

### India's Position Will Be Discussed

India's role between the East and West will be discussed Thursday night by Professor Victor Pavamanal of Calicut, India, in the Methodist church.

He will address Rotarians and their wives. This is one in a series of four speeches to be presented by the learned Indian, who is studying for his doctor's degree at the University of Washington.

On Wednesday, he will address about 200 members of the Hi-Y and Tri-Hi-Y members at an induction service in the Baptist church at 7:30 p.m.

Thursday morning at 9, he will speak at the Senior high school, and at 2 p.m. he will address the

Junior high school student body, a college and has for many years been a member of the board of the Calicut YMCA.

One of the outstanding leaders of the Union church of India, his family has long been identified with the Christian forces of the world.

Upon his return, he will be president designate of the college in Calicut.

His appearance is being sponsored jointly by the Roseburg YMCA and Rotary club.

New York's first elevated train was powered by cables attached to steam winches at one end of the line.

### Flag Evolution Planned By Senior High Bands

The senior and prep bands of Roseburg Senior high school will combine in the half-time band show during the Reedsport-Roseburg football game Friday night. They will be directed by Ed Stiles and Clyde Moore.

After playing the march, "Salutation," as a combined band, an "evolution" of the American flag will take place.

As the prep band pulls out of the massed band lineup, the senior band will evolve into the outline of a huge flag. The prep band will then add a coloring touch of completion to the already formed outline by the senior band. Again the combined bands will be heard.

The usual letter salutes to the two schools will conclude the half-time maneuvers. This will be the final football game and band appearance on Finlay field this season.

The hand tree, a native of Mexico, takes its name from the form of its flowers which somewhat resemble the fingers of the human hand.
