

### Annual Flower Show Will Be Event Of Oct. 10-11 At Methodist Church

Annual fall flower show sponsored by the Roseburg Woman's club will be an event of Oct. 10-11 in the basement of the Methodist church, according to an announcement made today by the co-chairmen, Mrs. Sig Pett and Mrs. J. J. Kester. All Douglas county flower growers, nurserymen and florists are invited to exhibit.

Special arrangements will be in charge of Mrs. R. L. Whipple with Mrs. Harry F. Hatfield in charge of the dahlia exhibit and autumn flowers, weeds, grasses, and everlasting flowers to be arranged by Mrs. C. W. Dishman. Mrs. Kenneth Ford will have charge of fuchsias and tuberous begonias. Arrangements in copper will be under the direction of Mrs. E. L. Tauscher with pitcher arrangements in charge of Mrs. Clyde Carstens.

Mrs. Yelle Broadway and Mrs.

L. W. Josse are planning a special Halloween decorated table. Specimen exhibits of foliage arrangements, potted plants, miniatures and cacti are planned.

A candy booth will be conducted by Mrs. E. J. Sullivan and Miss Alice Ueland and a plant sale will be held with Mrs. Otho Gosnell and Mrs. A. F. Feller as chairmen.

All exhibits are to be named and marked and those having exhibits are asked to furnish their own containers.

#### GYPSIES MUST SETTLE

PRAGUE — (AP) — Gypsies still on the move around the famous Bohemian spa of Karlovy Vary (Carlsbad) have been told they must settle down and take jobs. Many already have done so.

Houses for the gypsy families are to be made ready in the village of Minchov, the newspaper Prace said.

### Control Of Steel Set By British Labor Government

LONDON — (AP) — The Labor government announced it will take over the British steel industry about Jan. 1.

Winston Churchill, the Conservative leader, promptly declared he would ask the House of Commons to adopt a virtual motion of censure. The motion will be debated next Tuesday. If passed, it might lead Prime Minister Attlee to resign and ask for a new national election.

In view of its hairline majority in Commons — now only five votes — the Labor government had been expected until recently to let the explosive steel issue lie dormant for at least a few months.

The bill placing the iron and steel industry under state ownership is effective Oct. 1. The government did not, however, have to set up the corporation to run it or to fix a date for the actual takeover at that time.

But George Strauss, the minister of supply, announced that officers of the corporation will be named Oct. 2. It will be headed by S. J. L. Hardie, chairman of the British Oxygen company.

Strauss, under whose department the industry will operate when nationalized, said it will be taken over on Jan. 1 "or as soon as practicable thereafter."

Churchill jumped up and said he will offer a motion "regretting that at this most critical period in our national safety and affairs abroad we should be by this act of the government plunged into the fiercest party controversy at home."

Clement Davies, leader of the Liberal party, chimed in with a similar criticism.

#### SCOUT LEADERS MEET

LISBON — (AP) — Scout leaders from 17 nations are meeting at the eighteenth century fortress of Das Mafas, near Estoril. One of the main items on the agenda was a discussion of what to do about displaced and refugee scouts. W. Arthur Mackinney is representing the United States.

#### EVENTFUL DREAM

### Oregon Traffic Death Toll 239 So Far For '50

Incomplete fatality reports for August have raised the eight month traffic death toll in Oregon to 239, an increase of 38 over the corresponding period in 1949, Secretary of State Earl T. Newby reported today. The figure could go higher when the final count is made.

Oregon's traffic accident picture, Newby stated, looks darker now than at any time in recent years. Reports indicate that traffic accidents and deaths are continuing the sharp increase first noted early this summer. Such an increase is particularly disheartening, the secretary said, because it marks the end of a five-year downward trend in traffic fatalities in the state.

At the same time, the secretary's traffic safety division pointed out that a large share of the blame for increased deaths could be put on high speeds on open highways. The division reminded that speed coupled with careless driving are lethal combinations on the highways.
