

**Airport Administration Building Plan Ordered**

The council previously ruled that the property either be brought into the city or the sewers should be disconnected. The proposal of Rev. Klein was referred to the planning commission for study.

**New Pump Ordered**  
The council authorized the city manager to purchase a new six-inch Fairbanks-Morse pump to replace the present four-inch pump at the sewage disposal plant. The cost would be \$1161 for the pump and \$498 for a motor. The budget provides up to \$2000 for this purpose.

Motorists will be permitted to make right hand turns after stopping at red lights in Roseburg in accordance with the state law, the council decided. However, this will be on a 90-day trial basis. The council also authorized the purchase of a portable traffic signal.

In response to the planning commission's recommendation that a more manual traffic policing be maintained at busy intersections, it was reported that action has already been taken by the police department in an effort to comply.

Considerable discussion was held relative to an addition to the Trued apartments at 315 Chadwick, which comes within four feet of the rear property line. Objections had been raised by Martin A. Paul, owner of adjoining property. The rear property line runs at an angle. The council tabled the issue.

The council authorized a lease agreement with Howard Cooper Corp. for the new city fire truck. The lease is for five years, with the agreement that the lease payments be applied toward the purchase price of an approximate \$23,000.

Issuing of a master warrant not to exceed \$100,000 for city operating expenses until tax money starts coming in in November was authorized.

**Citizenship Restoration To Americans Voted**

WASHINGTON — (AP) — The Senate has passed a bill to give back citizenship to Americans who forfeited it by voting in Italian elections of 1946 and 1948.

**McCarthy's Ouster From Senate Demanded**

(Continued from Page 1)

Maryland to make campaign speeches in Butler's behalf.

The subcommittee denounced portions of a tabloid publication circulated by Butler's supporters and containing a composite photograph which seemed to show Tydings in conversation with Earl Browder, former Communist leader.

**McCarthy Volleys Back**  
Benton's resolution quoted portions of the report which contended that McCarthy's staff had helped to prepare the tabloid with McCarthy's knowledge. The publication, it said, included "misleading half truths, misrepresentations and false innuendos that without foundation attack the loyalty and patriotism" of Tydings.

In his statement replying to Benton's resolution, McCarthy predicted "Benton will learn that the people of Connecticut do not like Communists and crooks in government any more than the people of Maryland and like them."

McCarthy said, "Benton has established himself as the hero of every Communist and crook in and out of the government." He did not deal specifically with Benton's suggestion that he should resign, and declined to elaborate on the prepared text of his statement.

**BUT . . . Is It Fair?**

The business man who doesn't advertise reminds us a bit of the batter who gets a walk. He arrives at first base safely enough, but from then on he is dependent on the hitting of others.

Often he "dies on base," but if he is helped along and finally scores, the cheers are not for him but for the hitters. In the summary his accomplishment rates as "no times at bat" and "no hit." Someone else even gets credit for a "run batted in."

A team can get by with a player or two who "usually walks," if it has enough hitters. It's the same way with a town, and its advertisers.
