**Law Ends Crime Orgy Of Youths In U.S., Canada**

VANCOUVER — (AP) — A three-week "crime spree" in Canada and the United States ended in Vancouver, where it started for 21-year-old Stanley Peterson.

He is the grandson of an Indian chief. In court Prosecutor Gordon Scott read excerpts from a lengthy confession.

Peterson and his girl friend, Dolores Dimary, alias Brey, 20, were arrested at a swimming pool late Friday. Both were in bathing suits.

He told police he and a friend, named as Jimmy Dimary had staged a series of armed holdups using a succession of stolen cars.

Three associates were arrested at Penitentiary, B. C., earlier last week.

Peterson claimed he and his friends conducted an "eight-day campaign" in the United States after a series of robberies here.

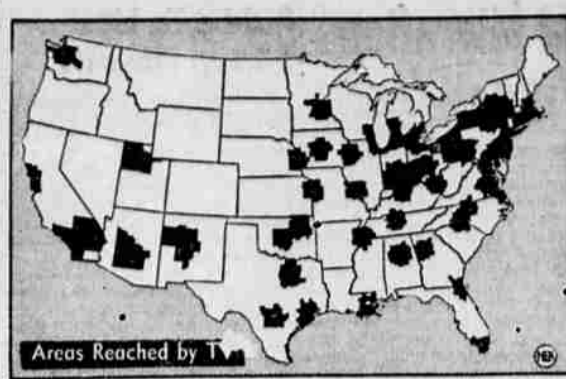

He said they got \$200 in the hold-up of a swank Reno, Nev., gambling casino, but other details of the U. S. campaign were not disclosed in court. It included the robbery of stores, service stations and night clubs.

Weapons stolen from an ordinance depot in Tacoma, Wash., were found in a hide-out at Penitentiary.

Peterson pleaded guilty to three store holdups here and was sentenced until Thursday for sentence.

The holdups were staged here three weeks ago and then Peterson and his friends crossed the border into the United States.

The 20-year-old girl, an expectant mother, is held on a vagrancy charge. Police said her husband is working in a logging camp.

**Postal Inquiry Being Conducted**

BOSTON — (AP) — How can a postoffice clerk bask in sunny Florida and sort mail in frigid Boston at the same time.

That's just one of the questions puzzling postal inspectors as they dig into a payroll-peddling scheme which is said to have defrauded the government of millions of dollars.

Tennison Jefferson, chief postal inspector for the New England region, will say only that ten members of his staff are "investigating the situation" at Boston's big South Postal annex.

The probe was touched off 10 days ago when Jefferson's men swooped down on the annex, sealed all exits and found—published reports said—that 28 workers whose time cards were punched were not in the building.

An estimated 200 employees were reported involved in a racket said to work like this:

Instead of reporting for duty, the worker would go to his other job or just loaf. His time card would be punched in by a fellow employe for \$3 a day or a flat \$10 per week.

If the man reported for work but wished to leave early, he just paid the time card falsifier \$1 per day.
