Polio Incidence Boost Bans Future Estimates

NEW YORK — (AP) — An increased polio rate has "wiped out" the gauges with which to "predict the intensity of attacks to come," the National Foundation for Infantile Paralysis says.

In its annual report for 1950, the foundation says it is no longer possible to speak of a normal average of 10,000 to 12,000 cases a year.

The group adds that a "new concept of normalcy" has been created by more than 103,000 new victims in the last three years. It says that there no longer is a basis for comparing one epidemic against another.

The report, which was released yesterday, listed 33,351 new cases during 1950. This figure is second only to the record high of 1949, when 42,366 were stricken.

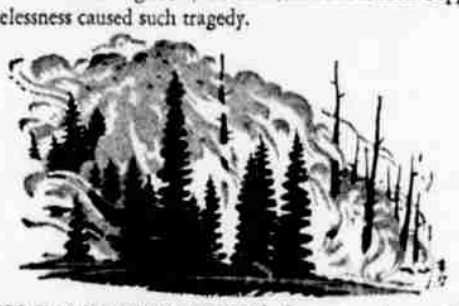
HOW TO SAVE 1,000 HOMES!

DROWN YOUR CAMPFIRE! Be sure it's completely out, because *one* forest fire started by *your* campfire may easily destroy enough saw timber to build a thousand homes! Last year, fires actually burned enough U. S. timber to build 86,000 five-room houses.

BREAK YOUR MATCH! In 1950 forest fires started by *people* turned to useless ashes enough pulpwood to provide a year's supply of paper to every newspaper in the United States... they covered an area larger than the state of Pennsylvania.

CRUSH YOUR CIGARETTE! When the forest burns, *you* lose and *everyone* loses. Not only is invaluable timber destroyed, but camping and recreation areas are gone. And after the fire come drought, floods, loss of hydroelectric power, loss of jobs.

BURN BRUSH CAREFULLY! Check with your local ranger, fire or forest warden *before* burning brush or rubbish. Careless burning started one fire that ravaged 50,000 acres, killed four men. Suppose *your* carelessness caused such tragedy.



LET'S STOP THIS SHAMEFUL WASTE! Such wanton destruction of our natural resources, such shameful weakening of our national security CAN BE PREVENTED! Most fires are started by *people like you*... people who mean well but are careless *just once*. Will *you* be the next one who starts a fire? This will be an extremely critical year. Give us your promise that *you* will be careful!

SMOKEY SAYS—*Remember*—**Only you can**
