U.S. Plane Losses Reported By Navy

WASHINGTON — (AP) — The navy reported today one of its patrol planes was fired on by a wooden vessel about 50 miles east of the South China port of Swatow.

Brief reports received here said the American plane was not hit by some 50 rounds of machine gun fire at a range of about 2,000 yards.

Swatow is near the southern end of the Formosa strait, which has been patrolled by the navy since the start of hostilities in Korea.

The report described the otherwise unidentified surface craft as a wooden lugger.

The navy also reported one of its attack planes slightly damaged when two Red MIG-15 fighters jumped a navy flight on the northeast coast of Korea.

A spokesman said this was the first time enemy planes had appeared in this sector.

Three navy planes were reported lost Tuesday, one to enemy ground fire and two as a result of operational accidents.

would mean a de facto cease-fire. They said they wanted to keep military pressure on the Communists until they agree to all terms necessary for an armistice.

The agreement on a provisional cease-fire line specifically provided fighting would continue until an armistice is signed.

Air Battles Continue

In flaming jet battles over North Korea three Communist MIG-15s and one U. S. Sabre jet were shot down yesterday. Three Red jets were damaged, the Fifth air force reported.

An unidentified plane made one of the infrequent Red raids on the Allied front Wednesday night, dropping eight small incendiary bombs near Yonchon. A briefing officer said no damage was done.

The navy reported no break in the coastal raids of its warships. Truce negotiations at Pannunjom, on the edge of the western front, were conducted Wednesday without the familiar roar of artillery on neighboring hills.

But inside the truce tent the Reds balked at the two points the Allies insist are necessary to guarantee that fighting doesn't break out again during an armistice:

1. A guarantee against building up troops, equipment, supplies or facilities.

2. Creation of combined Allied-Red inspection teams free to go to any part of Korea, from the Yalu river to Pusan, to make sure the restriction is obeyed.

North Korean Lt. Gen. Nam II, head of the Red truce delegation, said he "absolutely cannot agree" to the guarantee against troop build-ups.

Kohlhagen Memorial Fund Raised For Baptist Church

Persons wishing to contribute toward the Kohlhagen memorial fund for the First Baptist church may bring or send the money to the church office, according to the pastor, Rev. Raymond Schaefer.

The memorial fund was suggested by members of the family of Mrs. Nora May Kohlhagen, 76, who died Friday in Mercy hospital after a brief illness. Services were held in the First Baptist church Monday at 2 p. m., with the Rev. Mr. Schaefer in charge. Vault interment was in the Civil Bend cemetery. Roseburg Funeral home was in charge of arrangements.

The family had suggested that, rather than have so much money spent on flowers, persons so desiring contribute toward purchase of a memorial for the church. It has not been determined what the memorial will be.

Mrs. Kohlhagen, a native of this vicinity, had long been active in the Baptist church in Roseburg. She and her husband contributed the cornerstone for the new church.

Italian Flood Damage Estimated At \$200 Million

ROVIGO, Italy — (AP) — Flood waters which turned the fabulously fertile Po river delta into a ruinous lake are draining slowly sea level after taking more than 100 lives and causing damage estimated as high as \$200,000,000.

Officials said that unless more rains fall, the worst is over.

But Mario Sbrana, city engineer here, soberly observed it would take at least eight months to drain the siltly waters off the rich delta farms.

He gave no estimate as to when farmers and villagers could return to their homes. The total homeless may run as high as 200,000.

Entries Received For Turkey Show

Entries are pouring in for the Northwestern Turkey show that begins at the Douglas county fairgrounds Monday.

One-hundred-fifty entrants have been registered and many local turkeymen are expected to send in their entry blanks before the exhibition begins.

Edward Davis, president of the Northwestern Turkey Show, Inc., says the number of birds entered will exceed the number displayed at last year's show. More local growers are expected to exhibit their prize birds this year.

No out-of-state entries have been received, but they are expected soon.

In addition to the exhibition and judging of turkeys, there will be entertainment features. For three days—Tuesday, Wednesday and Thursday—a trained chicken act will present programs.

The troupe of trained birds includes a rooster that can add, subtract and extract square root. They were trained by a college professor.

At 7 p. m. Thursday, the turkey show banquet and dance will be held in the Knights of Pythias hall. Members of the K of P drum corps are selling tickets for the banquet, proceeds of which will go to the corps for the purchase of uniforms.

First Public Criticism Pleases Japanese Prince

TOKYO — (AP) — A Japanese prince was publicly criticized for the first time, and liked it. "It's really wonderful," he said.

He is Prince Mikasa, 36, brother of Emperor Hirohito. He had been quoted in an interview as saying he heard, to his horror, that Japanese soldiers used living Chinese prisoners for bayonet practice in the war with China.

The rightist newspaper Tokyo Shimbu complained editorially that Mikasa's statement was fodder for Communist propaganda. Later the paper printed a reply from the prince:

"I was very happy to read the criticism on my statement. I was happy because this was the first time I ever received such candid criticism. I have been used to flatterers. . . .

"But I welcome criticisms. It is really wonderful to me, to be criticized."
