

C-Trader's Cargo Transferred At Reedsport Dock

REEDSPORT, Ore. — The lumber schooner C-Trader, long idled by a labor dispute, is out of service again and its lumber cargo is being shifted to the C-Coaster. The C-Trader, freed of pickets by a federal court restrainer, headed out of the Umpqua river for San Pedro, Calif., Monday with 2,119,000 board feet of lumber aboard. The vessel scraped bottom, its cargo shifted and it put back into port. Inspection revealed a serious crack in the stern frame, E. C. McDonald, Tideways dock manager, said. C-Coaster docked Thursday and a large-mounted whirley crane started moving the lumber from the C-Trader. Because it is a smaller craft, the C-Coaster is expected to make three trips to San Pedro, Calif., to carry the lumber the C-Trader had aboard. The C-Trader, object of a dispute in which longshoremen objected to the AFL Sailors Union of the Pacific loading more than one hatch, was to be towed to Portland to drydock.

Plans For Chest X-Ray Survey Are Discussed

Plans were discussed for the chest X-ray survey date when the Douglas County Tuberculosis and Health association met for a board and executive business session Wednesday. The date for the survey will be announced soon. Those present for the luncheon and meeting were George Luoma, Don Forbes, James Oakley, Paul Elliott, Dr. Earl Neuru, Mrs. W. F. Amiot, Mrs. Ralph Church, Mrs. Harold Schmeer, Mrs. Edward L. Tauscher, Mrs. O. L. Torrey and Mrs. L. G. Twoby.

Special Classes Dated For Home Nursing Groups

At the request of civil defense authorities, a special Red Cross instructor is arriving in Roseburg Monday to teach classes for home nursing instructors. One class will begin Jan. 29 and the second will start Feb. 5. Each will last one week. Fifteen women are required for each session. Women eligible for these classes are those with previous teaching, practical nurse or nurse's aide experience. Such persons are asked to immediately contact the local Red Cross office in the armory, phone 832.

U.N. Only Avenue To World Peace, Scientist Says

EUGENE — (AP) — Collective security through the United Nations is the only path to survival in the atomic age, Robert A. Millikan, Nobel prize winning physicist, told a Eugene audience. Speaking at the University of Oregon campus, the 82-year-old scientist delivered the final address for religious evaluation week at the university. He asserted the United States should stay in the United Nations and should try to keep the international body together. If Russia wishes to withdraw, he said, the western world should stay in the UN without her, but "always leaving the door open for her return." Condemning what he called "British pacifism and American isolationism," he charged that two factors ranked with Russian aggression as danger signals of a third world war, "which no nation is rich enough or powerful enough to withstand." However, the scientist declared he has more hope for world peace now than he has had at any time in 50 years. His reason: 1. A "better attitude" on the part of the U.S. toward world cooperation. 2. Russian troubles with her own people, plus low production figures. 3. Fear of the atomic bomb which did "more to awaken mankind to the need for avoiding war than three centuries of education."

SCENES OF RARE BEAUTY will be presented in Jim Bond's picture, "Life in the Wilderness," coming Monday, Tuesday and Wednesday to the Junior high school auditorium in Roseburg. It will be the third of Bond's Yukon Territory pictures to be shown here. The show is sponsored locally by the Roseburg Rod and Gun Club.

Record Timber Cut Seen In British Columbia

VANCOUVER, B. C. — (AP) E. T. Kenney, British Columbia lands and forests minister, forecasts that the total timber cut in B. C. in 1950 will constitute an all-time high. He said: "It is my opinion that when the figures on all the cutting operations in the B. C. industry last year are compiled, the total will be much closer to 5,000,000,000 board feet than it will be to 4,000,000,000 board feet." "If so, this will be an all-time record for the province." The total timber cut during 1949 was 4,049,682,327 board feet with a value of \$375,000,000.

