

Marines Called Involuntarily To Be Discharged

WASHINGTON — (AP) — Marine reserves who were called back to active duty involuntarily will start shedding their uniforms next month.

Sanipractor Is Ordered To Repay Cancer Fee

SEATTLE — (AP) — A Seattle sanipractor has been ordered by a King county superior court jury to repay \$2,175 given him by Mrs. Anna Gillett, Albany, Ore., for a so-called cancer cure.

The jury handed down its decision yesterday in the suit brought by Mrs. Gillett against John Lydon, Seattle. She paid the money in February, 1949, for "cancer" treatments which her attorney's said aggravated her condition and made necessary a major operation.

Mrs. Gillett is an elderly Albany widow.

Assault On 4-Year Girl Charged To Florida Man

MIAMI, Fla. — (AP) — State's attorney Glenn C. Mincer said today he would move for speedy trial of Noah B. Whidden, 38-year-old truck driver, held without bond on a charge of raping a four-year-old girl.

Peace Justice Edwin Mason ordered Whidden bound over to circuit court without bond.

Mason ordered Miss Peggy Brotherson, 24-year-old baby-sitter held in \$1,000 bond as a witness. Whidden did not testify at the hearing.

Miss Brotherson said she was a baby sitter for the victim and accepted an invitation from Whidden to go for a ride, taking the baby along. She testified Whidden began to make advances to her, then decided he "wanted the baby instead."

The alleged rape occurred Saturday night.

Marine corps headquarters, announcing this, listed three groups as having first and equal priority for discharge:

Those recalled to active duty before Aug. 1, 1950 (July 31 for officers); veterans of World War Two; and those who pass their 26th birthday by July 1, 1951.

Also all second lieutenants who've been on active duty for at least 21 months are eligible for release.

In other military personnel developments:

1. Gen. J. Lawton Collins, army chief of staff, told senators he has recommended that more national guard troops be called into federal service this year.

Air Force Rotation
Collins did not say how many. He was testifying at the inquiry into the firing of Gen. Douglas MacArthur.

So far six national guard divisions, two regimental combat teams and numerous smaller guard units have been called up.

2. The air force said it will send replacements to Korea during the next five weeks to permit rotation of a "maximum number of (air) crews without loss of combat efficiency."

That news was contained in a letter an air force general wrote to Rep. Doyle (D-Calif). Doyle made it public.

The letter said crews of the 452nd bombardment group, which went to the Far East last October, should begin rotation some time next month.

The rotation policy, the letter said, is "dependent directly upon the future military situation."

The marine corps and army already are rotating their fighting troops.

"TURBOCAR" IN YOUR FUTURE—This is what your "turbocar" of the future will look like, according to British jet expert G. Geoffrey Smith. The design promises greater visibility and more body space, thanks to the gas turbine power unit located over the rear axle.

Shrewish Wife Finally Gets Court Directive

FELTHAM, Eng. — (AP) — Mrs. Mary Saxby said she had so much to say to her husband that she thought it best to go along with him on his daily round of milk deliveries.

When his boss complained, Mrs. Saxby said, she had a few things to tell him too. She went to see the boss, but said she got only a smack in the face in reply.

The boss told a court here however, that Mrs. Saxby not only told him off but hit him on the head and punched him in the jaw.

The husband testified he heard the fracas from outside the boss' office but thought it advisable not to butt in.

"I am very high minded," Saxby told the court. "I wanted to interfere, but my wife told me to stand away."

The court dismissed Mrs. Saxby's complaint and told her to stay off the milk wagon.

Overseas Letters Asked By Governor McKay

SALEM — (AP) — Governor Douglas McKay urges Oregonians to observe "letters from America week" by writing letters to friends and relatives in foreign countries. "One of the most effective ways of implementing the President's 'campaign of truth' and combating Communist propaganda is the 200,000,000 letters that our 35,000,000 citizens of foreign birth or parentage send each year to friends and relatives abroad," the governor wrote.

Governor McKay suggested that these letters be written at least once a week, that they describe the American way of life through simple examples, and that they stress American good will.
