

Lutheran Church At Sutherlin Sets Day Of Dedication

Voters of St. John's Lutheran church at Sutherlin Monday decided to schedule Oct. 3 as dedication day. This late date was set in order to allow sufficient time to finish up all the details of the new church building.

The church was started last spring and has been built entirely with volunteer labor. It is built of pumice block and reinforced with steel throughout. The main chan-

cel is 50' x 24' and the meeting room is 30' by 16'. The spacious entrance fronts on Kruse street and can be seen the entire length of the street. The lots upon which the church is built are large and afford sufficient room for the recreational program of the church for its young people. Picnic facilities are planned for the back of the lots and an outdoor chapel in the grove of trees behind the church.

The church has been finished to the point where services can be held in it. The first service was held July 2 with an attendance of 72. The voters decided to continue holding services in the new building.

At the same meeting the voters discussed ways and means for fi-

ancing the new Hammond organ which has been ordered. It was announced that Frank Alexander, manager of the organ department of the Sherman Clay Music Co. of Portland, will meet with the men this Friday evening at 7 p.m. to help them with their plans.

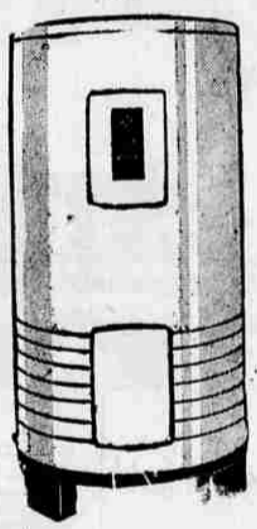

It was decided to have the organ installed in time for the dedication service. Rev. Richard Graef, pastor, was authorized to make plans for a speaker and for the publication of a special dedication booklet. Other plans were left in the hands of appointed committees.

IT'S A HINNY. Momma is a donkey, but there is some doubt about her offspring when it arrived at a riding stable near Pontiac, Mich., operated by Arthur Thorne. Poppa of the youngster is a palomino stallion. They're shown with mother and son, didn't know exactly what to call the newcomer but a checkup reveals it's simply a hinny, something along the line of a mule, with the mother-father combination reversed. (AP Wirephoto.)

Strikes, Steel Shortening Cut Auto Output Pace

Detroit, (AP)—Supplier strikes and a shortening of steel is giving concern for the booming production of the auto industry.

Two strikes already have slowed assembly lines in some plants. The steel supply problem, however, loomed as more serious. Heavy production in industry generally has cut into steel stocks. The auto industry itself has been producing at all-time record rates. President Truman was said to be considering a request to Congress for stand-by power to allocate steel and other critical materials because of the Korean war.

The Ford Motor Co. thought for a brief time yesterday it might have to eliminate Saturday overtime work because of reduced steel supplies. But after rechecking the problem, the company said it would continue overtime production at 10 of its 15 Ford assembly plants from seven to all 15 of these plants each Saturday on overtime this year.

Ford said its only curtailment would be a reduction from five to four days a week for the remainder of this month at its Metuchen, N. J., and St. Louis Mercury plants.

At the same time Ford said a strike at the Budd Co. plant in Philadelphia would force a 20 percent cut in truck production starting today. Ford depends on Budd-

Drain Boy Scout Writes Of Tour, Jamboree Events

"The Boy Scouts of Douglas county have been having a wonderful and adventurous trip," writes Jimmy Whipple to his parents at Drain. Jimmy is a member of the scout encampment at Valley Forge Pa.

"We went through Yellowstone park June 22 and all the boys were very thrilled at seeing the pools and geysers. The next day was spent going through the plains. We arrived in Hannibal, Mo., and had breakfast in the Mark Twain hotel. While there we saw Tom Sawyer's home and the Mark Twain museum.

"On the way back to the train, everyone was about to drop in a puddle of sweat—it was so sultry. We reached St. Louis that afternoon and ate box lunches as we went to the zoo on buses.

"When we reached the zoo we were divided into patrols and put on our own to do as we would. We had our choice to go to the zoo, go boating on the lake, see the opera, the Rosalia, or go to the amusement park. As it was, everyone came to the opera, eventually. We were all amazed at the size of the outdoor pavilion.

"We boarded the train and arrived in Washington, D. C., about 8 a.m. the next day. We took our packs to the Willard hotel and took a tour, including Mt. Vernon, the monuments and buildings around the capital and the White House.

"We entrained for Philadelphia and arrived in Valley Forge the next evening.

"We had a grand time there, getting our camps in order and meeting our neighbors. On June 30, President Truman officially opened the jamboree. The second of July we had a group sing of all the boys in camp, led by Lannie Ross of radio fame.

"The next day was spent around camp, cleaning up our areas. Toward evening there was an electrical storm with all the trimmings. We had a small party for Gifford Evans, as it was his 15th birthday.

"The Fourth was very slow in anticipation of the fireworks display that night. About \$6,000 worth of fireworks were shot off to make it one of the brightest spots of the jamboree. General Eisenhower gave his speech that evening and led the Scouts in the pledge of the flag.

"Our troop was both surprised and honored to have Mr. and Mrs. Cool of Drain and Mrs. Mary Gallop of Pennsylvania as our guests for the fifth. July 6 was spent taking down our camp. It was surprising to see how clean the park was when the scouts left. After one week of camping the grounds were as clean or cleaner than when we arrived.

"We boarded the train that evening and pulled into Jersey City, the next morning. Upon arrival we got on buses and went into New York City."

PLANE CRASH FATAL

CORPUS CHRISTI, Tex., July 14—(AP)—One naval reservist was killed, but three others were rescued yesterday when their twin-engine plane smashed into the gulf of Mexico.

Killed was A. G. Custer, an Ohio State university student on two weeks of active duty.

Legion Peeved At Poor Response To July 4 Show
MILFORD, Conn., July 14—(AP)—The American Legion said today it isn't going to put on any more Fourth of July fireworks displays here unless the spectators show more appreciation than they did this year.

The Legion passed the hat among the estimated 5,000 persons at its display last week and this, it said, is what it got:

Eighty-nine dollars in cash 93 bus tokens, no good since bus fare went to a straight ten cents more than a year ago assorted nuts and bolts, and four and a half pounds of pebbles.

estimated at 720,545,000 bushels compared with 710,156,000 produced for forecast in June, 901,668,000 harvested last year and 738,821,000 the ten year average.

Durum wheat was forecast at 30,633,000 bushels compared with 28,614,000 indicated a month ago, 38,864,000 last year and 35,753,000 for the ten year average.

Other spring wheat was forecast at 205,408,000 bushels compared with 207,744,000 indicated a month ago, 205,931,000 last year and 235,738,000 for the ten-year average.

Oats were forecast at 1,394,772,000 bushels compared with 1,380,032,000 for last month, 1,322,924,000 grown last year and 1,274,474,000 for the ten-year average.

The indicated production of other crops compared with last year and the ten-year average, respectively, included:

Potatoes 390,432,000 bushels; 401,962,000 and 403,284,000.

Sugar beets 12,526,000 tons; 10,197,000 and 9,938,000.
