CATS' FRIEND EVICTED—Mrs. Hazel Anderson, 55-year-old caretaker for the Cats' Friends society, Inc., holds a few of her 50 cats in front of their cages after being evicted from her home in Kansas City, by a court order. She spent the night in front of her house amid her pets and household furnishings. In addition to the cats Mrs. Anderson was taking care of three dogs and a flock of chickens. The property has been involved in court action since July, 1947. (AP Wirephoto.)

'T' WAS GREAT VICTORY

East Germany Red Rule Confirmed At 'Election' With One-Sided Ballot

By DANIEL DE LUCE

BERLIN—(AP)—The Communist government of East Germany announced today it had been confirmed in power by 12,088,745 votes against 51,187 invalid and opposition votes. "Our people have shown unanimity and determination never before witnessed in the world," exulted Communist Interior Minister Karl Steinhoff in announcing the totals of yesterday's election. He reported that 98.44 per cent of all enfranchised East Germans, 18 years of age and older, went to the polls. Of these, 15,643 cast invalid ballots. Only 35,544 ballots were marked as against the Communist "national front" list—the only list on the ballot, it was announced.

Conservative Baptists Meet

The second annual meeting of the Three Rivers Conservative Baptist association opened this afternoon with formal registration at 1:30 in the First Conservative Baptist church on North Second street. Delegates from Baptist churches at Junction City, Coquille, Eugene, Springfield, Veneta, Dexter, Oakridge and Glendale are attending the meeting. The meeting has chosen for its theme, "Revival by the Word that Quickeneth," from Neh. 8:8. Highlights of the two-day program will be the banquet Tuesday night which will be held in the Episcopal church's parish house. Arrangements are being made by May Mathews to serve over 100 guests. The two-day meeting will close Tuesday evening following a "Missionary Message" by Rev. Stanley Morrison at 7:30 p.m.

In the Day's News

By FRANK JENKINS

You never can tell what you'll find in the news. For example: Our secretary of commerce, Charles Sawyer, was talking last night in Miami to 400 distinguished leaders from practically every nation in the Western Hemisphere. He told them that we of the new world "must pool our resources and efforts to prepare ourselves for whatever emergency may lie ahead." He added that as the United States moves forward in its mobilization program these points will be kept in mind in regard to our relations with other American republics:

1. Promote a constantly expanding volume of trade in the Americas.
2. Keep trade balanced and sound.
3. Promote sound private investment in Latin America.
4. Encourage a maximum exchange among all the American republics of scientific and technical information.

That sounds like just common, everyday HORSE sense—which in these days is a very, very unusual thing.

You know—in moments of nostalgic dreaming—I sometimes wonder if we wouldn't get farther if we devoted our efforts to making

U.S. Steel, CIO Start Wage Increase Huddle

PITTSBURGH—(AP)—Industry leader United States Steel corporation and the CIO United Steelworkers opened negotiations today on the union's demand for a wage increase.

U.S. Steel is the traditional bellwether of the industry in wage talks. If it grants a pay hike, other steel firms—both basic producers and the firms that turn the steel into finished products—probably will follow suit.

Eisenhower For President, Dewey's Choice

Nomination Of General By G.O.P. Urged

Twice-Beaten Standard Bearer Again Says He'll Not Race Third Time

NEW YORK—(AP)—Gov. Thomas E. Dewey called Sunday for Gen. Dwight D. Eisenhower as the Republican nominee for President in 1952.

"If I should be re-elected governor and have influence with the New York delegation, I would recommend to them that they support General Eisenhower for President if he would accept the draft," Dewey said.

Speaking here over a television program, Dewey again took himself out of the third White House race in the most emphatic terms.

He praised Eisenhower as "a very great world figure, the president of Columbia university, one of the greatest soldiers in our history, a fine educator—a man who really understands the problems of the world."

Dewey, who is running for a third term as governor after first denying he would be a candidate, was asked by Leo Egan of the New York Times if he might like to change his mind on the Presidency in 1952. Dewey has said repeatedly he would not seek the 1952 nomination, after his national defeats in 1944 and 1948.