Bill To Protect Fawns Approved By State Senate

SALEM — (AP) — The Senate passed and sent to the House a State Game commission bill to forbid the taking of the young of any game bird or game animal. The commission wants to stop persons from taking home fawns in the belief the fawns are lost. Sen. Jack Lynch, Portland, told the Senate that fawns which appear to be lost aren't really lost at all. The mother is just out feeding. The Senate completed legislative action on a bill to keep the "little Hoover" commission operating for two more years.

The commission, created by the 1949 legislature, said it would introduce a bill next week to make drastic changes in the operation of state departments which run the state's finances. The job of the commission is to study all operations of the state government and to recommend changes. The Irish and Italians who want Columbus day made a legal holiday have again won at least a partial victory. The Senate refused to go for the bill to make it a holiday, but it sent the bill back to committee with instructions to make it a "permissive" holiday. That means anyone could observe the holiday who wants to. Those who don't could ignore the day, which falls on Oct. 12. That day was a holiday until the 1949 legislature abolished it. Sen. Phil Brady, Portland, led the move to make it a holiday again. Until modern times, the city of Bangkok in Thailand was built largely on floating pontoons or on piles along the river Me Nam and adjacent canals.

Donations Asked For Polio Auction

Del McKay, Roseburg chairman for the March of Dimes, said the Kiwanis club needs "anything from a horse to a house" for the polio benefit auction at the armory, Tuesday, Jan. 30, at 7 p.m. McKay said it is very important to get items listed as soon as possible. Anyone wishing to donate articles for the auction are asked to phone 3070 and list the items. The donated articles will be picked up by March of Dimes workers on Monday and Tuesday. The local polio drive chairman said old furniture, clothing, toys, kitchen ware, tools and household goods would make excellent items for the polio auction.

Truck's Accidental Blow Rights Upset Auto

NEWBURY, Mass. — (AP) — The truck that struck Mrs. Edna Finnegan's car didn't knock it over—it tilted it. The 37-year-old Newburyport woman's car had tipped over on its Newburyport turnpike. A moment later, a truck operated by Louis Pelletier came along, swerved to avoid another truck and struck Mrs. Finnegan's car. The impact brought the car back on its wheels. Mrs. Finnegan was taken to a hospital suffering head and leg injuries.

4-H Club Leadership Trophies Awarded

CORVALLIS — (AP) — Four-H club leadership and achievement trophies were awarded last night at the annual western Oregon 4-H leaders' conference here. The winners were Oregon State college students. The Snell trophies, for the highest record of general achievement, went to Margaret Colegrove, 19, Junction City, and Kenneth Hill, 18, Cove.

The Oregon Bankers association cup for girls' leadership went to Patricia Fleming, 20, Sherwood and the Patterson cup for boys' leadership went to Stanley Marugg, 19, Garden Home.

Shooter Of Young Rockne To Face Assault Charge

WICHITA, Kan. — (AP) — County Attorney Tom Seed said today charges of felonious assault will be filed against a used car dealer who shot William D. Rockne, son of the late Knute Rockne. The dealer, Joe Novacek, 35, was arrested. Rockne, 35, was seriously wounded outside the Novacek home Saturday night. Novacek told Sheriff Ty Lockett he was shot twice while lying on the ground. Previously the son of the famous Notre Dame coach had been in too serious a condition to be questioned. Physicians reported that Rockne "will recover" barring complications.

Social Security Helps Survivors Of Servicemen

World War II veterans and the survivors of servicemen who died in World War II are affected by the recent amendments to the Federal Social Security act. A social security wage credit of \$169 is generally granted for each month of active military service between September 1940 and July 1947. These wage credits will increase the amount of some old-age and survivors insurance payments. They will also make some persons eligible for survivors payments who previously did not qualify. These new credits are not affected by Veterans administration compensation or pension. They will not be given, however, when World War II service is credited under some other federal plan such as civil service or railroad retirement.

