CHICAGO CONTRACTOR OF THE PARTY HOLLOW COMFORT

Robert Ingersoll, the noted in-fidel, was asked to deliver the funeral oration at the grave of the child of an intimate friend. The best he could offer to assuage the trars of the grief-stricken mother was the line, oft-quoted since: "It is better to have loved and lost than never to have loved at all."

How different from the assurance of the man who has come to God through faith in Christ Jesus said: "My sheep hear My voice..., and I give unto them eternal life; and they shall never petish, neither shall any man pluck them out of My hand."

He who has learned to know Christ as his Savior from sin need not pin his hopes for the future on the shallow comfort of greeting eard philosophy. Having placed his hand into the hand of the eternal Shepherd, he can say: "Yea, though I walk through the valley of the shadow of death, I will fear no evil; for Thou are with me."

There is nothing uncertain about the Christian faith, it is based on God's eternal promisea.

REVIVA

Once a month it has been the custom to hold a family fellowship supper but these have always occurred on a week night. In an attempt to focus the attention of the family on the church each Sunday and to streamline the number of separate programs by combining them into one evening, this experimental three-hour fellowship has been planned.

Beginning at 5:30 p.m., the families of the church are invited to bring their food and table service for the evening meal, in the form of a smorgasbord. At 6:30 the group will break into smaller units by ages for a period of discussion and sharing with one another. Motion pictures and sildes will be featured in these periods of study. At 7:30 p.m. the entire group will assemble in the sanctuary for the closing worship service. Mrs. Shirlle Iverson will be guest soloist, and the Rev. MacArthur will bring a brief message illustrated by a colored chalk drawing.

The public is invited to participate in any or all of these activities.

#### Disease, Cure Matter Of Molecules, Claim

PORTLAND & Dr. Linus Pauling thinks science may soon discover that disease—and cure—are a matter of molecules.

Pauling, head of the chemistry department at California Institute of Technology, told a Reed College audience here Tuesday that, "as soon as this understanding of the molecular nature of disease and the molecular action of certain drugs is available to him, the research man will be able to tackle disease in a scientific and straightforward manner. Then, we shall have a true science of medicine," he said.
