

UMPQUA PARK has proved a popular summer retreat for residents of Roseburg as well as those from other parts of Douglas county. Improved facilities made by the park department have made it possible for large numbers of groups or families to take advantage of the picnic area, and cars by the hundreds drive in and out of the grounds. ### North Korean Timetable Of Victory Upset

TOKYO — (AP) — Outnumbered allied forces apparently have jammed the North Korean timetable for throwing American-United Nations forces off the Korean peninsula.

The new Red deadline for completion of the communist conquests in the south is Sept. 1. It was officially set by the North Korean premier and commander-in-chief.

Since Lt. Gen. Walton H. Walker's retreat order, allied troops have yielded ground grudgingly, and at a heavy cost to Red troops.

Two limited American counter-offensives, unleashed in little more than a week at more than division strength, obviously have thrown the Communists off balance.

North Korean broadcasts of the past few days have complained of "strong (allied) defense positions" northwest of Taegu. This is the highway and rail city in the corridor leading straight to Pusan, the end of the allied line 55 air miles to the southwest.

North Korean prisoners in American hands said they had been ordered to take Taegu on Tuesday, the fifth anniversary of Korean liberation from Japan on V-J day.

Taegu still stands as the provisional South Korean capital.

### Scientists Disclose Carrier Of Viruses

WENATCHEE — (AP) — Scientists revealed here Wednesday discovery of the insect carrier of viruses damaging Washington state's multi-million dollar peach and cherry crops.

Entomologist Homer R. Wolfe told 150 growers at the annual field day of the WSC tree fruit experiment station that the discovery is the third of its type in scientific history.

Carrier of Western-X, and it is believed, little cherry virus, Wolfe said, is the "colladonus geminatae", a leaf hopper one-fifth of an inch in length.

Control measures for the virus carrier are now being worked on at the experiment station, Wolfe said.

Present at the field day were WSC President Wilson Compton, and other top members of the college staff. Fred Overley, retiring superintendent of the research center, was presented an aluminum fishing boat—a gift from the apple industry for his contributions as head of the station since it was founded in 1938.

Kim Il Sung, Red premier and commander-in-chief, told his forces Tuesday they must throw U.S. and South Korean troops out of Korea in the next 16 days—by the end of August—or face a much harder task because of the progressing allied buildup.

### Wildlife Officials Warned On Federal Funds

PORTLAND, Ore. — (AP) Fish and game commissioners were warned here not to use Pittman-Robertson federal funds for normal operational functions of game departments.

C. R. Guterth, Washington, D. C., vice president of the Wildlife Management Institute, issued the warning to a joint meeting of the Western Association of State Game and Fish Commissioners and the western division of the American Fisheries Society.

Pittman-Robertson funds come from a federal tax on guns and sporting arms.

Guterth suggested that sportsmen might be asked to pay higher fees. "Sportsmen on this continent do not pay exorbitant fees for the privileges they enjoy," he said.

Pittman-Robertson funds should be reserved for development and research, as they were intended,

### Americans May Build World's Longest Bridge

ROME — (AP) — An American firm is interested in building a bridge to link Italy and Sicily across the Straits of Messina — the hazardous passage between Scylla and Charybdis of the Odyssey. The bridge would have more than a two-mile span, most of it across the water.

It would cost over \$33,000,000 and give jobs to some 8,000 specialized workers for two years. The firm has offered to build the bridge, exploit it for 20 years, and then hand it over to the Italian government.

The bridge would be the world's longest. The San Francisco-Oakland bridge is 2,500 feet long compared with 12,800 feet of the proposed span across the Messina strait.

### Births At Mercy Hospital

GRIMES — To Mr. and Mrs. Francis Vernon Grimes, Myrtle Creek, Aug. 10, a daughter, Jeanne Frances; weight six pounds four ounces.

### EGYPT TO AID HOTELS

CAIRO — (AP) — Egypt is following France's lead and subsidizing her hotel industry. The government has allocated \$2,152,000 to finance renewal and modernization of hotels.

Financing will be in the form of loans to hotel owners up to 50 per cent of the cost of repairs. Egypt draws much foreign currency from tourists.
