

Teachers Pitch In To Help Prepare Schools

Malik Again Hits At United States

LAKE SUCCESS—(AP)—Russia's Jakob A. Malik charged Tuesday that the United Nations force in Korea is a "colossal international bluff" and said such bluffs had been unmasked by Russia before.

"This is only a colonial war against the freedom loving peoples of Asia," the soviet deputy foreign minister told the Security Council in a new blast at the United States.

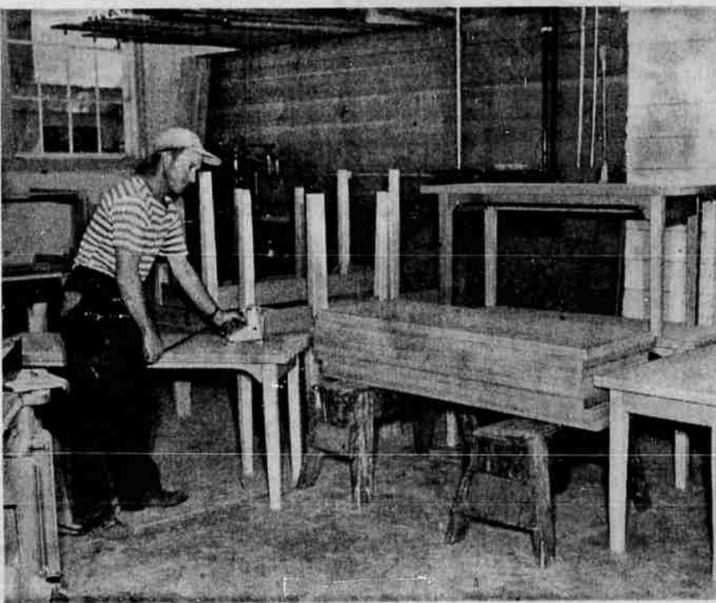

Malik said the United States claimed 53 nations were helping her fight the Communist North Koreans, but there is only one colonial power—Britain—and her dominions helping.

"The United States is now trying to force others to send their men as cannon fodder," he said, adding that they might "get some to join them in this dirty, shameful colonial war that began in 1945 in Indonesia and is being carried on by France in Indochina."

Malik's speech apparently was aimed directly at the ears of the millions of Asians who have been the target of his three-weeks anti-American campaign here.

PRE-SCHOOL ACTIVITY in the Roseburg school system this summer has seen local teachers hard at work readying school buildings for occupancy Sept. 5. Charles Allen, industrial arts instructor examines tools, in upper left photo, which equip the newly set up general shop for freshmen, who attend Roseburg high school for the first time this year under the four year high school system inaugurated. The shop equipment was moved from the quonset huts at the junior high school and installed in the senior high industrial arts building. Finishing touches on 30 drafting tables are viewed by Frank France, trades and industries instructor, top center, who teamed with Roland Edie in constructing the new tables. Removable drawers (90 of them) were also made, enabling each student to have an individual drawer for storage of his mechanical drawing equipment. The drawers will be kept in lockers when not in use. Principal George Erickson's office will be in contact with each of the senior high school classrooms upon completion of the intercommunication system being installed by Jamie France, left, and Alvord France, in photo at above right. Lending a hand with much needed painting of the senior high school interior are Otto Wise, district four maintenance man, left, and Earl Ladd, Riverside grade school principal, in picture at lower left. Roland Edie is shown in picture lower right, applying the sander to a top of one of the typewriter tables being prepared for prospective typists. (All photos by Paul Jenkins)

There are more Navajo Indians now than in the days of the Spanish Conquistadores.

Lee Pressman Recalled By Un-American Committee

WASHINGTON—(AP)—A subpoena has been issued for a repeat appearance by Lee Pressman, a former leader in the CIO, before the House un-American activities committee.

This was disclosed by Rep. Nixon (R-Calif.), who said one major aim is to look deeper into the Alger Hiss case.

Nixon said he decided it would be a good idea to call Pressman because of his recent break with the American Labor party in New York. Pressman pulled out on the ground the American Labor party was following the communist line.

Pressman is a former Agriculture department attorney, who later became general counsel of the CIO. He quit the CIO after a split with President Phillip Murray over policy.

Pressman figured in the testimony of Elizabeth Bentley, self-styled former courier for a Russian spy ring. Miss Bentley said he was a member of a "cell" operating in the Washington government.

Pressman testified during the committee's Whittaker Chambers-Alger Hiss hearings, but gave little information. He refused to say whether he knew Chambers or whether he was or had been a member of the Communist party.

Boys Play At "Russian Roulette"; One Wounded

SPOKANE—(AP)—Darrell Pickett, 12, who was shot in the abdomen Thursday by a revolver in a game of "Russian roulette," was given a better than 50-50 chance to recover today.

A 14-year-old companion told Det. Capt. Paul Sanders that he shot young Pickett while demonstrating how the "game" is played—placing a bullet in a .38 revolver, spinning the cylinder, then pressing the trigger with a 6-to-1 chance it won't fire.

The older boy said in a statement he spun the cylinder three times and each time the hammer fell on an empty chamber. The fourth time the gun discharged.

Pickett underwent surgery and was reported improved. The bullet struck him on the right side, punctured his liver and came out his back.

The 14-year-old, who was detained overnight without charge in the juvenile detention home, said the gun belonged to his father. The two were alone in the older boy's house when the shot was fired.

NEW PEARLS in WINE COMBINATION CREAM

Enough for Two Good Facials

You owe it to yourself to try this amazing new face cream. It combines cleansing and complexion-aid creams in one formula—benefits both dry and oily skins. Absorbs and removes both oil and water soluble types of facial grime and make-up. Cleanses your skin thoroughly.

To aid your complexion, Pearls in Wine Combination Cream contains lipids from lanolin similar to skin lipids normally present in youthful skins. It leaves skin so soft you rarely need a foundation. With new "Combination" you need no other face cream. Removes with tissue or stimulating cold water rinse.

FIRST JUNIOR GOT TANTRUMS THEN THEY GOT ADEQUATE WIRING

They couldn't really blame their youngster. How could they expect him to understand that he had to stop playing with his brand new train because he was using the only remaining socket and they needed a light.

They themselves had been fed up for years with their poor wiring. They were tired of putting up with their collection of dust-collecting extension cord entanglements, with having to crawl under beds and couches to pull out one plug so they could connect another. They were sick of having so few outlets everywhere that in not a single room could they arrange their furniture the way they wanted it. But it wasn't until Junior had that fit that they decided they'd get Adequate Wiring.

"It's one of the best moves we ever made," they say. "Now we have all the outlets we need, where we need them—and Adequate Wiring's brought us countless other comforts and benefits, too."
