INDIAN KILLS INDIAN
CHILQUIN — (AP) — An argument over money led to the death here Friday of one Klamath Indian and the arrest of another. Indian service officer John Arkell said.
Arkell said that Nathaniel Wright died in a Klamath Falls hospital after being hit in the head twice with a double-bitted ax. He said Charlie Captain, 63, admitted hitting Wright after the victim threatened to beat him up unless he loaned him \$20.

"that's a fine home you're building!"

YES, I think I'm going to like it.

I wish I had a home of my own.

Well, why not?

My wife has the idea that it would be a great worry if anything happened to me.

Nothing to it, my boy. The arrangements I've made with the SUN LIFE OF CANADA will clear the mortgage in the event of my untimely death.

I never thought of that. What about the cost?

Insignificant! In fact, it adds very little to the carrying charge of the mortgage.

If you are a home-owner, make your investment safe for posterity. A SUN LIFE man will be glad to talk it over with you.

Metal Found Useful In Detecting Bone Cancers

WASHINGTON — (AP) — A navy doctor says Gallium, a metal used in making high temperature thermometers, offers possibilities of detecting certain bone cancers before they become apparent in X-ray studies.
Cmdr. H. C. Dudley told naval medical center scientists the metal offers promise of hastening the diagnosis of a cancer developing in the bone after spreading from another part of the body.

When Gallium is introduced into the body, Dudley said, it has a tendency to become deposited in bone — and it has a special affinity for bone tumor tissue.

By using a radioactive, or ray-emitting, form of the metal, he added, its progress can be traced through the body with a Geiger counter; the counter picking up strongest signals in the area of a bone tumor.

Dudley told of employment of the technique in a number of human cases where bone tumors were known to be present. In all cases, he said, the gallium became "localized" at the site of the bone cancer.

In some instances it was possible to identify the early stages of bone cancers which had spread

from another part of the body before such changes could be identified by X-ray film study, Dudley said.

Doctor Defends Theory Of Tobacco Aid To Teeth

WASHINGTON — (AP) — A government doctor has corroborated a congressman's theory that tobacco chewers suffer fewer tooth cavities than those who abstain from the weed.
Dr. Bruce D. Forsyth, associate chief of the bureau of medical services, public health service, told

Rep. Hedrick (D-WVa), a dentist, he has found cases where tooth decay has been arrested from using chewing tobacco.

"We don't know whether it is the tobacco or the cleansing of the teeth by chewing," Dr. Forsyth said.

The health official observed, however, he had seen tobacco chewers whose teeth were "worn right down to the gums by the abrasives in tobacco."

Three Hurt When Train Hits Auto At Albany

ALBANY, Ore. — (AP) — Three persons were treated at a hospital here for injuries suffered Sunday when the car in which they were riding was hit by a Southern Pacific freight train at Albany crossing.

Elmer E. Keese, Jefferson, the driver, was the most seriously hurt. He had a head injury. His wife, Myrtle, and Lester L. Bord-

ers, Albany, had less severe injuries. Their car was demolished.

Evangelist Collection In Portland \$9,200

PORTLAND — (AP) — About \$9,200 was collected by evangelist Billy Graham and Cliff Barrows, his song director, in six weeks of appearances here last summer, an official of the Greater Portland Gospel crusade, revival sponsor, said.

William M. Kreiger, treasurer, said most of the money came from special contributions. Part of the amount was paid to members of Graham's staff, Kreiger said.

YOUR BEST TIRE PRESERVER SAVES YOU MONEY EVERY MILE

It's no trick for "Car Savers" to coax
Thousands of extra miles from your tires

We put your tires through their paces for more miles than you'd expect. Our service is based on these facts: (1) Tires don't wear evenly. Rear wheels work harder than front wheels; right harder than left. We recommend switching at regular intervals. (2) Tire safety often depends on detecting cuts and bruises, tacks and glass before they cause failure. We watch out for them. (3) Proper air pressure prolongs tire life. Just a few pounds under-inflation can cut mileage up to 50%. Let us check weekly. (4) And, if punctures do occur, we fix 'em fast—and right. Stop in for "Car Saver" care today.