"I will under no circumstances I can conceive of, or that could possibly exist, accept the nomination for President in 1952," he answered. "And I doubt if there is any possibility that the situation would ever arise thereafter."

Dewey said he had not asked Eisenhower if he is willing to run, but said "I have listened to some of his speeches, and I certainly should think his philosophy would be in accordance with my own."

Reporters descended on Eisenhower's university home, but the general was in the midst of his national birthday celebration and sent word he could not meet them and had no message to relay.

The general has repeatedly denied presidential ambitions. He spiked both Republican and Democratic booms for him in 1948. But since then, several of his major speeches have had political subjects with apparently Republican overtones.

Dewey's announcement, which amplified and nailed down earlier remarks in praise of Eisenhower as a possible President, brought generally restrained comment from other Republican leaders.

"Every Republican has the privilege of backing any candidate he wishes for the nomination," said national Republican chairman Guy Gabrielson. "Our duty is to elect, not select."

Man, Woman Killed In Train-Auto Collision

COEUR D'ALENE, Idaho—(AP)—Two persons—a man and a woman—were killed today in the collision of a train and an automobile at a highway crossing near Rathdrum, Idaho.

Sheriff H. H. Haner said the dead woman was Mrs. Thelma M. Pruett, 32 of Spokane. The man, believed to be an airman from the Spokane air force base, had not been identified positively.

Haner said papers found on the body carried the name of Benjamin B. Wray. Officials at the Spokane base said an airman by that name was on furlough from his unit.

Extra Vacations Set For Long Service With State

SALEM—(AP)—The state of Oregon will reward its employees with long service with extra vacations.

The state civil service commission has decided to give employees with 10 years or more service annual vacations of three weeks. Those who worked between five and 10 years will get 2½ weeks off. Employees with less than five years' service will get two-week vacations.

Up to now, all employees have received two-week vacations.

Hurricane Threatens South Florida, Cuba

MIAMI, Fla.—(AP)—South Florida was alerted and Cuba and the Bahamas warned today against a hurricane containing winds up to 125 miles an hour.

The hurricane is centered in the Caribbean sea 140 miles southwest of Camaguey, Cuba, and 480 miles almost due south of Miami.

Northwest storm warnings are flying from Palm Beach to Key West.

Small craft warnings are on display from Palm Beach to Charleston, S. C.

Packaged Coffee Price Lowered; Men's Suits Up

(By the Associated Press)

Price cuts for bag-packed coffee, airplane parts and asphalt tile were announced today by manufacturers and retailers. One maker announced a price boost on men's suits.

Great Atlantic & Pacific Tea Co. and Grand Union Co., retail grocery chains, reduced the retail cost of their various brands of bag coffee by 2 cents a pound.

Boeing Airplane Co., of Seattle said it was reducing by 10 percent the price on all Stratocruiser spare parts. The price cut is retroactive to Sept. 1.

Armstrong Cork Co. put price reductions of about 5 percent in effect on standard asphalt tile.

Middishade Co., Inc., men's clothing manufacturer, raised the retail price of its suits to \$85 from \$80 because of high raw materials costs.

CIO Again Raps Taft-Hartley Act

WASHINGTON—(AP)—The CIO has renewed its attack on the Taft-Hartley act, calling for "a more decisive victory this November" by forces fighting the three-year-old law.

"The mere existence of this law is a threat to the labor movement," CIO General Counsel Arthur J. Goldberg said in a letter to all state and local units.

He added that the CIO's fear of the Taft-Hartley act "does not rest on fears alone" and cited examples of what he called "its anti-labor character."

Goldberg said repeal efforts thus far have failed "because of the unholy coalition of reactionary Republicans and southern Democrats who have thwarted the will of the people and blocked repeal."

Among Goldberg's arguments against the law:

1. It has led to "the revival of government by injunction."
2. "Proponents of the law claimed enactment would prevent strikes; the exact contrary has been the case."
3. "The law has served to obstruct and hamper the organization of unorganized workers."

