

Burglar Toils Heavily To Gain Little Booty

VAN NUYS, Calif. — (AP) — For all the work you put into it, crime doesn't pay.

A burglar scaled the fence around Lawrence Allen's cement block factory, pried open a door with a crowbar, jimmied an office door and hauled in welding equipment from the shop.

He knocked the tumbler from the office safe, but in trying to burn it open, he welded it together instead. Then he burned three holes in a smaller safe but couldn't open it, either.

Net take for the night's work: \$10 from a strongbox. Both safes were empty anyway.

PFC. ARTHUR E. WILSON, son of Mr. and Mrs. Arthur E. Wilson of 1935 Fairmont Ave., Roseburg, is now home on 20 days leave visiting his parents. He has just completed 10 weeks training in air force supply at Lowry AFB, Denver, Colo. On completion of his leave he will be assigned to the Alaskan air command. (Staff Photo)

Civilian Jobs In U. S. Air Force Soon To Be Open

Requisitions for large numbers of personnel for civilian positions in several overseas commands of the United States air force are anticipated in the near future.

Interested personnel are urged to submit applications so that they may be evaluated to determine the maximum grade level authorized in the category for which they are qualified.

Vacancies are expected in the following positions: hydraulic specialist, aircraft engine mechanic, aircraft electrical mechanic, propeller mechanic, aircraft specialist, instrument specialist, radio operator, aircraft radio repairer, aircraft radio equipment repairer, aircraft fire and crash rescue supply officer, property and supply officer, P. and S. clerk, storekeepers, warehousemen, aircraft dispatcher, aircraft flight engineer, classification technician, military auditor, cost analyst, budget analyst, organization and methods examiner, ammunition inspector, civil engineer, mechanical engineer, electrical engineer, aeronautical engineer, petroleum engineer, stenographers, typists, air conditioning and refrigeration mechanic, electricians, automotive repairer, painter, carpenter, mason, and millwright.

Interested personnel are urged to contact their appropriate state employment offices for necessary application forms.

WOMEN GOLF CHAMPS—Miss Helen Thompson of the Rogue Valley Country club, Medford, on right, 1948 state golf champion, won medalist honors with a score of 77, a new course record in the women's golf tournament at the Roseburg Country club Tuesday. Mrs. Earl Voorhies of Grants Pass was low gross winner of class B. Roseburg's team, however, won most of the honors. A complete account will be found elsewhere in today's News-Review. Gun Kills Its Owner While Being Cleaned

VERNONIA, Ore. — (AP) — A bullet ended the life of Hebert Taylor, 42, Vernonia, at his home here Monday.

The coroner said the shot was touched off accidentally as Taylor was cleaning his deer rifle. The bullet went through his head.

Taylor was employed at a lumber company here.

The medieval walls and old buildings of Helmstedt, Germany, are well preserved.

PARKING
by the month

Why risk parking tickets when you can park all day, every day, at our convenient downtown parking lot? Still room for a few cars, so come in or phone today.

Prof. Bohler Of Washington State Ends Long Service

PULLMAN, Wash. — (AP) — Professor J. Fred Bohler—"Doc" to thousands of Washington State college alumni and students—moved into a new job Tuesday. He's spent 42 years in the last one.

Monday marked the retirement of Bohler from the faculty of the state college. He had worked and taught in the physical education department of the school since 1908.

But retirement is only a technical term. Tuesday he moved into his new position as manager of Spokane's memorial stadium—still under construction.

In his 42 years as teacher, coach and advisor Bohler won a place in the community of Pullman as well as the college. He is mayor of the city and will remain at the present as a citizen of Pullman. He will commute from Pullman to Spokane.

Moving into his office in "J. Fred Bohler Gymnasium" at the

college is Dr. Golden Romney, dean of the school of physical education. Romney comes to the college from New York State college at Oswego, N. Y. He was director of health and physical education there for 15 years.

In more than four decades of service, Bohler saw and helped W. S. C. develop from a small country college to an institution attended by more than 6,000 students.

He was one of the men who helped found the Pacific Coast Intercollegiate Athletic conference in 1915. And for 20 years he served on the national collegiate basketball rules committee.

He was director of the school of physical education at the time of his retirement.

Poison Bait Spread For Grasshopper Invasion

LAKEVIEW, Ore. — (AP) — The campaign against grasshoppers in this region is over for the year. Its success is yet to be determined.

Poison bait was spread over 6,300 acres of wasteland in southern Harney and Lake counties this summer in an attempt to halt the northward march of a huge grasshopper colony from Nevada.

Later surveys will determine how many grasshoppers were killed by the bait, and whether the threat to irrigated fields is ended.

Leap From Runaway Log Truck Fatal To Driver

SPRINGFIELD — (AP) — Ralph Edward Chamberlin, age 20, of this city, was killed Monday when he tried to jump from a runaway log truck coming down a grade

east of Mohawk. The road was steep and there were no witnesses to the accident.

He was driving for his father when the mishap occurred.

TV TOP—This is an architect's drawing of the new 217-foot multiple television tower being built atop the Empire State building in New York City. The tower, scheduled for completion by the end of the year, brings the overall height of the building up to 1467 feet.

FISH WINDFALL
JAMESTOWN, N. Y. — (AP) — As long as her broom holds out, Mrs. Fred Willover won't have to worry about the high price of meat.

She took three 20-pound carp in one day by soaking them with the broom at the rear of her apartment, where the Chadakoin river flows.
