Assisting her were Mrs. Georgia McFall, Mrs. Lorraine Smith, Mrs. Cal Schiemaster, Mrs. H. A. R. Brown and Mrs. Jerry Whitson. Czechs Execute Five More As 'U. S. Spies'

LONDON — Five more Czech nationals convicted of spying for the United States have been executed in Prague, Moscow Radio said Thursday. The deaths brought to more than 130 the announced toll of executions of such charges in Communist countries since October. As with the others put to death and at least 30 others imprisoned, it was alleged the defendants were part of a giant American spying financed through the U. S. Mutual Security Act. The Reds have protested the legislation and given wide publicity to a series of spy trials since its passage in October. The U. S. government has denied the Red charges that a sum of 100 million dollars provided by the legislation to aid Iron Curtain refugees has been used to finance espionage.

Elizabeth In London To Begin Her Reign

(Continued from Page 1)
turn the edifice trick. They believe she has the same kind of tough-minded determination as the re-haired Elizabeth who mounted a shaky throne in 1558 and ruled "my beasts of English" with a rod of iron for 44 years. Besides having the same name, the new Elizabeth ascends the throne at the same age, 25, as did the first one. Some people stress the fact that Britain has always been on top of the world when a queen occupied the throne. They especially point to the reigns of the first Elizabeth and Victoria. Bears Magic Name To Britons Elizabeth is a magic name. It means men like Sir Francis Drake, who whipped the Spanish Armada and ravaged Spanish treasure galleons, and a host of others who spread English power over the globe with explorations and merchanting in Asia, Africa and the new world. It also means a great age of letters—an age that produced Shakespeare. Those who think that Britain with the new Elizabeth can find the path back to unquestioned greatness emphasize she has a "mind of her own." The Tudor Bess showed the same wilful mind to astonished diplomats and intriguing courtiers. The hedged authority of the new ruler is a far cry from the almost unlimited royal powers of the other Elizabeth. But the British hope the new "Queen Bess" can strike the vital spark that may fire the flagging nation to new heights.

Kindergarten Prospects Not Good At Present

"Kindergarten is not in prospect in the immediate future for the Roseburg school system because this area is still expanding so rapidly. The fact that there will be 16 first graders two years from now is an indication of what space would be needed now for kindergarten," Mrs. Gerald McCarthy, chairwoman, reported at the pre-school study group of Fullerton Parent-Teacher association Thursday evening after consulting Paul Elliott, superintendent of Roseburg schools. Other reports brought out the fact that there are about 65 children enjoying private kindergartens where music is stressed. There was a diversity of background among those attending, for in addition to parents who had been residents of this area for some time, one mother had come from the state of Washington, where kindergarten was a part of the school system. Still another mother had been trained as a primary teacher in England, where small children attend kindergarten all day long and the cooperation school at the age of 5 years. Color Book Not Favored The group lamented the extensive use of color books in kindergartens and attested to a decided preference for giving children opportunities for free creative drawing. It was learned that as long as 15 years ago in England youngsters were given big pieces of butcher paper and long handled brushes, so that they might paint with the sweep most suited to the muscular development of that age. The socialization of the child, when he goes to kindergarten and learns to play with other children in large groups and discovers the magic of sharing, was stressed. In lieu of kindergarten in Roseburg, the neighborhood cooperation club concluded to be the present solution. One group using this idea is in the process of formation, with six interested mothers arranging to take turns, each having the children for a play group one morning each week. Mothers interested in forming such neighborhood groups may call Mrs. McCarthy (phone 3-8729) for details. The next meeting of the pre-school parents discussion group will be held in March, the date to be announced later. Parents of school age children are invited to meet on Monday, Feb. 18 at 3 p.m. at Fullerton school to talk with Jack Lucas, director of special education about his work with "the exceptional child," who is any child who deviates from the normal one-way or the other.
