Birth Date To Blame? One Misfortune After Another Hits Boy, Aged 3

SAN ANTONIO, Tex. — (AP) — No troubles in the life of a three-year-old? Look what happened to David Hopkins just in the last few months.
Last November he developed infected tonsils and had to have them removed.
In January he suffered an abscess in one ear, then fell ten feet from the back steps to a concrete sidewalk and suffered minor bruises and abrasions. Later in January David developed an allergy to a medicine he was taking for chronic asthma.
On March 5 he developed a case of measles. He had barely recovered last Saturday when he contracted a case of mumps. The mumps was just well under way when Monday he also acquired a case of chicken pox.
David is looking hopefully ahead to getting out of the three-year-old stage shortly. His birthday falls on April 1.

Salary Boost Offer Disappoints Teachers

(Continued from page One)
teachers met with the board of education again and requested that a cost-of-living increase of \$350, instead of the \$300 be granted for 1951-52. This request represented 10 percent of the average teachers' salary for 1950-51. The request for annual increment remained at \$120, making a total increase request of \$470.
"The request for \$350 cost-of-living increase was based on the following information:
"1. On February 12, Michael Di Salle (Federal price stabilizer) said he expects the general price level to go up another five or six percent or even more before some degree of stability is achieved, probably about mid-summer" (Feb. 12, News-Review).
"2. In February the wage stabilization board allowed wage increases up to 10 percent above the January 1950 level.
"3. Several young married men teachers with families are having a difficult time financially this year.
"4. According to the papers, several groups in industry and government are getting increases now. The requested increases for teachers will not go into effect until September 1951.
"5. Pay Higher Taxes
"6. Sixty-two of the teachers who were teaching in Roseburg last year are taking home less in their pay check this year than last because of increased income taxes. This is true in spite of the fact they received a \$60 annual increment above that which they were paid in 1949-50. Of the 37 teachers who take home more pay this year than last, 23 do so because of a change in dependency, increased training or change in job status.
"7. Roseburg teachers compare favorably with other teachers in other districts based upon a comparison of average salaries paid this year. However, living costs in this area are higher than in other areas of the state.
"Information gathered since March 5 from a survey made by the Oregon Education association and reports from superintendents at a meeting in Portland March 10 show that 25 first class districts have been granted cost-of-living increases ranging from \$200 to \$425. These do not include the annual increment. The average cost of living increase in these 25 districts is about \$340. As yet, there are a large number of the first-class districts in Oregon which have not taken final action on teachers' salaries.
"The budget committee of district 4 on March 6 granted a \$200 cost-of-living increase and a \$100 annual increment."

Bandit, In Repeat Holdup, Grabs \$160,000 In Gems

NEW YORK — (AP) — A dapper, suede-gloved young bandit with a yen for diamonds showed a particular liking for those sold by Selmsberger, Inc., exclusive east side jewelry store.
Last Feb. 16 he visited the store after making an appointment. He shopped around for 45 minutes, then whipped out a gun and fled with \$40,000 in gems.
Tuesday he made a return visit, without an appointment. Nor did he linger. He entered, pulled out a pistol, and scooped \$160,000 worth of gems into his pocket.
The latest haul also included \$55,000 worth of baubles belonging to the Marchioness Florence De Montferrier, a customer who was in the shop at the time.
Police said the bandit, as he did the previous time, overlooked thousands of dollars' worth of other gems.

Fire Dept. Calls Made On Wrong Phone Number

The Roseburg fire department is still getting numerous general calls on its emergency fire line.
Fire Chief William E. Mills again reminds people calling the department for fire permits or for general information to dial 3-3226, instead of 2-2644, which is the number to call to report a fire.
Many calls come in daily on the latter line, thus alerting the department for action, whereas the calls should be made on line 3-3226. Only one number is listed in the telephone book, so local folks are requested by the fire department to jot down this number for non-emergency use.

Expedition Seeks Aid In Relic Hunt

EUGENE — (AP) — "At least a dozen" aspiring archeologists are sought here by Joel L. Shiner of the Smithsonian institute to help him find Indian relics on the Columbia river.
Shiner plans to investigate a 20-mile stretch of the Columbia between Umatilla, Ore., and Pasco, Wash., where he hopes to find traces of a race of Indians between 5000 and 7000 years old. McNary dam backwater will eventually cover the sites, he said.
Three sites will be investigated. One is an Indian camp buried under a thick mantle of volcanic ash and the other two are Indian villages. One is adjacent to historical Fort Walla Walla, in Washington.
He hopes to find stone tools, weapons, and bones of animals which the ancient Indians utilized. Smithsonian parties have been working in the area for three summers, Shiner said. No human bones have been found.
The expedition will leave Eugene early in April. Persons interested in joining the field party should contact Shiner, in care of the University of Oregon, Eugene.

House Speaker Battles To Prevent RFC Scuttle
WASHINGTON — (AP) — House Speaker Sam Rayburn (D-Tex.) has thrown his influence against the rising demand in Congress to kill the Reconstruction Finance corporation.
Rayburn told a news conference the RFC has done "a remarkable job" of great benefit to small business. He said pressure to get rid of the big lending agency is due largely to its low interest rates on business loans.
He didn't say where the pressure is coming from.
A coalition of Republicans and southern Democrats — many of its members hoping for eventual death of the RFC — was organizing on the house floor to try to belt down President Truman's proposal to revamp the agency.

Hunting Is Fun Again

(Paid Advertisement)
Construction business is hard work, says Maurice H. Rannels, of Mabelvale, Arkansas, but he likes it. He also likes hunting with his hounds, but for a while he didn't feel like doing much of anything. He had that run-down feeling, aches and pains, and just didn't seem to have any appetite. Being an active man, he didn't like not feeling well, and decided to do something about it.
He heard about how HADACOL had helped many folks with troubles like his due to a deficiency of Vitamins B1, B2, Iron and Niacin and decided to give it a trial. He made a good decision, for HADACOL did help him. Soon, his aches and pains were relieved, he had a good appetite, really enjoyed his food, and he rested well.
Mr. Rannels says:
"I am in the construction business, which everyone knows is mighty heavy work. I was working so hard, and just didn't seem to have any appetite at all. I started having aches and pains at about the same time. Then, about that time I decided to give HADACOL a trial. Right away, my aching was greatly relieved and my appetite picked up. I started eating regular meals, sleeping well, and my general condition was greatly improved. I have since continued taking HADACOL regularly, and feel that it is a wonderful product. I freely recommend HADACOL as a good product."
