephone is one of today's best bargains

1. Keeping night patrol throughout the West, hundreds of telephone people are on duty to help meet emergencies and make sure your telephone will be ready to work for you when you want it. Many maintenance jobs are done at night while most telephone users are asleep. Lines are checked with electronic testers. Sensitive switching equipment is vacuum cleaned to help stop trouble before it starts.

2. In the quiet hours of the night, operators handle relatively few calls... but often they are unusually important. Repairs are on call for service on important lines... doctors, hospitals and the like. Garagemen check and equip trucks for the next day's installation rounds. Building service workers make offices spic and span. All have an important part in keeping your service reliable.

3. Day or night, workday or holiday, your telephone remains one of your most valuable and useful servants. In spite of postwar inflation, telephone rates have gone up far less than our costs of providing service. On the average, rates have gone up less than half as much as the cost of living generally. A few pennies still buy a call... whether it be important or routine. Your telephone still gives you a big value for your budget dollar.
