Republicans To Battle Truman On Stabilization

(Continued from Page 1)
tor Lyndon Johnson of Texas, his assistant, both voted for the Butler amendment. McFarland is running again next year, but Johnson is not.
Coalition In Evidence
Southern Democrats gave support to all of the three proposals the President attacked, although the Capehart amendment, inserted by a senate-house compromise committee, did not come to a direct vote.
Thus the President would have to include some Democrats — his leaders among them — if he carries the fight into the campaign. If the three amendments stand, Mr. Truman said "they will do the greatest damage to our price controls and create the most hardship for our people."
"Action should be taken now to change the new law to prevent needless price increases and the Congress should not wait until irreparable damage has been done to our economy. It should act promptly to take out of the act the new amendments that unnecessarily raise price ceilings."
The President said he had signed the new economic control bill July 31 because "the dangers in the international situation made it unsafe to permit any interruption in our mobilization program."
As usual, the President gave no indication at Thursday's White House news conference of his political plans.
When a reporter said a States Rights leader had predicted Mr. Truman couldn't be re-elected in 1952, the President said everybody has a right to his guess.
They made a lot of guesses in 1948, he said with a grin.

SMOKERS CALLED

Firemen were called to the Star theater, 302 North Jackson St., to quell a fire in a rest room started by a cigarette left in a trash container, reports Fire Chief William E. Mills. Damage was estimated at \$25.
Earlier Friday, a grass fire was put out at Caskey corner on highway 99 north. Chief Mills said the blaze was apparently started by a careless smoker.

trolled through Oregon woods. But in Washington, the situation was better.
The North Santiam highway was closed to the public at least for today and tonight as flames from the Sardine creek fire, 50 miles east of Salem, raged alongside it. Only emergency and supply vehicles were allowed through the area.
Foresters reported a worsening situation as the fire ate through an additional 200 acres to bring the blackened area to 2700. Today's humidity was expected to fall to about 28 percent, compared with yesterday's low of 34.
The Vincent creek fire, inland from the south central Oregon coast, defied control efforts of 1000 men, and had burned some 21,000 acres. A new flareup on the northeast corner cut off a supply and access road, but no one was endangered.
The worst danger spots were on the west side of the mountain. Only emergency and supply vehicles were allowed through the area.

Ridgway's headquarters ridiculed the whole line of Communist protests that U. N. forces violated the neutrality zone. It said:
"The charges leveled one after another in wholesale and hasty profusion are totally uncorroborated by the flimsy 'evidence' presented."
The Kaesong bombing charge, it continued, was "the most clumsy and ridiculous farce the Communists yet have staged in their effort to distort the facts."
"The evidence, hastily planted from old scrap metal, did not substantiate the fact that a plane had flown over and even dropped one bomb."
"These clownish antics constitute the Communist drive for world sympathy. It has backfired to the extent of making the bunglers not only look ridiculous but appear as incompetent liars in the eyes of the world."
There was no sign from either Tokyo or Munsan that truce meetings might be resumed soon.
The United Nations armistice delegation, headed by Vice Adm. C. Turner Joy, held a staff meeting at their advance Munsan base. But the public information office said merely, "there is nothing new."
U. S. 8TH ARMY HEADQUARTERS, Korea — (AP) — Allied jets caught long lines of Communist trucks trying to ferry supplies across a river in northwest Korea today and blasted them off the river bank.
On the ground, Red infantrymen counterattacked in driving rain and shoved South Korean troops off two eastern Korean hills Wednesday night.
Twenty-four F-80 Shooting Star jets sweeping north of the Red capital of Pyongyang, reported spotting long lines of supplies and vehicles lined up on both sides of the Chonchon river.
The jets dive-bombed and strafed. Pilots reported they left large stacks of supplies in flames and destroyed at least 20 vehicles.

Recent guests of Mr. and Mrs. Mike Mullins were their son and his wife, Mr. and Mrs. Thomas Mullins of Coquille; Mr. and Mrs. Don Noah of Coquille, and Keith Perry of Coquille, who was accompanied by his cousin H. A. Perry. Perry is on furlough from Korea where he has served with the army since June 10, 1950.
Claude Edward Jones, three-year-old son of Mr. and Mrs. Floyd J. Stevens, was much attracted by a birthday cake his mother had baked for his sister's birthday. When the kitchen was empty, Claude made up his mind he was going to have the cake and climbed on a chair to reach it. He fell off the chair and his right leg was broken above the knee. He was rushed to Douglas Community hospital where the leg was put in a cast, which will have to remain on for 6 weeks. Claude is back home now and is getting along nicely.
Mr. and Mrs. Guy Metcalf, proprietors of the Royal Coachman, have left on a ten-day vacation. They will first visit their daughter, Mrs. John Marsh, at Bend and then drive on to eastern Oregon to visit friends.
Mr. and Mrs. E. H. Malisch of Long Beach, Calif., have been visiting the past week with their daughter and son-in-law, Mr. and Mrs. Leo Dell. The Dells own and operate the Shell service station and are completing an addition to their nearby home, which is to be an ice-cream parlor. There will be a special machine for the manufacture of soft ice cream installed.
Hal Boyd, one of the janitors at Glide schools, has entered the Douglas Community hospital for treatment.

Three Other Air Tragedies Mark One Day's Record

ATLANTA — (AP) — A navy Catalina flying boat carried eight men to a flaming death Thursday night in a crash down a 60-foot cliff at the end of a runway.
The dead, four officers and four enlisted men, were reservists on two weeks active duty at the naval air station here.
The control tower operator, Seaman M. R. McMahon, said the pilot of the twin-engine patrol bomber apparently retracted his landing gear in an effort to get the craft into the air at the end of the 4,000-foot runway.
ANCHORAGE, Alaska — (AP) — A jet fighter plane crashed near the new international airport Thursday, killing the pilot.
The crash, latest in a series of aerial mishaps in Alaska, occurred some 13 hours after a C-47 crashed at Summit, halfway between here and Fairbanks on the Alaska railroad. Nine men died in that disaster.
SAN ANTONIO, Tex. — (AP) — Eight Randolph air force base men escaped from a burning B-29 Superfort Thursday. They parachuted to safety before the big plane crashed in its approach for a landing.
Emil Heye, a witness, said the big plane, trailing fire from the right wing, slipped into a spiral and crashed with a terrific explosion and burned.

Building Group Chosen By Canyonville Mayor

At the Monday night council meeting in Canyonville Mayor Nina W. Pietzold appointed a building inspection committee as follows: George Binder, Charles "Chuck" Allen, Clint Atherton, John Martin and Charles Rimmel. They will draw up new building permits which will be governed by the new ordinance relating to the installation of modern and approved plumbing connected to a septic tank of the standard type and construction with a sufficient tile disposal field, until such time as the city shall have a sewage disposal.
Ordinance 201 was passed determining the conditions and terms under which territory can be annexed to the city.
Under the fund set aside for special city allotments, the council will ask to have First street paved from the new highway to Canyon street, Canyon street to Second street, and Second street to Main.
The votes from Monday's election were canvassed and approved with the results.
