NO TRESPASSING on the Kohagen 50 Ranch, Christensen's Bros., and Edward G. Kohagen

TESTIFIES — Appearing nervous on the stand, Bert K. Naster, a Florida businessman, scratches his head as appears before House tax investigators in Washington. He asked to be heard in private but the plea was over-ruled. Naster then testified that while on parole from a federal penitentiary he received a passport to Europe within 48 hours after discussing it with his "platonic friend," T. Lamar Caudle. Winston

By MRS. GEORGE BACHER

Ted Peterson and George Bacher, both of Winston, were members of a discussion forum conducted in the studios of KRXL on Thursday evening. The question and answer program was designed to help enlighten the general public on matters concerning the school consolidation issue. Others serving on the panel were county school superintendent, Kenneth Barneburg, and Paul Elliot, superintendent of schools. Peterson is principal of the Tenmile school. Bacher is a director of the Dillard school board.

Looking for the Winston post office? It is in a new location — just one door up from its original location. Located between the new grocery store, operated by Mr. and Mrs. Frank True, and the Winston Variety, proprietors of which are Mr. and Mrs. Roy Fisher, the new post office building completes the circuit which forms a complete "city block" in downtown Winston. Post mistress is Mrs. John Burt.

Thursday evening guests of Mr. and Mrs. Carl Borgaese were Mr. and Mrs. Clayton Jorgenson of Lookingglass. The Jorgensons are now enroute to Nebraska, having been called there by the serious illness of Mrs. Jorgenson's sister. Accompanying them was Mrs. Iva Rice of Roseburg.

Patela Laurance is reported to be improving following a week's illness due to a severe cold.

Mr. and Mrs. Carl Taylor of LaBarge, who, are moving this week into a new home near the Model market in Winston. Mrs. Taylor is a sister of Mrs. Leo Manske of this community.

Private Industry To Receive Less Metal Next Year

WASHINGTON — Production of civilian items such as automobiles and refrigerators which are made largely of critical metals will be cut sharply in 1952 because of expanding military output. This is the emphatic warning of the nation's top mobilization chiefs, Defense Mobilizer Charles E. Wilson put it this way: There will be many more guns and much less butter.

"From now on, during 1952, Wilson told the National Press club that manufacturers of civilian goods will get only about 50 percent of their usual amounts of three critical metals — steel, copper and aluminum — in the first quarter of next year.

And Manly Fleischmann, defense production administrator and a principal Wilson aide, dis-

closed at the same time that "substantial" additional cutbacks in April, May and June.

Fleischmann explained that military officials have made big boosts in their demands for strategic metals in the second 1952 quarter.

The DPA head said he did not look for much increase in unemployment on a national scale because of the civilian cutbacks but agreed there would be more jobless in some areas.

He cited Detroit and New England particularly there already have been sharp protests from members of Congress in both these sectors about growing unemployment.

Wilson declared production of new jet planes "exceeds by many, many times" the number of all kinds of planes lost in Korea. The air force has announced that aircraft losses of the United Nations forces total nearly 900; most of these were American.

The delivery figures on jets "by no means reflect the progress we have made," Wilson said. Many are undelivered because of "minor adjustments," he added.

Warden Critical Of Sentence Plan

PORTLAND — (AP) — The best way to handle criminals is to do away with the present system of term-sentencing, Warden Virgil O. Malley said here Friday.

Give the parole board authority to determine the length of time each man should spend in prison, and more criminals would be rehabilitated, the warden told the Oregon Circuit Judges' association.

Forest Official Praises Tree-Planting Convicts

FOREST GROVE — (AP) — A forest official Saturday had high praise for Oregon State convicts planting trees in the Tillamook burn.

"We can't say enough that's

good about those fellows," Edward Schroeder, Northwest district forest warden, said.

The 39-man crew, assigned from the prison, is averaging 720 trees a day per man, Schroeder reported. One crew averaged 1,100 trees per man one day, he said.

Foresters are now considering a forestry educational program for the prisoners helping to rehabilitate the burn.

Free Spending Bureaucracy Grants Pass Burglar

GRANTS PASS — (AP) — Free spending of his loot proved the

undoing of the burglar who obtained some \$200 cash in a raid on the office of the Grants Pass Lumber company Dec. 8, according to Sgt. C. R. Borgman, head of the local state police detachment.

The suspect, Milton Logan Happy, 28, Friday signed a statement admitting the burglary after an investigation showed he had spent \$120 on taxi bills and in beer parlors in the 16 hours following the burglary, Borgman said. A taxi bill amounted to \$24.

A complaint charging burglary not in a dwelling has been issued by district attorney Max McMillin and Happy is awaiting arraignment.
