**PREVIEW OF A COMING ATTRACTION** — "Betty and Bob" will be making their debut on this station come Monday, Dec. 31. This is a great day-time serial that has captured audiences for years and years on major networks, and now coming to Roseburg for the first time, sponsored by Carstens Furniture store. They will be heard Monday thru Friday at 10:45 a.m., immediately following "Second Spring." You serial-loving fans can have a solid half hour of drama. We'll have more details for you a little later.

**SUNDAY, DEC. 23, 6:00 to 7:00 p.m.**, is the date and time for this year's, fifth consecutive presentation of "The Joyful Hour." This hour-long feature is a dramatic presentation of the nativity and features such stars as Bing Crosby, Ann Blyth, Jeff Chandler, Pat O'Brien, Maureen O'Sullivan, and others.

Roddy McDowell and Ruth Hussey are set for tomorrow's "Family Theater" broadcast. Roddy will star, and Ruth assumes the hostess chores. This week's dramatization is a charming fantasy by Charles Tazewell, titled "A Lullaby for Christmas." The story concerns a mute shepherd boy, ridiculed by his elders, who follows a star to find a man, a woman and a new-born baby. His life-long prayer to talk is answered, and he sings a lullaby to the child. A charming story for

the Christmas season, Saturday, 7:00 p.m.

"Another reminder of one of the 'musts' for the past 17 years is Lionel Barrymore, who portrays Dickens' 'Scrooge.'" The 105-year-old Dickens story has become a classic Christmas tale, particularly for Americans. Mr. Barrymore's annual interpretations of the "Scrooge" part have become radio classics also. This, also, will be heard on Sunday, Dec. 23, from 1:00 to 1:30 p.m. Don't miss it.

The 9:45'ers from the first Christian church will be on the air Saturday morning with their Christmas program, consisting of music by the Junior choir, and the narration from memory of the Christmas story by Merrilee Currier. Call the youngsters in from play, to hear this program brought to you by the youngsters, for the youngsters. (You older folks can listen, too, by the way.)

Sulphur is mined from deep "domes" by a process which uses three pipes, one inside the other. Water is pumped down the outside pipe and compressed air down the inside pipe and melted sulphur is forced up the middle pipe.
