ISN'T IT JUST WONDERFUL? BARE NECESSITIES ARE GETTING SO SCARCE, PRETTY SOON WE'LL ONLY BE ABLE TO BUY LUXURIES!

FROM NINE TO FIVE By Jo Fischer

Oh, we've seen this picture. Hysteria... but let's go in anyway and get some popcorn... and talk.

John L. Lewis Gets Wage Boost For Coal Miners

WASHINGTON — (AP) — John L. Lewis and representatives of virtually all the soft coal mines have signed an agreement calling for a \$1.60 daily wage increase, effective Feb. 1.

Lewis told a news conference that "the country is now free from any thought of a so-called coal crisis for an indefinite period of time."

The United Mine Workers president added that was not a "no strike pledge," however.

Lewis said that the scattered operations not represented in the signing of the agreement would be brought in "in a very short time."

He added that "mechanics, time and distance" had been factors in not getting them all signed up at present.

Negotiations are also underway covering the anthracite industry, with 80,000 Pennsylvania miners, Lewis disclosed. He expressed the opinion that a "corresponding" wage increase would be forthcoming there.

Although the government is planning a quick wage and price stabilization program, neither the operators nor Lewis said they had contacted government officials about their settlement.

Joseph E. Moody, president of the Southern Coal Producers' association, said in connection with the expected price increase of five or six percent:

"We think that in our circumstances, no right thinking official or any one with common sense would think that the price rollback would be pertinent to the coal industry."

There has been a talk of rolling back prices and wages to Jan. 1 levels.

Injured Dog Limp Alone To Hospital For Help

PHILADELPHIA — (AP) — A wayward dog, clipped by an auto, limped into a hospital ward and squatted beside human patients to take his turn for first aid.

As told by Dr. H. Newton Spencer of Presbyterian hospital, the dog, a black spaniel, trailed people through two sets of double doorways into the ward, and then, with many looking on, held up an injured paw. Dr. Spencer dressed the injury, settled the dog on a big pillow in a corner, and sent for the SPCA.

N. American Ban On Fishing By Japanese Asked

SALEM — (AP) — The Senate after a hours debate, voted 19 to 10 to ask President Truman to prevent Japanese fishermen from coming back to North American waters.

The memorial goes to the House. Sen. Manly J. Wilson, Warren Democrat, sponsor of the measure, said that California and Washington would take similar action.

He said that before the last war, Japanese were fishing in American waters and selling the fish in American waters, threatening to wreck the fishing industry.

Sen. Philip S. HITCHCOCK, Klamath Falls, objected to the memorial.

"I recognize the need to protect our fishing industry," Hitchcock said, "but if we're going to have peace in the world, we must make concessions to needy nations. This memorial is too drastic."

Sen. Ben Day, Medford, objected to singling out one nation. He said that the Chinese and Russians should be kept from fishing off North America, too.

Sen. Oscar E. West, Oregon Democrat, said that the Japanese are not only fishing in American waters, but also are selling the fish in American waters.

Sen. West said that the Japanese are not only fishing in American waters, but also are selling the fish in American waters.

Baking Soda Scarcity Blamed On Senseless Hoarding

NEW YORK — (AP) — Large producers of baking soda blame the continuing scarcity of the familiar "bicarb" on senseless hoarding and "panic buying" by consumers.

Baking soda (bicarbonate of soda) almost disappeared from grocery store shelves late last summer as a result of a 3½-month strike in the basic soda ash industry. That strike ended Sept. 25, but most producers have been unable to catch up with demand.

"Our baking soda production is at a record rate and for months we've been shipping more than ever before," said a spokesman for one of the largest manufacturers.

"But housewives, remembering that shortage last summer, have been buying four or five packages of soda at a time, instead of the normal one or two."

"If consumer buying returned to normal, we could get caught up in a few weeks."

"There's no real shortage," another large soda supplier said, "and very little likelihood of a shortage in the future."

Crash Of Spray Plane Brings Damages Award

LA GRANDE — (AP) — An award of \$2500 has been made to the La Grande air service in a suit resulting from a badword spray plane crash at Lincoln mountain last July.

La Grande Air Service filed the suit against the Tyler Flight Service, Westminster, Md., which had rented a plane from the La Grande company.

At the time of the crash the plane was flown by a Tyler employee, Hal Alonzo. The La Grande firm claimed the original renting agreement with Tyler was violated when the plane was turned over to Alonzo for badword spraying, while the Tyler company contended mechanical failure caused the crash.

Circuit Judge R. J. Green ruled in favor of La Grande Air Service, directing the jury to bring in a verdict in its favor.

Editors Called In Racket Probe

INDIANAPOLIS — (AP) — The publisher and managing editor of the Indianapolis News have been summoned to appear before the senate crime committee in Cleveland and tell it about the newspaper's copyrighted report of a lottery racket in Indianapolis.

The newspaper executives, scheduled to appear before the committee headed by Sen. Estes Kefauver, are Eugene C. Pulliam and his son, Eugene S. Pulliam.

The News reported that baseball lottery operations in Indianapolis are the biggest in the nation, amounting to \$10,000,000 a year. It said the Kefauver committee had received reports of "bribery of policemen and politicians."

The News said that the Kefauver committee had ordered it to discontinue publication of such reports. It said editorially it was "shocked to receive that order," and it pledged itself to "continue to print news about law enforcement — or lack of it — in our community."

OREGON TOP STATE IN DISTRIBUTION OF FOREST FUNDS

WASHINGTON — (AP) — The Forest Service says it is distributing \$8,343,000 to the states from the income from national forests during the fiscal year ended June 30, 1950.

Nearly \$21,000,000 will remain in the federal treasury.

The return to the states, which represents 25 percent of the receipts from timber, grazing and other sources, is the largest amount on record, the forest service said.

In addition 10 percent of the earnings have been allocated for roads and trails in the forests, and \$700,000 from grazing receipts was appropriated by Congress for range improvements.

Gross income from grazing fees on forest lands in the 1950 fiscal year was \$3,385,000.

The sums returned to the states must be spent for schools and roads in a manner determined by each legislature.

The largest payment—\$2,230,093—went to Oregon, the smallest—\$40,671—to North Dakota.

Amounts allocated to the 11 western states, which got more than \$6,000,000 of the more than \$8,000,000 total, include: California, \$972,649; Washington, \$1,224,016.

Motion Picture Actor Lamey Kills Himself

NEW YORK — (AP) — Radio and motion picture actor Douglas Lamey, 32, clad in a Hollywood type outfit of riding breeches and red T-shirt, shot and killed himself Friday in his fashionable east side apartment, police reported.

They said he had been melancholy since estrangement from his socialite wife and children several years ago.

The six-foot, three-inch former aviator began his Hollywood career under the name of John Mitchell.
