The Record That Means the Most to You!

Nash Rambler

SETS ALL-TIME RECORD

31.05 MILES PER GALLON

IN 1951 MOBILGAS ECONOMY RUN!

Here is proof positive that the Nash Rambler is the most economical full-size car on the road... official proof that you can expect to go farther on every gallon of gas in a Rambler Airflyte.

For in America's blue-ribbon stock car event—the 1951 Mobilgas Economy Run from Los Angeles to the Grand Canyon—the Rambler smashed all previous records for the Run... covered the 840.05 miles on just 27.05 gallons... averaging 31.05 miles a gallon! That's the thrifty performance you've been looking for.

In setting this all-time record, the Rambler carried 4 passengers with driver and averaged over 41 miles an hour. The course covered all types of terrain—deserts, mountains, city and highway driving... with snow, rain and head winds. Yet never before had any car in this economy run gone so far on so little gasoline!

Every Nash Airflyte entrant—Statesman, Ambassador and Rambler—was a trophy winner in its class... smashing evidence that Nash is your best bet for the years ahead!
