CARD OF THANKS We extend our thanks and appreciation for the kindness offered us after losing our son and brother in Korea. Mr. and Mrs. Lewis Knier and Sons.

Plan To Bolster Civil Defenses Launches Debate

WASHINGTON — (AP)—A three-year plan to shore up the nation's weak civil defenses at a cost of \$3,100,000,000—nearly three-fourths of it for bomb shelters—got a mixed reception today from atomic-minded lawmakers.

Noting the administration proposed that the states and local communities put up about \$1,430,000,000, or 46 percent of the total, Senator Millikin, told reporters "that's a lot of do-me's."

The Colorado lawmaker, a member of the Senate-Atomic committee, added there was no way now to tell either what the final figure or the federal government's share would be.

The three-year plan, to be financed by the federal, state and local governments, was outlined to the Atomic committee yesterday at a public hearing by James J. Wadsworth, acting deputy civil defense administrator.

Of the proposed outlay, \$2,250,000,000 would go for "communal-type" shelters with the federal government and the states sharing the cost equally. The remainder would be earmarked for administrative expenses, heavy equipment, stockpiles of critically-needed materials, and communications.

Of the shelter figure, Wadsworth said that "to do less might well result in no shelters or in shelters completely inadequate to cope with the atom bomb."

Senator McMahon (D-Conn), the committee chairman, called the \$3,100,000,000 "realistic," but added:

"I believe that is not the final figure that we will have to effect. In my opinion it will have to be more than that."

Cities Urge Action Some 600 mayors and city officials prepared, meanwhile, to urge Congress to act this year on basic civil defense legislation. Delegates to the annual meeting of the American Municipal Association appeared to be nearly unanimous in support of a resolution calling for speed.

Millikin suggested that the short session of Congress probably would authorize and appropriate enough money to get the new federal Civil Defense Administration (FCDA) rolling pending a more thorough study of proposed legislation.

He said he doubted if the far-reaching administration bill, introduced in the House and Senate last week, could be passed at this session, or if it was necessary to do so.

Wadsworth told the Atomic committee yesterday that when it comes to civil defense "there can be no 'take-to-the-hills' mentality or 'let George do it' attitude on the part of any person in this country, wherever he may live."

He added: "Our cities must be manned and fought just as our navy's ships are manned and fought. We civilians must have the guts and courage to do all that is expected of us."

Excess Profits Tax Bill Slated For House Okay

WASHINGTON — (AP)—A multi-billion dollar excess profits tax bill was ready for house approval today. It apparently faced clear sailing in the Senate later.

Passage at the close of House debate today appeared certain. There was a possibility, however, that the final vote might be put off until tomorrow.

Its chances for final enactment, once dim, were brightened by international developments making it obvious that no end is in sight to vast defense spending. The administration renewed a drive to swell the amount it will bring in.

Before the final vote that will send it to the Senate, the bill faces a drive by Republicans to substitute their own version of heavier business taxes.

The Republicans are backing a bill to impose a milder excess profits levy coupled with a five percent hike in the maximum corporate income tax rate. They propose a 75 percent tax on profits in excess of the 1946-1949 average and a boost in the maximum tax rate on so-called normal profits from 45 to 50 percent.

The GOP policy committee approved the substitute yesterday and claimed it would produce more revenue than the administration bill sent to the House by its ways and means committee.

The administration bill would apply the 75 percent tax rate to corporate profits which exceed 85 percent of the 1946-1949 average computed on the basis of a taxpayer's best three of those four years. It does not call for any increases in normal or surtax income rates.

As it now stands, the bill is estimated to be capable of producing \$2,400,000,000 during the first 12 months of its operation, retroactive to last July 1. The annual yield would rise if corporate profits increase in coming years.

The bill falls short by \$500,000,000 of meeting Treasury department requests. The department asked Congress to put a tax of 75 percent on business profits that ex-

RUBBER FOR RED CHINA—This is part of a shipment of 750 tons of scrap rubber tires in Red China; Hong Kong and Manila. Under a new customs regulation the tires must be stripped before they can be shipped out. (AP Wirephoto).

LEATHERNECKS SEIZE POWER PLANT—Vehicles of U.S. Seventh regiment marines move along mountainside road (right center) towards the last of four hydroelectric power plants south of the Changjin reservoir as they drove forward. The plant was seized virtually intact. Marines were in sight of the vital Changjin installation, main source of power for northwest Korea.

ceed 75 percent of the 1946-1949 average.

As the House started debate yesterday, Republicans privately conceded that their substitute bill has little chance to win. They argue that the administration plan is inflationary and discriminatory. Democrats insist that criticism is unfounded.

