The fatal accident occurred as Lathrop inspected a load of coal gondolas at his Healy River Coal Corp., holdings at Suntrana, 112 miles south of here.

Dr. Paul B. Haggland of Fairbanks said the operator of the gondolas failed to see Lathrop and released a loaded car down a slight incline. The industrialist either tripped or fell under a wheel.

Struck Journal Target For Incendiary Device

NEW YORK —(AP)—A missile—described by the CIO American Newspaper guild as firecrackers and by management of the New York World Telegram and Sun as a home-made incendiary device exploded outside the struck afternoon newspaper plant today.
Part of the plant on West street was smoke-filled, but no one was injured.
Members of the guild have been on strike over wages and other contract benefits since June 13. Union mechanical employees declined to cross picket lines and the big afternoon daily has not published since that time.

Harry Bridges Handed Two New Union Rebuffs

SAN FRANCISCO. —(AP)—Longshore leader Harry Bridges was booed last night at a meeting of his CIO Longshoremen's union local No. 10 when he rose to oppose an impending loyalty check of dock workers.
It was the same local which rebuffed Bridges several days ago when he asked its members to vote down a resolution which condemned Communist aggression in Korea and pledged full support to the U.S.

The government check of dockers and merchant sailors will begin Monday.
Meanwhile, another of Bridges' union locals—No. 6—condemned "unreservedly" the "wanton aggression of the Communist controlled forces in North Korea."

The local adopted a resolution—similar to the one Bridges fought against—at a meeting with 2,000 warehousemen present.

Beale told a defense supply and planning committee in Melbourne that its job is to build a stockpile of needed materials to bolster the armed forces and to plan the immediate mobilization of key industries in the event of war.
Army and Navy Minister Josiah Francis said about 100 men had applied in Sydney during the first few hours.

Pipeline From Texas Has Oregon Official's O.K.

SALEM —(AP)—The proposed \$172,000,000 pipeline from Texas to the Pacific northwest would cut gas rates in Oregon about in half, public utility officials' commissioner H. J. Flagg says.
Flagg also said that the line, which would be built by the Pacific Northwest Pipeline corporation of Houston, Texas, would go a long way toward relieving the power shortage. He said many industries probably would change over from electricity to natural gas if the line were built.

Flagg said he will advise the Federal Power commission that he approves of the commission's plan to hold hearings on the pipeline application. But, he said, he does not plan to appear at the hearings. The dates for the hearings have not yet been set.

He said he would do anything he could to speed construction of the line.

Six Men Die When Plane Crashes During Storm

OAKLEY, Ark. —(AP)—A twin-engine air force plane crashed during a thunderstorm yesterday, killing six men aboard and scattering wreckage over a two-acre area.
The plane, a B-25, hit in a pasture about 12 miles southeast of this western Kansas town.
Some of the crewmen apparently attempted to parachute. A chute on one body was ripped open. Parachutes were strapped to three other victims.
Officials at Randolph Field, San Antonio, Tex., the plane's original base, said names of the dead would be released there as soon as next of kin had been notified.
