**Scouters Plan National Week Activities**

"At no time in our history has America been more in need of a program that trains in leadership and physical fitness than that of the Boy Scouts," stated Calvin Baird, chairman of Douglas District, Oregon Trail Council, Boy Scouts of America.  
Speaking before a recent meeting of Douglas District, Baird said: "The four aims of Boy Scouts of America are character building; leadership training; physical fitness and citizenship. We have a job cut out for us, so let's get busy."  
And get busy is what the local scouts have been doing. National Scout week is Feb. 16 to 23, and a definite program is being worked out.  
The goal, Baird announced, is to have every troop obtain some summer camping at council camps and to have every Cub Pack get some kind of summer program. With the help of his committee Baird is planning an adequate program for year-around scouting with civic service projects.  
The aim is to increase membership from about 1500 men and boys to 2500. This will require the aid and assistance of well-informed community citizens, said Baird. It also requires that adequate money be available to keep the program going.  
The scout committee intends to

give all adult leaders in the district the opportunity to have basic training. It would like to have all citizens know something about scouting and its aims through publicity and civic service by the scouts.  
All unit meeting places are to be inspected by the health and safety committees to insure the safety of the boys. The committee hopes to have every boy in the district advance at least one rank during the year.  
The most important job of the district chairman is the selection of men to work with him in the district organization. Some of

his duties are listed as follows: to head up the work of the district committee and preside at its meetings, to inspire confidence of scouts and other citizens in the volunteer leadership of the district.  
Baird has some of the top men in the community interested in the scouting movement on his staff. District Vice Chairman is Vic Bakala; organization and extension Chairman Robert Shelton; leadership training Chairman Roy Crain; advancement Chairman Earl Ladd; camping and activities, Charles Collins, and finance Chairman, Charles Thomas.
