

Roseburg Student Attends Collegiate Leaders Meet

Joe Scallon, Roseburg, attended a two-day meeting of Oregon Federation of Collegiate Leaders held at Corvallis on Nov. 11 and 12. Scallon, student body president of Southern Oregon College of Education, was one of six delegates representing the school at the meeting.

Other delegates from SOCE attending the meeting were: Rosemary Ring, Ashland, assistant editor of the school paper; Jack Bolton, Lakeview, vice-president of the student body; Keith Hanger, Kirby, freshman class president; Bob Kirkpatrick, Creswell, junior class president, and Jim Womack, Bonanza, editor of the school annual.

Soviet Fighting Power Increased

LONDON — (AP)—An unofficial British survey of the world's armed forces says Soviet Russia now has 3,000,000 men in the army, 18,000 first line warplanes and a submarine fleet of 360 in a rapidly expanding navy.

The survey, "Brassey's 1950 annual," estimated Russia will have trained manpower reserves of 12 to 13 million by 1954 and plans to expand her undersea fleet to 1,000 subs by the end of next year.

Annual Soviet plane production, according to the survey, is 12,000 "thanks mainly to the help of German technicians and the capture of German material."

The annual, published here for 46 years, reported Russia this year has completed two 35,000-ton, 29-knot battleships mounting 16-inch guns and one or two aircraft carriers. It said more battleships were under construction.

Failure To Pay 60-Cent Bill Leads To Disaster

ST. LOUIS — (AP)—Stanley B. Gallat, 25, failed to pay a 60-cent restaurant check yesterday.

Police followed him in a 15-mile chase through five suburbs, leaving a trail of battered cars. The fugitive's car was punctured with 23 police bullets.

Before Gallat was subdued in his home, a police car was wrecked, five autos sideswiped, six policemen hurt.

St. Louis county hospital treated three broken noses, black eyes, bruises, cuts and abrasions from the tussle. Gallat was charged with resisting arrest, assault, destruction of property—and traffic violations.

"He's a very nice guy, quiet, always well behaved," said Gallat's landlady.

Series Of Fires Takes Lives Of Eight Persons

GARRETT, Pa. — (AP)—Eight persons died in a series of fires in western Pennsylvania yesterday—six of them children who perished as flames destroyed a frame house in this little coal mining town.

Five of the children were sons and daughters of Harvey Lee, 49, a welder, and his wife, Stella, 37. They were Kay, 15, Darlene, seven, Danny, five, Laverne, three, and Linda Sue, two.

The other victim was Clarence Lee, 15, brother of Mrs. Lee, whose family name was the same as that of her husband.

Another child, eight-month-old James Stover, burned to death in his crib in a farm house near Oil City, Pa.

The eighth fire victim was Mrs. Alton Phillips, 50, who perished in a fire that destroyed her home at Sharon, Pa.

Handsome Dan I, symbol of Bull-dogs, arrived on the sports scene in 1896.

Unemployment In Douglas Upped

The estimated total of unemployed persons in Douglas county, while still more than fifty percent less than for the same period last year, increased approximately one hundred and seventy percent during October. Heavy rains and the ensuing flood conditions were largely responsible for the increase. Many of the mills that were closed by high water have since resumed operations.

Summarizing employment conditions, George T. Foster, manager of the Roseburg office of the state employment service adds:

"Job opportunities are becoming more difficult to find as more workers are made available by shutdowns in the lumber operations. There were but sixty-five openings on hand at the end of the month compared with two hundred and thirteen at the end of September. The majority of these jobs were in the retail trade and service fields. Very few opportunities exist in construction and the lumber industry."

"The winter season, with all of its attendant curtailments, is rapidly approaching. The labor shortage that has been evident during the summer months has entirely disappeared. The supply is more than adequate at the present time and little change is expected until next spring."
