Roseburg Dist. Timber Sales Top Appraisals

The Bureau of Land Management reports that the Roseburg Forest District's 1951 timber sale plan called for advertising one hundred two million board feet with sales at sixty-day intervals starting in February, 1951. On December 12, 1951, the last scheduled sale for 1951 was held. Records in the district office show 38 parcels totaling 83,579,000 board feet were sold in 1951. This volume brought a total price of \$2,148,980.25 as compared to the appraised price of \$1,851,200.50.

The average appraised price of Douglas Fir for the year was \$23.11 and the average selling price \$26.82 per thousand.

District Forester James W. Watts said that an additional nine parcels, totaling 14,110,000 board feet and having an appraised value of \$291,357.75, were advertised for sale but received no bids. All tracts receiving no bids in 1951 will be re-advertised in 1952 provided there are interested purchasers.

One sale was withdrawn from the sales plan due to a lack of access across private lands. Mr. Watts pointed out that timber sold from regular BLM lands in the Roseburg District contains a marketing area provision requiring that the timber be manufactured in certain specified areas of Douglas County. He explained that this is a protection to local communities against the removal of logs to other areas for manufacture.

4-H Club Makes Plans For Scrapbook Drive

County Needs Stressed In Talk By C. V. Stanton

plement to the lumber industry. In some areas the pulp industry has almost reached a parity with primary manufacturing, and the same can be expected here, he stated.

Unless a conservation plan is inaugurated, the waste products are utilized, by virtue of scarcity in lumber, prices will rise out of reach, it was explained.

Population Possibilities

The growth of Roseburg was also considered.

Portland's population increased to 100,000 on the basis of 40 billion feet of timber before any other industry had moved into the area, and their cities have noted similar development based on available timber supply, Stanton said.

In comparison, the Central Umpqua Basin contains approximately 40 billion feet of timber and Roseburg's population could possibly grow to 75,000 or 100,000.

If the increase in population does come, the City of Roseburg will be faced with problems of police and fire control, as well as inadequate school facilities, he explained.

The traffic arrangement in the downtown area would also have to be modified.

Tree Farms Suggested

What about agriculture in Douglas County?

It is time that crops adaptable to the County's soil and climate be introduced, Stanton said.

The editor also stressed the importance of utilizing sub-marginal land. Tree farms on such land would provide a revenue that has previously been overlooked, he noted.

But if any improvements are to be realized cooperation is necessary, Stanton said. It is only through teamwork that the County can be developed to its fullest extent.

YOUTH ACCUSED

A 19-year-old Oakland youth, Bobby Ray Bagby, was released in \$50 bail from the county jail after his arrest on a vandalism charge, Oakland Police Chief C. W. Manning reported.

Bail was set by the Oakland city recorder's office. The youth is accused of desecrating school property.

Bus Service At Issue

Also to be taken up at the Feb. 4 meeting, the Council decided, are numerous complaints about city bus service. City Manager W. I. Fliegel complained about the service during the recent shutdown.

Mayor Fliegel directed that the present franchise holder, Roseburg Transit Company, be notified that the matter will be taken up at the Feb. 4 meeting.

In other action last night, the council:

(1) Awarded contract for construction of a sanitary sewer between Mosher and Hoover Streets to Willard F. Stoneburner, Springfield contractor. Stoneburner was low bidder at \$1,425. Bids were also submitted by J. R. McAllister and Pre-Mix Concrete, both of Roseburg.

(2) Granted renewal of liquor license to Fraternal Order of Eagles, 504 S. Stephens St.

(3) Authorized City Attorney Paul Geddes to draw up an amendment to the State Highway Commission which would permit federal aid in connection with construction highways in the area.

Truman's Budget Faces Trimming

who claim such a slash would save a billion dollars in the new year. Defense spending also is likely to be curbed, but barring an unexpected turn for the better in world affairs, no deep cuts are probable.

WASHINGTON (AP) — Evidence mounted Tuesday that President Truman's request for five billion dollars more taxes was likely to be met with no real expectation that Congress would grant it.

For instance: 1. No arrangements have been made for Secretary of the Treasury Snyder to present any tax plan to the House Ways and Means Committee, starting point for all revenue legislation.

2. The President himself, in giving newspapermen an advance preview last Saturday of his \$85,444,000,000 budget for the next fiscal year starting July 1, said he planned no special message to Congress on taxes.

He said he had made clear last year what he wanted, when he asked for at least ten billion extra tax dollars, and that is still his program.

Twin Brothers Heirs To Rich Timber Tract

VANCOUVER, B. C. (AP) — Donald and Dengli Skiles, twin brothers living in suburban North Vancouver, have learned they are heirs to a timber tract in Idaho said to be worth \$10,000.

Vancouver police missing person bureau contacted the brothers, after relatives in Sweet Home, Ore., asked for aid in locating them.

The timber holding was bought in 1918 by the twins' parents who died 25 years ago.

Logging interests are said to be dickering for timber rights on the property.

"We have never seen it," Donald said Monday, "but I doubt very much it is worth \$10,000."

The brothers, are musicians and "will go on playing music" while they investigate the reported fortune.

What makes Olympia so satisfying?

"It's the Water"

Olympia's rich, satisfying flavor is attributed to the rare artesian water from our own wells at Tumwater, Washington. This water improves every process of brewing. It extracts hidden flavors from hops and grains. It creates more active fermentation, giving sparkling life to the beer, and assures constant purity. Enjoy Olympia . . .