Four Youths Injured In Traffic Accident

Four youths received cuts and bruises in an auto accident on East Second Ave. South Sunday afternoon, Roseburg Police Chief Calvin Baird reported.

The youths, Paul Looker, Frank Daniels, Jerry Holms, all 14-years-old, and Robert Bowman, 20, were driving a 1946 pickup when they collided into the rear left dual wheels of a legally parked logging truck, Baird reported. The four youths were taken to Mercy hospital for treatment and later released.

Baird said no citation was issued but the police were investigating the cause of the accident.

Drunken Driver Draws Fine, License Revoked

Archie John Rubie, 42, Idleyld route, was fined \$150 on a drunk driving charge, Municipal Judge Ira B. Riddle reported today. Riddle said Rubie's driver license was also revoked for one year.

Registration Of Medics Below 51 Starts Under Plan To Establish Induction Pool

WASHINGTON—(AP)—The Defense department hoped today's first medical draft registration will provide a pool of from 3,000 to 10,000 men from which it can induct the 1,322 doctors, dentists and veterinarians it wants by the end of January.

Under the medical draft law passed by congress, men through 50 can be drafted. Present plans, however, call for induction of only a few in the lower age groups.

Draft boards today registered young doctors, dentists and veterinarians who were:

1. Students in the army specialist training or similar day V-12 program during World War II, and who served less than 21 months in one of the services or the public health service after completing their medical education.
2. Deferred from service in World War II to obtain medical, dental or veterinary degrees.

Estimates of the number involved range from 5,000 to 10,000.

Others to Register Later

Other medical men under 51 will register at later dates until Jan. 16, when the registration task is to be completed. No provision has yet been made for the registration of pharmacists, optometrists, osteopaths, x-ray technicians and other medical specialists.

Men called up in the doctor's

Credit Curbs Draw Flood Of Protests

Severest Blast Comes From Auto Assn. Over Tighter Restrictions

WASHINGTON—(AP)—New government curbs made it tougher to buy autos and many household appliances on installment terms today.

Effective last midnight, the Federal Reserve board required bigger down payments for appliances, a shorter payoff time for new and used cars.

Protests from businessmen and others lined up against the action, which the board contends is necessary in the fight against inflation.

Maury Nee of Washington, a spokesman for the Commerce department's retail industry committee, said the board was too hasty in tightening the first set of controls it imposed Sept. 18. He said that "hysteria about rising prices is unwarranted" and added:

"Merchants across the country are reporting that the buying scare of last summer is over and in all lines... business is back to normal."

In announcing the new curbs Friday, the Reserve board had said that reports from all over the country showed continued upward pressures on prices.

The new controls also require a 15-month pay-off on television sets and other major household appliances, with a down payment of at least one-fourth. Formerly the down payment was 15 percent and the payoff period 18 months.

On furniture, the down payment jumps from 10 to 15 percent and the payoff period is cut from 18 to 15 months.

Another revision makes the new terms applicable on articles costing \$50 or more. The old controls affected only articles costing \$100 or more.

The Myrtle Creek city council has voted to extend the city's fire zone to include 19 city blocks, the Myrtle Creek Mail reports.

The new area will include all of the original city of Myrtle Creek plus the block between Oak and Pleasant streets on First and from Emma Buick's place on Main street to the bridge. The new city ordinance requires that all construction in the area be fireproof.

The council also voted to adopt the building code recommended by the League of Oregon cities.

NO HINT ON DECISIONS

Truman Winging Back From Wake Island After Confab With MacArthur

By ERNEST B. VACCARO

HONOLULU—(AP)—President Truman was flying back to the mainland today to report on his meeting with General MacArthur on Wake Island has world capitals still puzzled over the significance of that Pacific rendezvous.

The President's plane "Independence" left Honolulu, for San Francisco at 6:28 a.m. (8:28 a.m. PST), and the "Dewdrop," carrying his top advisors, departed five minutes later. The flight to San Francisco requires about nine hours.

