

Lincoln's Ouster Of General McClellan Recalled

There has been no precise parallel in American history to the Truman-McArthur controversy. Lincoln's most famous feud with a general was with Maj. Gen. George B. McClellan, known to an admiring public as "Little Mac." It was strictly a case of military failure. As commander of the army of the Potomac, McClellan was thrown back in the terrible "seven days" after he had reached within a few miles of Richmond, the southern capital.

McClellan was disappointed at the number of troops allotted him for this campaign, and took no pains to conceal his feelings in letters to the secretary of war and the President himself. Nevertheless he later was placed in command of a force moving against Robert E. Lee, who was invading Maryland near Hagerstown.

By good luck he came into possession of Lee's plan of campaign, overtook Lee with an overwhelming force at Antietam creek, near Sharpsburg, Md.—and then dropped the ball.

Lee retreated safely across the Potomac. Lincoln removed McClellan as commander of the army of the Potomac and replaced him with Maj. Gen. A. E. Burnside. McClellan was never given another command.

Switzerland was founded in a meeting of the representatives of three cantons on a meadow called Rütli in 1307.
