Roseburg Telephone Rates Would Increase Under New Application Of Company

Pacific Telephone has filed with Oregon Public Utilities Commissioner George H. Flagg an application for increased rates totaling \$5,188,000 annually, which, after estimated federal income taxes, would net the company approximately \$2,500,000.

Cub's, Camp Fire Girls' Plans Will Be Talked Aug. 14

"When may we be Cub's?" or "When will Bluebirds and Camp Fire Girls meet again?" are questions that may be soon answered for youngsters of Fullerton school district.

Camp Fire and Scout officials will discuss the activities of their respective groups in the music room of the new Fullerton school Tuesday, August 14, in an effort to organize groups in Fullerton district.

A preliminary meeting held a short time ago laid the groundwork for the meeting Tuesday. Leaders from Scout and Camp Fire headquarters were on hand.

Parents of boys from eight to 11 years of age and of girls who are seven or older are urged to attend the meeting.

According to Mrs. Ralph Arensmeier, president of Fullerton Parent-Teachers association, "the co-operation of parents now will mean that the boys and girls will be ready to join in the fall as the program goes into full swing throughout Roseburg."

"This repricing request," said F. A. Dresslar, vice president and general manager, "is necessary to meet sharply mounting costs, including the ten percent wage increase recently negotiated with the union."

The company also announced dismissal of its Circuit court suit against Commissioner Flagg's order of last December denying a rate application made in April, 1950.

"The court case is outdated—sweeping changes in the business and economic conditions affecting our operations having taken place in the 15 months since the 1950 rate application was filed," Dresslar said. "The re application—the only one the company now has before the commissioner—brings up to date the company's urgent need for added revenues."

Roseburg Rates Affected

Proposed increases apply to both toll and exchange rates and the public and semi-public coin box rate is revised from 5c to 10c.

The present and proposed rates, excluding the federal excise tax, for Roseburg for the company's principal types of service are as follows:

Paying Back Income Taxes Not Enough If Fraudulent

PORTLAND (AP)—From now on, just paying up back income taxes isn't going to be enough Allen Bennett said here.

Bennett, director of a special tax fraud drive in the northwest, said that if there were any evidence of criminal fraud in connection with failure to pay enough taxes, the government would prosecute.

Persons in the Portland area are under investigation, he said, but he would not disclose how many.

Bennett said he had 100 men under his direction in the west, but he declined to say how many are in the Portland area. The number is "adequate," he said.

ASSOCIATED PLYWOOD MILLS, INC.
GENERAL OFFICES: Eugene, Oregon
Plywood mills at Eugene and Willamina; lumber mill at Roseburg; logging camp on Little River

Approximately 150 million square feet of APMI plywood leave Associated Mills in the course of a year. This miracle wood is used on various construction projects in the United States and throughout the world. But just exactly where, and under what conditions, we cannot be sure. What we do know, however, is that a very fine group of workmen (nearly 1000) produce APMI plywood in modern mills, from excellent Douglas fir. We know that each panel is identified by a grademark and by the APMI trademark. This is, in effect, a double-guarantee of value. And we know, finally, that every APMI worker, in our logging camp, our lumber and plywood mills, our offices and our warehouses is justly proud of the part he plays in making the APMI trademark the standard of quality wherever plywood is used.
