

### Internal Security Board Runs Afoul Of Senate Barrier

WASHINGTON — (AP) — President Truman's plan to have a committee of prominent citizens study how best to safeguard the nation's internal security has run smack into a senate committee's roadblock.

Fleet Admiral Chester W. Nimitz and seven of eight other persons Mr. Truman named to conduct a study last Jan. 23 have resigned because legislation they say needs has been stymied in a senate committee.

The commission members asked that they be exempted from a federal law which forbids anyone from holding a government post while doing business with the government or representing clients before federal agencies.

The House voted such an exemption for members of the Nimitz commission, but on April 30 the senate judiciary committee voted against it, 6 to 3.

The judiciary committee is headed by Senator McCarran (D-Nev.), who has frequently criticized the Truman administration, contending among other things it has

Crawford Sams, of Atherton, Calif., has been awarded the Distinguished Service Cross for a daring exploit deep in enemy territory that produced information vital to the health of UN forces in Korea and spiked a Communist propaganda claim that Americans are conducting bacteriological warfare. not been sufficiently diligent in moving against subversives. Mr. Truman, who announced the resignations of Nimitz and the other commission members Saturday, said he had declined to accept them pending possible further action on the exemption measure. He wrote a letter to McCarran urging the committee to reverse its action.

The White House made public a letter from Nimitz, dated May 8, in which he noted that Congress had voted exemptions for all the members of the so-called Hoover commission, which under the chairmanship of the former President studied how to reorganize the federal government several years ago.

The laws in question could affect Nimitz, who has life-time government pay as a five-star admiral and other commission members.

Other pro-Nationalist reports in the past said the Russians also built a submarine base at Tsingtao, in the North China province of Shantung.

### Homemaking No. 1 Objective Of Federated Women

HOUSTON, Tex. — (AP) — Homemaking responsibilities still have No. 1 priority among the modern women of today.

Among the 20 resolutions to be presented to the 60th annual convention of the General Federation of Women's clubs is one to assure the protection of families during mobilization.

The majority of the 750,000 women in the 14,500 clubs that are members of the national federation are housewives and mothers.

The resolutions already have been distributed to the various clubs in the 48 states, the District of Columbia and Alaska. They will be presented to the convention Wednesday.

On protecting the family, the resolution declares that the "present and future strength of the United States is dependent upon the proper training of our youth and upon the protection of mothers and youth in the home."

It asks that recruiting for industry be directed primarily to women with few homemaking responsibilities.

### Judge Defers To Cupid In Stowaway's Romance

PHILADELPHIA — (AP) — Because a federal judge does not wish to spoil romance, 20-year-old stowaway Antonio Maria De Pinha is free to get married and go on a honeymoon.

De Pinha pleaded guilty to entering the country as a stowaway from Portugal last October. But he asked U. S. district Judge James P. McGranery not to jail him until after his scheduled wedding June 2. He said invitations had been mailed and that his bride — not named — awaits him in Nautucket, Conn.

remarking that he'd not like to make a young couple unhappy, the judge granted De Pinha a month's liberty and told him to return to court June 15.

### Taft Willing If GOP Majority Gives Nod

DAYTON, O. — (AP) — Sen. Robert A. Taft (R-Ohio) said here he wouldn't refuse the presidential nomination if a majority of the Republicans want him.
