**Corrected Error Again  
Makes Birmingham Wet**

BIRMINGHAM, Ala. —(AP)—The blushing city commission, which accidentally voted Birmingham dry last week, have made the town legally wet again.  
The commission had intended to outlaw only drinking of bay rum, paint remover, and other "kid row" substitutes for alcoholic beverages. City attorneys discovered, several hours too late, that the resolution covered too much territory.  
A carefully drawn law which rectified the error was then passed.

# Careless Smokers can cause this difference

You can join in the fight to prevent forest fires by getting the breaking habit . . . snapping a match in two before you throw it away.

Then you know it can't possibly start a fire which may destroy thousands of trees and contribute to our annual \$40,000,000 forest fire toll. This is important whether trees are large or small, for young seedlings are our forests of the future.

Keeping Oregon green is a task for all, for forests contribute greatly to our comfort and security!
