Both times Wolfpack forward Sam Rayzino scored the vital points. He first tied the gamegat 38-55 on a free throw with 12 sec-onds left in coular play, and in the overtime Ranzino dribbled down court and sank the winning baskQ with just 26 seconds left. Roman Stars City College of New York came back from its Missouri pasting to drub Washington State, 59-43, in Madison Square Garden. Ed Ro-man hit 16 for CCNY while its high scoring twin, Ed Warner, watched the game from the side-lines during the second half. Long Island defeated Georgetown of Washington, 75-66, in the Green balt of the Garden bill.

List is divided in half. The upper verif is the Heavy group and the lower makes up the Pee Wees. Now here's an example. Say a boy weighs 89 pounds, is five feet tall and is 10 years old. At five feet, he measures 60 inches and this number is doubled making it 120. Add to this the 89 pounds making a sum of 209. The 10 years are changed to 120 months which is added to 209. Total -329 and we have the exponent. If the balfway point is 500, the boy would be classified as a Pee Ovee. If time doesn't run out on the would be classified as a Pergyee. If time doesn't run out on the five coaches before they finish these mathematical manipulations, the season will gart the first Sat-urday after the first of the gear, which means Jan. 6. According to Sherwood most of the games will be played at Benson grade school and at the high school. The pairings for the season have not