Aides said the President is devoting extraordinary time and care to the major foreign policy decisions at 8:30 p.m. Tuesday (11:30 p.m. EST.)

While he will preface his talk with a reference to his conference with General MacArthur on the barren Far Pacific island as a move to help the Far East find peace, there has been no indication

Seven Sought In Aerial Searches

(By the Associated Press)

Five Canadian geese hunters and two California junior college students were sought today in widely separated aerial searches.

The Canadians were more than 36 hours overdue on their short two-hour flight from a northwest Alberta hunting site to Edmonton, Alta.

The two students also had been unreported since Saturday during a flight from Stockton, Calif., to Portland, Ore.

Listed as missing in the twin-engine Cessna were pilot Harry Pennington and Harry Morton, 40, both of Vancouver, B. C., and Joseph Dory, 42, James Mulcahy, 31, and Steward Reid, 30, all of Edmonton.

The students, pilot Rudi M. Michel and Bill Thompson, were last heard from when they checked in with the Eugene CAA control tower between 1:47 and 2:02 p.m. They planned to stop at Eugene after a 90-minute hop from Medford.

CAA headquarters in Seattle said the two were en route to Portland to visit Michel's sister.

Idaho Accidents Kill 25 In Week

BOISE, Idaho—(AP)—Accidents claimed the lives of 25 Idahoans the past week. It was the state's highest violent death toll for any week so far this year.

Two were hunting deaths, but as usual, the largest number—11—was due to auto accidents. To add to the toll, three children died in an Idaho Falls fire.

Arthur L. Olson, 34, Boise, was shot and killed Sunday near Lowman by a hunting companion.

The body of another Boise hunter, John Steffens, 58, was found in the Lowman area Sunday. He had been missing for ten days.

The Boise area recorded another violent death in an auto collision at a county road intersection yesterday. Charles M. Jackson, 26, of Boise was killed. His wife was critically injured.

Three tots suffocated in the fire that swept their two-room home. They were the children of Mr. and Mrs. Franklin Howell—Harold, 4, and Elizabeth Ann, 3, and Patrick Allen, 18 months.

Fire Zone Extended By Myrtle Creek Council

The Myrtle Creek city council has voted to extend the city's fire zone to include 19 city blocks, the Myrtle Creek Mail reports.

The new area will include all of the original city of Myrtle Creek plus the block between Oak and Pleasant streets on First and from Emma Buick's place on Main street to the bridge. The new city ordinance requires that all construction in the area be fireproof.

The council also voted to adopt the building code recommended by the League of Oregon cities.

French Forced To Quit Another Indochina Post

SAIGON, Indochina—(AP)—The French today announced abandonment of still another post on the China-Indochina frontier—the small outpost of Nacham.

The report of the abandonment of the post came as French officials said privately it soon might be necessary to withdraw French forces from all Chinese frontier posts. In the past month the French have abandoned three posts, leaving some 300 miles of the Chinese frontier open to traffic by the Vietnamese and from supply and training points in Communist China.

Fireworks Ban Sought By Rural Fire Districts

SALEM—(AP)—Directors of the Oregon Association of Rural Fire Protection districts said Sunday they would ask the legislature to ban fireworks.

They also said they would ask for repeal of the six percent constitutional tax limitation, and would seek the right to condemn property.

Levy Fact Rant

By L. F. Reinecke

Present public information on President Truman's huddle with MacArthur on Wake Island may be paraphrased thus: He flew right in, turned around and flew right out again.

Tree Kills Worker

LEBANON—(AP)—Jesse Coy Buick, 30, was killed near here Sunday by a sliding tree. He was a powderman on a roadbuilding project for a lumber company.

Prisoner Take Increases

Prisoners in large numbers were gathered by the advancing troops. The total now held by United Nations forces mounted to 65,000. Some, taken from the Korean 19th division, estimated that 20 percent of their original number had deserted before going into battle.

After the allied troops take Pyongyang, it is believed they will chase the Reds northward toward the potentially explosive borders of Communist Manchuria and Soviet Siberia.

