

U. S. AIR PUNCH FOR THE FRENCH—The U. S. Navy's escort carrier Windham Bay is seen at a dock in Saigon, Indo-China, where it delivered a load of war weapons and 44 Navy fighter planes to French forces fighting the Communist rebels.

National Guard Air Reservists' Need Stressed

Air civil defense is like insurance, says Col. Archie Roth of the Oregon State Board of Aeronautics. He was speaking to 66 independent and Sheriff's aero squadron members from every section of the county, who gathered at the courthouse to hear about the national guard air reserve plan.

"If you buy insurance, you don't expect to use it, but you have it just in case," he said. He continued that there is a need for a national guard reserve air arm to work in defense programs.

To detail the plan for listeners was Director W. M. Bartlett of the Aeronautics board. He said the idea behind the organization is a centralized system for controlling all private planes in case of a war emergency.

At the first sign of war, the army will take over, said Bartlett, and this will mean the grounding of all private aircraft. If there is a controlling organization to coordinate activities, there is a better chance that the private "props will keep turning," he said.

The plan is to secure all available information about the approximately 1700 private aircraft in the state and activate an organization on a local level under a central national guard reserve, he said.

The importance of a local level operation is greater, according to Bartlett. He pointed out that key men in those local sections know their men and facilities, thus leading to efficiency of coordination, and control.

Ralph Scroggin, also a board member, noted that the organization will go far to make private

"NOW, SHEE HERE, OFFISHER!" — Driving drunks won't stand a chance when confronted with this little chemical gadget, "The Drunk-o-meter." The gadget, shown at a traffic conference at the University of Washington, Seattle, measures the alcoholic content of a man's breath. Anything over 15 per cent means he's "under the influence." Dr. C. W. Muehlberger of the Michigan State Department of Health tests the "intoximeter," while Theodore Loveless of the University of Washington looks on.

planes an important part of national defense. Planes will not be grounded and useless, as in the last war, he said.

The final speaker was Stanley Dilatush, a tower operator at the Salem airport. He explained the best methods of contacting towers.

Dance Nets \$170 For Polio Fund

The recent dance at Tenmile hall sponsored by Tenmile Ladies club brought in \$170 for the March of Dimes, reported Chairman Mrs. Emma Dierich Feb. 14, at a meeting of the club.

The Perron children provided entertainment at the meeting by singing a group of songs.

A large quilt was tied and a crib quilt quilted during the meeting. The crib quilt will be sent to a children's hospital and the large quilts will be donated to some worthy organization. Quilting is planned for the next meeting also.

Those attending the meeting were: Mrs. Mickey Bourassa and Martha Ann, Mrs. Blanche Degner, Mrs. Bette Dickover and Walter, Mrs. Emma Dierich, Mrs. Amy Erbe, Mrs. Vera Erbe, Mrs. Hazel Ison, Mrs. Minna Lockwood, Mrs. Minnie Mellus, Mrs. Maureen Muetzel, Mrs. Minnie Rathkey, Mrs. Josie Smith, Mrs. Alice Tyler, Mrs. Kate Wilson, Mrs. Eleanor Richter, Sandra and Johnny; Mrs. Marjorie Hazen, Virginia and Estella; Mrs. Loue Wood, Mrs. Joey Saum and Cuyler Jo; Mrs. Alice Pierce, Mrs. Agnes McClelland and Mrs. Julia Breitenbucher.

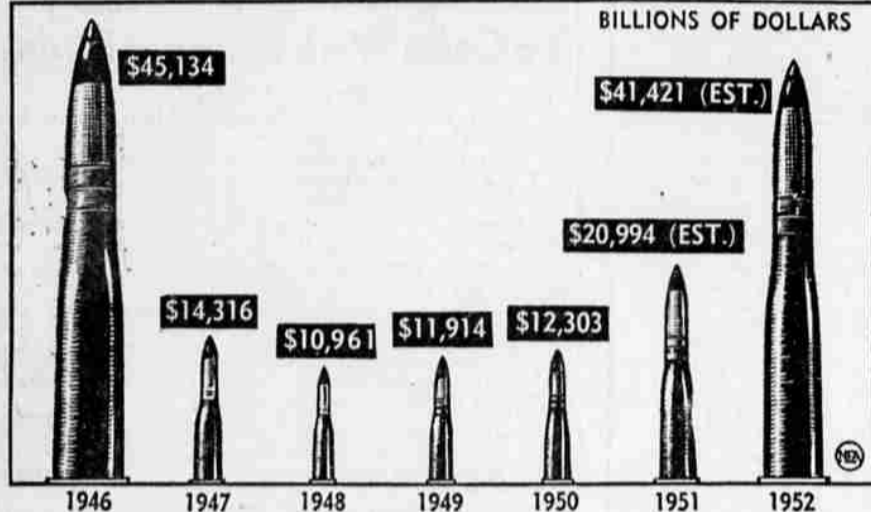

The next meeting will be held at the Tenmile church Feb. 28.

