### BOARD HEAD NAMED

WASHINGTON — (AP) — President Truman has nominated Jack O. Gorrie, former newspaperman in the state of Washington, to be chairman of the National Security Resources board.

## Vast Air Power Expansion Slated, Sen. Lodge States

WASHINGTON — (AP) — Senator Lodge (R-Mass) told the Senate that top military leaders of this nation have formally agreed upon a vast expansion of air power during the next three years.

Lodge said the joint chiefs of staff "after prolonged and laborious discussion" have ordered a program "for expansion of the air force from 95 to 140 groups."

"The exact figure is a secret, but I believe this to be the general ratio," Lodge, a World War II officer and long-time advocate of increased air power, told the Senate.

Much of the expansion will go to "tactical airpower" in support of the ground forces, Lodge said, adding that would remedy "one of our gravest weaknesses."

"I understand this great increment of American strength will be completed in 1954," Lodge said. He said this means that of a recent congressional supplemental defense money bill of \$5,000,000,000 about two-thirds would be allocated to airforce expansion "and much of the rest of it will be completed in 1954."

Lodge said the joint chiefs, heads of the army, navy and air force, also "approved the activation of three more divisions for the U. S. army and one more marine division — all of which I have long believed were badly needed."

A TALE . . . OF A TAIL: KHLI-Don Lee mail room attendants

Don Lee mail room attendants were sniffing the air this week. . . something was in the wind. . . and it wasn't French perfume. Strange and pungent orders were wafting their way from the direction of a mail slot allocated to Bill Gwynn, emcee of Don Lee's "What's The Name of That Song?" Suspicion was running high as to what could be doing such a fine job of defiling the ozone. Estimations ran the gamut of everything from an aged ham sandwich to old tennis shoes.

Finally a desperate phone call brought Bill into town on the run. Gingly he approached the cubicle. . . armed with his keen sense of smell. . . Bill traced the unfriendly odor down to one specific envelope. There was tension in the mail room as he deftly employed a letter opener to unseal the odoriferous missive.

And what to his wondering eyes did appear. . . 'twas a small piece of fur. . . the tail of a deer! It seems that an old deer hunting chum of Bill's had sent him the flag of the first buck he bagged this year. (Now wasn't that nice of him?)

"SIR WALTER RALEIGH": Did you know that Sir Walter Raleigh did not discover tobacco. . . never set foot in America. . . spent his honeymoon locked in the tower of London. . . and didn't really name the Virginia colony after his queen? Thursday, today and tomorrow, Mutual - Don Lee's top story teller, Marvin Miller, will bring to the air two fascinating vignettes on the life of Sir Walter Raleigh. From the pages of the past, Mr. Miller recreates dramatic incidents in the life of the famous English nobleman. "Behind the Story" is heard Monday thru Friday from 4:30 to 4:45 p.m.

Tonight's guest to be interviewed on "Reporters' Roundup" will be Senator Karl E. Mundt (R) of South Dakota. Sen. Mundt has been a member of several committees currently probing national conditions. He is also an advocate of the coalition of right-wing Republicans and Dixiecrats for the national elections next year. If you're interested in the current probes being carried on, this should be an interesting session. Tonight, Thursday, 8:30-9:00 o'clock.