Now that Gen. MacArthur, the United Nations commander for Korea, is back from his historic meeting at Wake Island with President Truman, there is speculation that he has the signal to throw everything at the remaining Red resistance and mop up this war.

Fall of Pyongyang will inaugurate a reconstruction and rehabilitation campaign that will present huge political and economic problems for Gen. MacArthur. Nearly every city and town along the battle lines was badly beaten up in the fighting—communications in bad shape and industrial facilities have been hard hit—some in North Korea virtually wiped off the map.

Stassen Will Broadcast On Wake Island Huddle

WASHINGTON—(AP)—Harold E. Stassen, president of the University of Pennsylvania, will make a broadcast speech tonight on the Wake Island meeting between President Truman and Gen. Douglas MacArthur.

The speech was announced by the Republican national committee. Stassen, unsuccessful aspirant for the GOP Presidential nomination in 1948, will speak from here (11:30 p.m. EST) over the NBC network.

The President will elaborate greatly on the Wake Island statement.

The statement, signed by the President and initialed by the United Nations supreme commander, followed their less than three hours talk.

The statement gave no hint of any far reaching new decisions such as many had speculated might grow out of the spectacular 14,000-mile round trip flight.

In fact, one top White House policy adviser said Mr. Truman primarily "wanted to talk to General MacArthur face to face" about Far East problems and added: "after all, he had never seen the general and thought he should."

Mr. Truman was reported anxious to build up American support for the spending necessary to keep defense appropriations moving after the Korean emergency ends and to rehabilitate and reconstruct Korea as an example to all the Far East that the United States and its associates want only peace and stability for the world.

The thought will underline not only his San Francisco talk but the one he will make to the United Nations general assembly in New York on Oct. 24.

Whatever others may speculate about the Wake Island meeting, the President and his advisers exude satisfaction over its results.

Mr. Truman said that he and General MacArthur talked about "steps necessary to bring peace and security to the area" with the view to withdrawing U. S. armed forces from Korea as soon as possible.

And there followed an assertion of belief that dangers to peace in the far east (obviously from Communism) can be surmounted.

Red Cross Aid To Halt A-Bomb Bid

MONTE CARLO—(AP)—Soviet Russia has asked the International Red Cross to promote the outlawing of atomic bombs.

Russian delegate Boris Pachkov submitted a resolution to the 21st meeting of the board of governors of the League of Red Cross societies calling on the Red Cross to work for "peaceful ideals and the prohibition of atomic weapons."

Delegations from Red Cross societies of 57 nations agreed to discuss the resolution later this week.

The Russian delegation submitted another draft resolution asking the Red Cross to "severely condemn... the cruel and barbarous bombardment of civilian populations by American aviation in Korea."

This resolution asks the United States government "to put an end to aid and other bombardment of these towns and villages and pacific populations in Korea and to prohibit them for the future."

Jail Terms Given Youths For Liquor Possession

Two juveniles under 18 years old, and two minors, Ronald Roger Keller, 19, and Bob Emmitt Connolly, 20, all of Roseburg, were each sentenced on a charge of possession of alcoholic liquor by minors to serve a 30-day term in the county jail and fined \$50 each, Justice of the Peace A. J. Geddes reported Saturday.

The youths were arrested Friday night in a traffic check by Roseburg city police.

14 Killed, Two Missing In Mock Air Warfare

LONDON—(AP)—Airmen of six western nations Sunday concluded Britain's biggest postwar air games—a test of the island's defenses against atom attack and the efficiency of new bombing methods.

Fourteen Britishers were killed in plane collisions during the weekend. In addition, two Belgian squadrons were missing and believed dead.

U. S. B-50 bomber squadrons and F-84 jet fighters participated in the games, as did jet fighter squadrons from The Netherlands, Belgium, Norway and Denmark.

Tree Kills Worker

LEBANON—(AP)—Jesse Coy Buick, 30, was killed near here Sunday by a sliding tree. He was a powderman on a roadbuilding project for a lumber company.
