TICKLISH JOB—A technician at Brookhaven National Laboratory, Upton, N. Y., stands behind a wall as he removes the plug from a one-and-a-half-ton lead shield containing a thousand-curie source of gamma radiation. Made of cobalt-60 and tantalum-182, the radioactive material is being made available to aid in studies of application of radiation processes to industry. Each of the lead shields can release as much gamma radiation as 2.2 pounds of radium (an amount equal to the total world supply prior to World War II).

**Choice Of Queen Dated For Myrtle Creek Rodeo**

A king and queen of the fourth annual Myrtle Creek Labor day rodeo will be chosen Sunday at the Myrtle Creek rodeo grounds. Any young man or woman between the ages of 14 and 21 may be a contestant for the honor.

A prince and princess will also be chosen. A preliminary rodeo is slated on the day of the selection, this Sunday.

The Labor day rodeo, to be held Sept. 2 and 3, is sponsored by the Myrtle Creek Saddle Fals. Special events are scheduled as well as rodeo contests.

Contestants for rodeo king and queen must be unmarried and must not have been selected for the honor previously.
