BOSTON, July 13—(AP)—Gen. George C. Marshall wants the collection of blood for peace and possible war expanded.

The president of the American Red Cross said the blood is needed to meet demands in civilian medical practice and to serve as a bulwark against a major disaster or national military emergency.

The Red Cross now collects about 12 percent of all the blood used in the United States. The general said that in case of an emergency it could increase its share of production four-fold.

Well Installed At Girl's Tye Camp

Additions to Camp Tye facilities at the Camp Fire Girls' summer camp site include a well, which was drilled and in working order the opening day of camp. According to council members, several local residents assisted in making the well possible. Included in this list were Walt Kernin, Harold Gingrich, Wayne Crooch, Mr. and Mrs. Tom Pargeter and Umpqua Valley hardware.

Routine camp business was discussed at the council meeting Monday with Mrs. Harold Hoyt presiding. Rising food prices are causing much concern to the food committee, headed by Mrs. Jack Chapman and Mrs. William Unrath. Parents and friends are asked to join in groups to furnish treats for the girls to assist the food budget. Those interested may contact either of the committee members. Such treats will be picked up and delivered.

Parents are reminded that the Roseburg Meat company is listed as the camp depot this year. Visitors are welcomed to camp only on Sundays between the hours of 2 and 6 p. m. according to Mrs. Gladys Amundson, who is in charge of the Camp Fire office during Miss Barbara Lou Kitt's absence. The latter is acting as camp director.

Water Or Well First? Problem Blocks Loan

WHITESBURG, Ga., July 13—(AP)—Which comes first, the water or the well?

Whitesburg officials asked the Reconstruction Finance corporation for a \$50,000 loan to build a water system. They proposed to dig a well and build a tank.

But the RFC said it must be assured of a water supply before granting the loan.

City fathers want to know how they can find water without digging a well, and how they can dig a well without finding some money.

Well?
