BOY HELD CAPTIVE BY BANK BANDIT-Ricky Hendricksen, 14, is embraced by his grandfor complete test and development before going into production." Heavy tanks, Collins said, have not been given as high priority as the lights and mediums. However, "limited production" is scheduled to begin early this year and initial testing of the pilot model heavy is underway at the Army's Aber-deen, Md., Ordnance Proving Ground, he said. mother, Mrs. Thomas Flowers (left) at Salt Lake City, Utah, after being released from 79 days of captivity and torture. His kidnaper, John D. Billet (right) was arrested 12 hours after he robbed a bank of \$20,915 according to Salt Lake City police and confessed that he had the boy chained to a bed. Police found the youth locked with a four-foot chain in a shabby house and released him. (NEA Telephoto)

IT'S A BUMPER CROP FOR UNCLE SAM-U. S. farmers have produced crops in 1951 which rank with the 1949 harvest as the second largest in history. The Newschart above compares 1951 production of major crops with Department of Agriculture goals set early in the year. Freakish weather was largely responsible for keeping output of certain crops from exceeding D. A. goals. All the tradition to are being set this year in hay, rice, grapes and hops, with soybeans, tobacco and pecans at near-record levels.

#### Tues., Jan. 15, 1952-The News-Review, Roseburg, Ore.

DR. A. L. STRAND, standing, president of Ore gon State College, is shown as he addressed members of the Roseburg Chamber of Commerce at a forum luncheon in the Umpqua Hatel Monday noon. While here, he was taken on tour of Roseburg's industries and attended an Oregon State College Alumni Association Mee ting. "Si" Dillard sits at left and Maurice Newland at right. # **Decision Of Many Efficient Oregon Legislators Not To Return Strikes** As State Faces Worst Money Mess

### By PAUL W. HARVEY

SALEM (AP) - When many legislators said at the end of the 116-day session last April that they wouldn't come back because they couldn' afford it, we discounted a lot of that talk. We had heard it before.

But now it looks like a lot of them weren't kidding. And that is bad for the State of Oregon.

With the 1953 legislature facing the worst financial problem in its history, the state will need legis-lators who know the ropes. What brings this up is that two what brings this op is that two stalwart members have said in the past few days that they won't run again. They are Sen. William E. Walsh. Coos Bay, and Speaker of the House John F. Steelhammer, Salem.

Salem. Walsh, a former Senate presi-dent, was chairman of the Senate Law Committee last session. He was on the Highway Tax, and Ways and Means Committees. All four of these are powerful committees showing that Walsh is one of the five or six senators who really made the wheels go around. Steethermore, the Welst is made the wheels go around. Steelhammer, like Walsh, is a veteran of six legislatures. Both are lawyers, and lawyers are need-ed badly. There aren't enough of them to man the two senate law committees, so they had to be combined into one committee last session session.

#### Pay Too Small

Starting with the 1951 legislature, the lawmakers get \$600 a year. That isn't enough to induce goodsalaried men to leave their jobs to come to the legislature.

"I would like to serve longer," Steelhammer said, 'because it's in my blood. But I can't afford the financial sacrifice. Last session I had to borrow \$500 to live on." The filing period for candidates ends March 7. By then we'd, know just how many legislators won't run again.

In 1951, half the house members were inexperienced, and that slowed the session.

Something will have to be done to shorten the sessions, and a legis-lative committee is studying that

This committee has \$5,000 to spend. It will consider many ideas, such as setting deadlines for intro-duction and consideration of bills, having key senate and house com-mittees meet jointly, and getting the Ways and Means Committee to start work before the session.