The \$169 wage credits for military services are particularly important to the following persons: 1. Families with children under 18 of men who died in military service where the families were previously ineligible for monthly survivors insurance. 2. Families of veterans who died after discharge where survivors insurance could not previously be paid. 3. Living World War II ex-servicemen who have done little or no work covered by social security. Many of these now get an insured status under social security because of their service-earned wage credits. A free leaflet explaining these veterans' provisions may be requested by phone, mail, or in person at the Social Security administration, 1247 Willamette street, Eugene.

The county attorney said Novacek was arrested after Rockne told Sheriff Ty Lockett he was shot twice while lying on the ground. Previously the son of the famous Notre Dame coach had been in too serious a condition to be questioned. Physicians reported that Rockne "will recover" barring complications.

Curry County Hospital Completion Time Set

GOLD BEACH — (AP) — Construction of the \$101,426 Curry county hospital, financed jointly by the county and the federal government, is underway here. The building, for which ground breaking ceremonies were held recently, is slated for completion within five months. In 1947 the county set a goal of \$100,000, but to be raised by special tax and the other by contribution with 53 1/2 percent to be matched by the federal government under the Hill-Burton act. The Hospital association with three concentrated drives went over the top recently when the last \$10,000 was raised within a week's time to meet the federal aid deadline.

Members of the county hospital board are C. E. Seger, R. L. Erickson, Joseph Bailey, Homer Kerber and E. E. Hanscom.

ABOARD TRANSPORT

William C. Stonebraker, seaman, USN, of Star route, Roseburg, is a crew member of the high speed transport USS Horace A. Bass, operating in Far Eastern waters in support of United Nations forces. The Bass assisted in landings at Inchon, Korea; landed the first wave of Marines at Wulmdo, and landed British commandos, U. S. marines and navy demotion teams for behind-the-line raids on communist supply dumps, oil depots and troop concentrations. Recently the Bass visited Siam, the first American vessel to call at that country in 10 years. The prime minister presented the Bass with an engraved silver cigar box as a symbol of friendship.

The National Geographic Society was founded in 1888 "for the increase and diffusion of geographic knowledge."

PVT. JIMMY P. METZ, 20, son of Mr. and Mrs. Ben Metz, Yoncalla, has completed his air force basic airmen indoctrination course at Lackland air force base, near San Antonio, Texas.

FORMULA FOR PEACE

LONG BEACH, Calif. — (AP) — Fifty-eight years of married life without a quarrel—that's the record claimed by Mr. and Mrs. Benjamin C. Scott. "It's the truth," Mrs. Scott told a dubious reporter. "There's no use in arguing or fussing. What good does it do? We just haven't done it." "No," Mr. Scott nodded, "we haven't." What do they do when they get mad at each other? "I don't get mad," said Mrs. Scott. "I just let it pass over," said Mr. Scott.

Ballad Contest Of Barber Shop Quartets Dated

FOREST GROVE — (AP) — For the third successive year, the Mutual Broadcasting company will air quartets of the original All-Northwest Barber Shop Ballad contest, coast-to-coast the evening of Feb. 24. It was disclosed here. The half-hour broadcast will be aired through the facilities of KPOL, Portland, direct from the auditorium stage where finalist quartets will be competing for the Northwest championship, \$1000 in prize money, trophies and a chance to appear at the Pendleton Round-Up next September. Station KPOL has aired leading quartets from Forest Grove ever since the founding of this gala nationally-known Gay 90's festival by the Forest Grove Gleemen. The first year, the broadcast was local, but the following year it was carried throughout the Pacific coast region. So popular was the show with radio listeners that MBS expanded the program to a nationwide scale. The direct broadcast will be aired from 8:30 to 9 p. m. PST. It will be one of the major highlights of the gala 2-day songfest.

In the Middle Ages, each stone cutter had an individual mark which he put on all stones that he cut. These marks often were handed down from father to son.
