

Students Promote Sale Of Gold Ore

CRIPPLE CREEK, Colo. — (AP) — Want to buy some gold ore? You can get a chunk for a dollar, and help build a school besides.

School kids at Cripple Creek and Victor have offered to send it anywhere in the United States. It's their way of financing a new school.

Gold still is mined in the area, but not in the quantities it was when 60,000 residents supported 25 schools. Now the 1,200 people have two schools for 375 students. Both buildings are more than 50 years old.

A new gold mill opened Monday, and mining is expected to pick up. That means more families, more kids, and more doubling up in schools.

The kids' fathers and miners have mined 80 tons of ore, which the mine owners contributed.

Barry Fitzgerald Wins Irish Oscar Statuette

LOS ANGELES — (AP) — The Irish Oscar, a statuette of St. Patrick, has been won by Actor Barry Fitzgerald.

The ancient order of Hibernians, a Catholic organization, announced Sunday that balloting of its members in the United States and Canada resulted in the choice of Fitzgerald for the order's annual Irish screen award. The award will be presented at a St. Patrick's day ball March 17.

Former NY Detective Raps Cop Portrayals In Films

By BOB THOMAS

HOLLYWOOD — (AP) — The movie industry today was able to hear a first-hand report of what policemen think of cops-and-robbers films. The comment is perhaps best expressed by a Bronx cheer.

The man delivering this opinion, although in more genteel terms, was John Shilling, detective on the New York police force for 20 years. He retired four years ago and moved with his family to California. Now he engages in private investigation and is presently employed to check facts on the new film "Detective Story."

Shilling is a plain-spoken man who wouldn't sweet-talk a producer even though he is working as technical advisor. So I asked him what policemen think about how they are portrayed in the crime movies.

"I'll tell you this," he replied, "most policemen would like to hit the producers of those pictures over the head."

A good many crime pictures show the private eyes outsmarting the detectives on the police force, who are usually portrayed as dull-witted. Shilling protested against this.

"You don't find a dope in the detective division," he remarked, "when a man is promoted to detective, he's got to produce results, or else. He's got to be a walking encyclopedia. He's got to know everything, including how to deliver a baby, if necessary. And it has happened."

Trailed Luciano

Shilling, who trailed Charles "Lucky" Luciano for two years as part of his detective duties, declared that no movie has been entirely accurate on police matters, "even the pictures that Mark Hellinger made." But he thought Hellinger's films were the best of the lot, especially "The Naked City."

"Even that one had errors of procedure," he commented. "For instance, at the end the young, green detective (Don Taylor) went after the killer alone. That would never have happened. His partner (Barry Fitzgerald) would have gone along."

The detective even had his reservations about "Detective Story." "When I read the script, I was

everything as seriously as it seems in movies."

Shilling is being very careful about details and even sent to New York for the correct forms for making out reports.

"I gotta be careful," he said. "All the guys on the force know I'm on this picture and if I make a slip, I'm in trouble."

Whetmore, Band Leader, Slated For Interviews

Jimmie Whetmore and his orchestra will play for a Roseburg police benefit dance at the armory March 23.

But Whetmore's Roseburg engagement includes more than just the appearance at the armory. Radio station KRXL plans to hold an informal interview with the band leader during the afternoon of March 23.

Not to be outdone, radio station KRNR's versatile disc jockey, Bob McCarl, will interview the band leader on the afternoon record show, "It's Requested."

For those who are unable to attend the dance, KRNR will carry a remote broadcast from the armory dance floor at 11 p.m.

Whetmore, besides being a great solo pianist in his own right, is a composer of many hits and a master of the vibraharp, saxophone, trumpet and guitar as well. In addition, he has a good baritone voice.

The orchestra will come to Roseburg direct from a series of Hollywood engagements.

Police Chief Calvin Baird said tickets for the dance were selling at a rapid rate, but there are still some left. He pointed out that the money from the dance will be used to finance police reserve activities.

The Chivor-Somondoco emerald mines of Colombia produce about 100,000 carats of fine stones a year.

Hungary Again Places Milk On Ration List

BUDAPEST, Hungary — (AP) — Hungary has reintroduced rationing of milk.

An official of the country's Communist-led government said the move was necessary because of hoarders.

Sugar, flour, fat, butter, meat and gasoline were placed on the ration list earlier this year.

FIRST SHE GOT MAD—

THEN THEY GOT ADEQUATE WIRING

That night fixed it. She'd been saying for years she couldn't put up much longer with the poor wiring in their home. But that evening when he said she was slow — then she really had her say. Next morning they called the electrical contractor and arranged to have Adequate Wiring installed.

In their home, now, there are no more "slow-downs" in the iron, nor in any of their appliances; no longer do appliances have to compete for current with each other and with lights being used elsewhere in the house. "Overloading" has been done away with. Adequate Wiring now supplies enough power for present and future electrical needs in their home.

Maybe you're not aware of "slow-downs" in your electrical equipment; but the fact is that electrical appliances are made to work quickly, efficiently and economically and you can't get this good service when your wires are overloaded.

Provision for plenty of power is only one feature of every Adequate Wiring installation. In a home that's Adequately Wired you don't need to put up with unsightly tangles of extension cords or go without lamps where you want them. You have enough outlets in every room to insure comfortable and convenient use of all your lights and appliances. There's no prowling around and knocking your shins in the dark, either, with the scientific system of permanent lights and switches which every Adequate Wiring installation provides.

ADEQUATE WIRING COSTS SO LITTLE—MEANS SO MUCH