LOGGER KILLED

SPRINGFIELD — (AP) — A log slipped from an unloading track of a truck at the Guerrier Lumber company here Monday, killing George Higgins, 24.

Higgins, a truck driver, suffered a crushed head and chest, county coroner Fred Buell said.

Americans are expected to consume 8,000,000 tons of sugar in 1951.

MILITARY COST NEARS WARTIME FIGURE—Estimated cost of the armed services in fiscal 1952 is compared above with past years, showing steady rise in military costs during "cold war" period. The Korean war and current peril of World War III boost 1952's estimate to nearly twice what will be spent this fiscal year, which ends June 30. The new military budget is within \$4 billion of the 1946 expenditures, which covered the last part of World War II and the beginning of demobilization.

Adventists To Aid Civilian Defense

"Seventh-day Adventists, from the highest officer in the denomination to the youngest lay member, stand ready to cooperate in every possible way in the saving of lives and the prevention of suffering," Elder L. L. Huntington told his congregation in the service Feb. 17. "We as a people have assured our government that we stand ready to throw our resources into civilian defense and for that purpose we are opening our new auditorium to offer the public a first aid class."

Plans have been laid to hold an 18-hour Red Cross first aid class Monday evenings, beginning Feb.

28, at 7 o'clock. After the close of this class additional emphasis will be given on first aid aspects of atomic warfare, according to an announcement made by the committee in charge.

Eugene Northrup, Red Cross first aid instructor and chief of physical therapy at the Veterans hospital, will be the teacher of this class, which is open to the general public.

"Let Freedom Ring!"

Because George Washington fought bravely and unrelentingly to obtain freedom from tyranny for our ancestors against odds which often seemed unsurmountable...and because he finally won through with courage, devotion and perseverance...we in America today enjoy liberty.

More than ever should we as a people be aware of Washington's inspired life and leadership.

In commemoration of the birth of this great American—two hundred and nineteen years ago—this bank will observe a legal holiday on Thursday, February 22, in all of its offices.

LIGHT CONDITIONING RECIPE

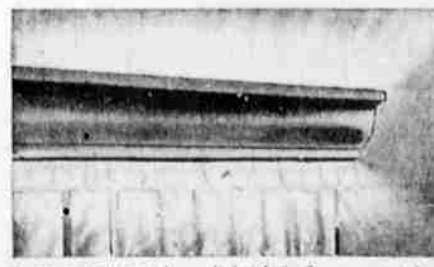

How to bring a new kind of beauty and comfort into your living room...with "Light-Conditioning"

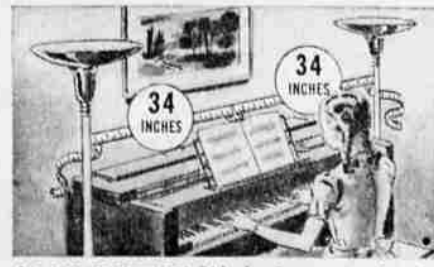

1. **DESK WORK** is easier when the light is right. The recipe shown—one of several ways to light a desk—uses two wall lamps with 100-watt bulbs.

2. **ONE GOOD WAY** to get proper light for reading is shown in this recipe. The booklet shown at right contains recipes for other reading situations, too.

3. **NEWEST THING** in home lighting is fluorescent tubes concealed behind a wall valance. Makes room look larger—more dramatic.

4. **A PAIR OF TORCHERS**, 34 inches from center of music, let you play without hunching forward to read the music. 100-200-300 3-lite bulbs are used.

The Light-Conditioned Home is today's big new idea for home comfort and beauty. It's a home where the lighting follows exact recipes prepared by America's top lighting experts... a home where the world between your walls seems as bright, as cheerful, as inspiring as all outdoors! Typical Light-Conditioning recipes for a living room are shown here.

FREE BOOKLET OF LIGHT-CONDITIONING RECIPES

The full set of Light-Conditioning recipes has been put into a 32-page booklet. There's nothing else like it. And it's yours for the asking. Just write or phone us for your free copy.