The treasury still "would like to get \$4,000,000,000," Secretary Snyder told the senate finance committee yesterday as it opened hearings on the bill.

Snyder wants the senate committee to revise the house measure, which he said provides for "preferential treatment" in some cases.

Sabu Wins Final Round In Paternity Litigation

LOS ANGELES — (AP)—Sabu, the movies' erstwhile elephant boy, has apparently won final victory against the claims of English dancer Brenda Julier that he fathered her baby daughter.

Superior court denied her motion for a new trial. A jury ruled last October that Sabu was not the father.

Sabu recently asked for district attorney's investigation of a burglary and fire at his home. His attorney yesterday charged that the case involved a "most fantastic attempt at extortion."

Blood Donations Asked On Lane Co. Residents EUGENE — (AP)—Lane county residents have been asked to donate at least 200 pints of blood for use in Korea and veterans hospitals.

A Red Cross bloodmobile from Portland will be in Eugene Dec. 29 to collect the blood. Bill Strung, chairman of the blood collecting program, said over 70 persons have registered as blood donors already. If December's collection is successful, the bloodmobile will come to Eugene monthly.

The Roseburg National Guard company has a number of openings for qualified recruits. Capt. Fred Boyer, company commander, reported recently. Capt. Boyer urged men who are subject to draft call to investigate the opportunities in the National Guard.

He said draftable men who had not received a notice to report for a physical examination could join the Guard to fill active openings in units. He said under present policy the Guard units will be given four months' notice before being federalized. After being called in to active service, the present policy is to give Guard units about one month home station duty before joining other units for regular army training.

Capt. Boyer reported that very few recruits are joining the local Guard unit since the Korean war started. He said officers of the Roseburg company want to get the unit up to full strength as soon as possible. All men interested in joining the National Guard are asked to make inquiries at the armory during Monday night drill sessions, Boyer said.

Capt. Boyer reported 10 enlisted personnel recently received promotions in the Roseburg company. The following men were promoted from private to private first class: Ronald D. Barnes, Don J. Firman, Roy F. Fisher, Richard Hermanson, Gary D. Kirk, Dick P. Krusman, Sam E. Sulzer and Barney Van Cleave. Wesley F. Finnell and Robert S. Martin were promoted from recruit to private.

The company is presently practicing for the battalion rifle competition for the Col. Robert Irving match cup. The Roseburg company will be defending the cup which the won last year.

Long Line Phone Union To Demand Increased Wage

SEATTLE — (AP)—Long line telephone technicians in five western states have sounded the 60-day warning signal in a notice of contract termination with their Pacific Telephone and Telegraph Co. employer.

The notice was issued by Lesli Monahan, Seattle, president of the Order of Repeaters and Toll Testboardmen (INT). The union represents some 1,000 employees in California, Oregon, Washington, Nevada and part of Idaho all are in the company's long distance department.

Monahan said wage negotiations with the company had broken down and his union plans to call a strike vote in January if a settlement has not been reached by that time. The wage talks were started under the three-year contract's wage reopening clause. Normally the contract would expire next Oct. 1.

Monahan said the union is asking an across the board pay increase of five cents an hour plus an escalator cost-of-living clause.

H-BOMB SITE—This is an air view of Dunbarton, one of four small South Carolina towns which must be relocated to make way for a huge atomic energy layout the government will establish to develop materials for the awesome hydrogen bomb. About 1,500 families in Dunbarton, Snelling, Jackson and Ellenton will be affected. The site will occupy 250,000 acres. (AP Wirephoto)

Bonus Pay Awaits Legislative Action, Vets Advised

SALEM — (AP)—Oregon war veterans will have until Dec. 1, 1952, to apply for the maximum \$600 state bonus which the voters approved four weeks ago, Governor Douglas McKay said.

But he urged veterans not to apply until the legislature passes laws which provide for the method of paying and financing the bonus.

State veterans Director William F. Gaarenstroom predicted it would be next spring or summer before bonus payments can be made.

The bill expanding the veterans' home and farm loan program already is effective, and additional veterans can take advantage of it now.

He said the company's only offer was for a two-cent hourly wage boost. Present scales range from 92 1/2 cents an hour for beginners to \$2.07 for men in top rated jobs with eight years or more seniority.

OIL HEATERS & BATHROOM FIXTURES BUY AT Douglas Hdwe. Open 906 S. Stephens Phone 944-J

These additional veterans are those who were not Oregon residents when they went into service in World War II, but who came here and lived in Oregon for two years between the date of discharge and next December 31. Previously, this loan program was only for veterans who entered service in Oregon.
