**Present Trend In Meat Prices Is Downward**

CHICAGO (AP)—The present price trend in meat is downward, says the American Meat Institute, after "panicky buying" had caused some meat prices to skyrocket. The institute said the "panicky buying" started when the Korean "situation developed." It added: "Now, however, this pressure—and that caused by people who rushed to fill freezer lockers, etc.—has lessened and the present price trend is downward, especially on popular pork loins and some of the less popular but equally nutritious cuts of other meats. The institute, which represents the nation's meat packing industry, added that "this is the season when meats always are in undersupply, so we do not know what the immediate future holds." But it said that the future situation appears to be "brightly indicated and sufficient to meet normal requirements."

"Consumers can keep it this way if they will buy meat as they need it and avoid over-buying, especially of the fancier cuts."

The biggest facetime pork crop in history is in the making, the institute said, and added that 34 percent more cattle now are on feed than a year ago.

Some meat packers, the institute said, have "cracked down on potential profiteers" in canned meats.

"There is no present shortage in canned meats, nor is a shortage apparent for the foreseeable future," the institute declared.

"The industry is alert, and allergic to any activity which would only lead—as it did during and immediately after the war—to rationing and consequent denial of meat to the average consumer and the enrichment of crooks that operated in the black market."

**Policeman Killed Saving Neighbor From Holdup Man**

NEW YORK, July 24 (AP)—An unarmed vacationing New York policeman, wearing his bedroom slippers, was shot to death Friday night saving a neighbor from two holdup men.

The neighbor escaped with minor injuries, and minutes later witnesses helped other police track down two suspects.

The dead patrolman was Alfred Loreto, 45.

Loreto, wearing civilian clothes and slippers, was in his own car when he picked up a police radio broadcast for two robbery suspects in his Bronx neighborhood.

Almost immediately he saw two men jump into the moving car of Ralph Squeglia, 45, a butcher who lives in the same block.

Squeglia said they beat him with fists and gun butt as he tried to protect his day's receipts of nearly \$1,500.

Squeglia managed to swing the car into the curb where it stopped, and Loreto came running up. Witnesses said one of the gunmen fired at the policeman twice, point-blank, and then both fled as he fell to the ground.

The pursuers alerted other police, and the two men were run down and taken into custody without a struggle.

They were identified as Rudolf Santobello, 25, and John Corbo, 32, both of the Bronx.
