# No Better Time to Order One!

Standard equipment, accessories and trim illustrated are subject to change without notice.

There are many motorists in our community who have reached that position in life where they feel themselves entitled to a Cadillac—and yet, for one particular reason, have postponed placing their order.

They have heard, and quite rightly so, that there is some delay in delivery of new Cadillacs. And so, they have decided not to visit us until the car can be had more readily.

To them we say—there is no better time to order a Cadillac than right now. For each day you delay is costing you its price in motoring pleasure and satisfaction!

When you stop in at our showroom, we will talk to you frankly about what you may expect as to date of delivery. And we think you may be delighted to discover that the waiting period is not so long as might be expected—for so fine a car in such great demand.

And we think you will find, too, that once we have your order, it's a wonderful, satisfying feeling to know each passing day brings your Cadillac closer at hand.

But only when that day does arrive, and you take to the highway, will you know how well worth waiting for a Cadillac is.

For only when you experience its magnificent performance for yourself—so stimulating to the spirit and so restful to the body that you actually look forward to those moments behind the wheel—will you realize how completely Cadillac stands alone.

Of course, if you have already placed your order for a Cadillac—then stand firm in your purpose!

Dealers who sell other cars are undoubtedly beseeching you to switch your preference—for the sake of immediate delivery.

But just remember: immediate delivery means not in demand. You are waiting for a Cadillac because so many wonderful people, like yourself, want no other car. And they know that their waiting will pay its rewards.

So stand firm. And be patient—for each day brings you closer to your heart's desire.
