

Students Make Good Jurors, Test Reveals

NEW BRUNSWICK, N. J. — (AP) — One morning in 1936 several students in the news reporting class at the State University school of Journalism found themselves moved out of the spectators' seats in Judge George Morrison's District court in New Brunswick, and sworn in as jurors. That was the beginning of a unique learning-by-doing program which Professor Hubert Ede's reporting classes

have been carrying on regularly for the past five years. "The reason I like to have students serve on juries is that they do such a fine job. I don't know that I've had any better, more serious jurors than the Rutgers kids," Judge Morrison said. "There is an age requirement of 21 years for jurors in this state," Judge Morrison explained, "but we hit on the practice of getting both attorneys in a case to waive that limitation, and it's worked out fine."

Patriots Pledge Voluntary Observance Of Emergency; Cite Moral Strength Need

By JAMES MARLOW
WASHINGTON — (AP) — A hunch of businessmen in Springfield, Mo., have pledged themselves to sanity and decency. Thereby hangs a tale. . . . The odor from the RFC hearings in Washington is not the only stench in the country. During World War II's price control and rationing we had chiseling on prices, black-marketing and hoarding. Now that we have price control again we'll have more price chiseling. If goods get scarce, we'll have black-marketing and hoarding.

From experience the government knows appeals to reason and decency aren't always enough. That's why it has penalties for cheating. In Springfield nine civic clubs, representing more than 1,000 members, decided to do something positive to keep down cheating. They took a page "ad" in the Springfield News and Leader in which they took a pledge. But first they had a few things to say. They said: "While we watch the battle-front, the U. N. council halls and Washington, we have lowered our guard. And working among us is as cruel and ruthless a bunch of crooks as ever made up a few terms 'chiseler' "The only word that might cover these modern Judases is 'chiseler.' 'Black marketeers' covered a class of parasite who worked through World War I and II and who, with very little discouragement with the decent citizenry, reaped a harvest of blood money. We, representing more than 1,000 members of nine civic clubs of Springfield, are convinced that we must keep faith, that all of us must accept the responsibilities of good citizenship and lend our moral strength to the greatest cause to which a free people could decide itself."

Positive Education Urged

"Rather, we think the educational program should be positive showing the folks at home exactly what black marketing does to weaken our defense effort." The editorial commended the nine civic clubs for their pledge but added: "We suggest, however, that the warning and pledge should not be ends in themselves, but rather should mark the beginning of an enlightened, progressive educational campaign which could have far-reaching effects."
