### Dewey Answers Red Thrust With Sharp Satire

ALBANY, N. Y. — (AP) — "Fellow peasants," Gov. Thomas E. Dewey said in a telegram to an Oregon club. "I salute you and congratulate you. The Soviet propaganda machine has admitted you to the exclusive club of the down-trodden masses of America."

The picture showed members of the Covenants club of Grants Pass, Ore., dressed in animal skins and waving jawbones. They were welcoming Dewey "a shore." The club gives the same treatment to all visiting dignitaries to publicize Oregon caves.

This week the club was told that a copy of the picture in Leningrad carried a caption describing the group as peasants organized to protest "the cruel and vicious Wall Street-backed church."

"Pictured with them," the caption said, "is T. E. Dewey, a known anti-religious leader and a candidate for President of the United States."

Dewey's tongue-in-cheek telegram to the club said he was sure the members "will be delighted to learn that they are now portrayed throughout Russia as the starving victims of American imperialism. You can now put your show on the road. I am sorry you can't take it to Moscow, where no meat, either raw or cooked, is available."

Dewey is an honorary member of the club. He also is an Episcopal church vestryman.

# Mutual Dial Log

Everyday happenings in the news are a fascinating story in themselves. To bring listeners the most original and accurate news picture possible, KRNR and Mutual present "MUTUAL NEWS-REEL" Monday, Wednesday and Friday, 8:45-9:00 p.m. "MUTUAL NEWS-REEL" is a swift, moving panorama of each day's big and little news events. The striking difference between this and an ordinary news report is the fact that the people who make the news are actually heard. The news is presented from where it happens — as it happens. The mammoth task of gathering and editing this constant flow of news has been entrusted to an extra-large staff of radio correspondents. Nucleus of this staff is every station of the Mutual network — almost 500 in number. From these Mutual affiliates come the colorful and humorous bits of Americana which gives the program its well-balanced content. Important international news is handled by Mutual's corps of over-seas reporters at 53 vantage points throughout the world. This news is transmitted by shortwave to Mutual's New York newsroom. Here, along with news material gathered from Mutual-affiliated stations, by special lines, it is edited and incorporated into a fifteen-minute program. Dispatches from press wires are used to alert stations and correspondents on news "breaks" in their areas.

### New Fires Attack California Woods

By The Associated Press  
Wearry fire fighters today tightened their hold on the last of California's major forest fires — but at least two new ones were reported racing through rugged timber country.

U. S. forest service officials said they expected to gain complete control of the stubborn blaze that has flamed across more than 13,000 acres of brush and timber land near Banning in southern California.

Other crews began mopping up the remaining hot spots of the Boardman ridge fire in northern California's Mendocino national forest. It was controlled after blackening some 8,700 acres of forest.

The new fires are on the Six Rivers national forest in the state's extreme northwest corner.

Helicopters and other forest service planes ferried fire fighters to the Gasquet area 13 miles northeast of Klamath where two fires had flamed through 700 acres by Wednesday night in high-inaccessible country.

**Wage Increase Granted Unions Pared By Board**

WASHINGTON — (AP) — Part of a wage increase won by maritime workers on the east, west and gulf coasts was killed Wednesday by the Wage Stabilization board.

The board's public and industry members voted to allow a 6.2 percent general pay boost for the nearly 90,000 workers represented by four unions.

Labor members protested the decision. They wanted the entire eight percent boost negotiated by the unions.

The board, however, approved a reduction in the seamen's work week from 48 to 40 hours before overtime is paid. Industry members dissented.

Seamen actually work every day while at sea, devoting seven eight-hour days to their jobs. Some years ago they won agreement to get a premium overtime rate for the seventh day's work each week. The overtime rate for the sixth day also.

The three unions involved are the National Maritime union, Marine Engineers association, and American Radio association, all three CIO, and the Pacific Coast Firemen's association, independent.

Public and industry members said that 6.2 percent was all that was allowable under board regulations for a wage increase.
